Dispossession and Resistance in India Alf Gunvald Nilsen, 2010-04-05 This book deals with the controversies on developmental aspects of large dams with a particular focus on the Narmada Valley projects in India Based on extensive ethnographic fieldwork and research the author draws on Marxist theory to craft a detailed analysis of how local demands for resettlement and rehabilitation were transformed into a radical anti dam campaign linked to national and transnational movement networks The book explains the Narmada conflict and addresses how the building of the anti dam campaign was animated by processes of collective learning how activists extended the spatial scope of their struggle by building networks of solidarity with transnational advocacy groups and how it is embedded in and shaped by a wider field of force of capitalist development at national and transnational scales The analysis emphasizes how the Narmada dam project is related to national and global processes of capitalist development and relates the Narmada Valley movement to contemporary popular struggles against dispossession in India and beyond Conclusions drawn from the resistance to the Narmada dams can be applied to social movements in other parts of the Global South where people are struggling against dispossession in a context of neoliberal restructuring As such this book will have relevance for people with an interest in South Asian studies Indian politics and Development Studies

Savage Attack Crispin Bates,Alpa Shah,2017-07-06 In *Savage Attack Tribal Insurgency in India* the authors ask whether there is anything particularly adivasi about the forms of resistance that have been labelled as adivasi movements What does it mean to speak about adivasi as opposed to peasant resistance Can one differentiate adivasi resistance from that of other lower castes such as the dalits In this volume the authors move beyond stereotypes of tribal rebellion to argue that it is important to explore how and why particular forms of resistance are depicted as adivasi issues at particular points in time Interpretations that have depicted adivasis as a united and highly politicised group of people have romanticised and demonized tribal society and history thus denying the individuals and communities involved any real agency Both the interpretations of the state and of left wing supporters of tribal insurgencies have continued to ignore the complex realities of tribal life and the variety in the expressions of political activism that have resulted across the length and breadth of the Indian subcontinent

Retro-modern India Manuela Ciotti, 2012-03-12 Firmly situated within the analytics of the political economy of a north Indian province this book explores self fashioning in pursuit of the modern amongst low caste Chamars Challenging existing accounts of national modernity in the non West the book argues that subaltern classes shape their own ideas about modernity by taking and rejecting from models of other classes within the same national context While displacing the West in its colonial and non colonial manifestations as the immanent comparative focus the book puts forward a unique framework for the analysis of subaltern modernity This builds on the entanglements between two main trajectories both of which are viewed as the outcome of the generative impetus of modernisation in India the first consists of the Chamar appropriation of socio cultural distinctions forged by 19th century Indian middle classes in their encounter with colonial modernity the second features the Chamar subversion of high caste ideals and practices as a result of low caste politics initiated during the 20th century The author contends that these conflicting trends give rise to a temporal antinomy within the Chamar politics of self making caught up between compulsions of a past modern and of a

contemporary one The eclectic outcome is termed as retro modernity While the book signals a politics of becoming whose dynamics had previously been overlooked by scholars it simultaneously opens up novel avenues for the understanding of non elite modern life forms in postcolonial settings The book will interest scholars of anthropology South Asian studies development studies gender studies political science and postcolonial studies
