Psyche In Antiquity Bk 2 Gnosticism And Early Christian:

Jesus and the Lost Goddess Timothy Freke, Peter Gandy, 2011-08-10 Why Were the Teachings of the Original Christians Brutally Suppressed by the Roman Church Because they portray Jesus and Mary Magdalene as mythic figures based on the Pagan Godman and Goddess Because they show that the gospel story is a spiritual allegory encapsulating a profound philosophy that leads to mythical enlightenment Because they have the power to turn the world inside out and transform life into an exploration of consciousness Drawing on modern scholarship the authors of the international bestseller *The Jesus Mysteries* decode the secret teachings of the original Christians for the first time in almost two millennia and theorize about who the original Christians really were and what they actually taught In addition the book explores the many myths of Jesus and the Goddess and unlocks the lost secret teachings of Christian mysticism which promise happiness and immortality to those who attain the state of Gnosis or enlightenment This daring and controversial book recovers the ancient wisdom of the original Christians and demonstrates its relevance to us today

The British National Bibliography Arthur James Wells, 2002

The Problem of Evil in the Ancient World Mark Edwards, 2023-06-22

The aim of this book is to ascertain how ancient Greek and Latin authors both pagan and Christian formulated and answered what is now called the problem of evil The survey ranges chronologically from the classical and Hellenistic eras through the Roman era to the end of the pagan world Six of the twelve chapters are devoted to Christianity including Manichaeism as one

thesis of the book is that the problem of evil takes an acute form only for Christians since no other philosophy of antiquity posits a personal God exercising providence over individuals without having to overcome countervailing forces None the less it will also be shown that Greek philosophies Platonism in particular come close to the Christian formulation Being conscious of the affinity between Greek thought and their own early Christians respond to the problem of evil in the same way as the philosophers by questioning the existence of evil rather than of the divine

Transforming Body & Soul Steven A. Galipeau, 2011-12 Religion has become sick Jesus's teaching and healing ministries point out this frightening and important truth The worst enemies of religion usually lie within religion itself A subtle rigidity takes over that blocks the flow of healing Chapter 7 Transforming Body and Soul With all the scholarly attention given to the Scriptures in the Christian community it is remarkable how little study has been done of the Gospel healing stories These stories embody and reflect powerful interpersonal dynamics which are being rediscovered today in the practice of psychotherapy As a healer Jesus forms a bridge between the most ancient of healers the shamans and recent developments in psychosomatic medicine and depth psychology Body and soul are intimately connected health in one is often reflected in wholeness in the other Blending the insights of Biblical scholarship with those of modern psychology Galipeau examines each of the Gospel healing stories in depth Transforming Body and Soul is a valuable resource for psychotherapists and counselors as well as clergy and pastoral ministers Anyone seeking health and wholeness of body and spirit will find this a rewarding challenging and therapeutic book Originally published by Paulist Press in 1990 Transforming Body and Soul is a significant contribution to Jungian psychology and to the relationship between psychological and spiritual development This Revised Edition includes an Index Larger pages Larger font and a Foreword and Afterword by the author

Cosmology and Fate in Gnosticism and Graeco-Roman Antiquity Nicola F. Denzey, 2013-04-09 In *Cosmology and Fate in Gnosticism and Graeco Roman Antiquity* Nicola Denzey Lewis dismisses Hans Jonas' mischaracterization of second century Gnosticism as a philosophically oriented religious movement built on the perception of the cosmos as negative or enslaving A focused study on the concept of astrological fate in Gnostic writings including the Apocryphon of John the recently discovered Gospel of Judas Trimorphic Protennoia and the Pistis Sophia this book reexamines their language of enslavement to fate Gk heimarmene from its origins in Greek Stoicism its deployment by the apostle Paul to its later use by a variety of second century intellectuals both Christian and non Christian Denzey Lewis thus offers an informed and revisionist conceptual map of the ancient cosmos its influence and all those who claimed to be free of its potentially pernicious effects
