Slavery and sexuality in the ancient world are well researched on their own yet rarely have they been examined together Chapters address a wealth of art literature and drama to explore a wide range of issues including gendered power dynamics sexual violence in slave revolts same sex relations between free and enslaved people and the agency of assault victims *The Psyche in Antiquity* Edward F./ Wesley Edinger (Deborah A. Christians, Gnostics and Philosophers in Late Antiquity Mark Edwards, 2018-02-06 Gnosticism Christianity and late antique philosophy are often studied separately when studied together they are too often conflated These articles set out to show that we misunderstand all three phenomena if we take either approach We cannot interpret or even identify Christian Gnosticism without Platonic evidence we may even discover that Gnosticism throws unexpected light on the Platonic imagination At the same time if we read writers like Origen simply as Christian Platonists or bring Christians and philosophers together under the porous umbrella of monotheism we ignore fundamental features of both traditions To grasp what made Christianity distinctive we must look at the questions asked in the studies here not merely what Christians appropriated but how it was appropriated What did the pagan gods mean to a Christian poet of the fifth century What did Paul quote when he thought he was quoting Greek poetry What did Socrates mean to the Christians and can we trust their memories when they appeal to lost fragments of the Presocratics When pagans accuse the Christians of moral turpitude do they know more or less about them than we do What divides Augustine the disenchanted Platonist from his Neoplatonic contemporaries And what God or gods await the Neoplatonist when he dies *Consensus Realities* Stefan Wurm, 2022-01-05 We perceive the world in which we live through our senses and make sense of it using our minds In this way we construct our very own consensus realities our subjective interpretations of the world as each one of us perceives and understands it What do we know about how we construct our consensus realities How do human body and mind connect as they somehow must to give us the experience of the world that we know we have The first three book chapters invite the reader to explore what the human brain philosophy of mind and psychology can tell us about the relationship between the human body and mind We all are curious about those things and exploring them is possible for all of us We have no other choice than to form our own consensus realities as it is through them that we can make sense of us in this world Many consensus realities only deviate from objective reality in as much as our personal vanity goes to make us more comfortable with who we are Others however can seemingly dissociate themselves to much greater degrees from objective reality endorsing fake news and false narratives

creating their own make believe worlds in the process The fourth book chapter looks into some of the implications that has had in the past and might have in the future
