The intent is to situate the study of history books within the current literature on the history of the book and the history of print culture After discussing the process whereby the inheritance of the medieval chronicle was broken down into a variety of different historical genres during the sixteenth century the author turns to the questions of how and why history books were read who owned them the borrowing and lending of them their production and printing and methods for marketing and distributing them Boudica's Odyssey in Early Modern England Samantha Frénée-Hutchins, 2016-04-15 This diachronic study of Boudica serves as a sourcebook of references to Boudica in the early modern period and gives an overview of the ways in which her story was processed and exploited by the different players of the times who wanted to give credence and support to their own belief systems The author examines the different apparatus of state ideology which processed the social religious and political representations of Boudica for public absorption and helped form the popular myth we have of Boudica today By exploring images of the Briton warrior queen across two reigns which witnessed an act of political union and a move from English female rule under Elizabeth I to British Scottish masculine rule under James VI I the author conducts a critical cartography of the ways in which gender colonialism and nationalism crystallised around this crucial historical figure Concentrating on the original transmission and reception of the ancient texts the author analyses the historical works of Hector Boece Raphael Holinshed and William Camden as well as the canonical literary figures of Edmund Spenser William Shakespeare and John Fletcher She also looks at aspects of other primary sources not covered in previous scholarship such as Humphrey Llwyd s Breuiary of Britayne 1573 Petruccio Ubaldini s Le Vite delle donne illustri del regno di Inghilterra e del regno di Scotia 1588 and Edmund Bolton s Nero Caesar 1624 Furthermore she incorporates archaeological research relating to Boudica **Shakespeare and Renaissance Politics**
