Daniel Morris, Helen Maxson, 2012-06-14 Our culture attempts to separate competing ideological factions by denying relationships between multiple perspectives and influences outside of one's own narrow interpretive community The distinguished essayists in this volume find Daniel R Schwarz's pluralistic self-questioning approach to what he calls reading texts and reading lives quite relevant to the current historical moment and political situation A legendary scholar of modernist literature Schwarz's critical principles are a healthy corrective to cultural hubris The essayists treat works ranging from fictions by Joyce Conrad Morrison and Woolf to the poetry of Yeats to Holocaust literature to the environmental writings of Wendell Berry to the photographs of Lee Friedlander The authors focus on different works but they follow Schwarz in stressing formal elements most often associated with traditional realism while keeping an eye on historical and author-centered approaches The essayists also follow Schwarz in their emphasis on narrative cohesion and in how they look for signs of agency among characters who possess the will to alter their fate even in a seemingly random universe such as the one depicted by Conrad Readers with eyes to ethics and aesthetics they follow Schwarz in encouraging a values-centered approach that leaves room for the reader to address the ways in which reading a text correlates to the reader's ability to find meaning and value in experience outside the text Like Schwarz the essays look for intentionality of authorial meaning rather than something called an author function as well as for the relationship between lived experience and the imagined world of the literary work rather than the endless semiotic play of an ultimately indecipherable text **The Seduction of**

Pessimism in the Novel Tom Ribitzky, 2024-10-31 The Seduction of Pessimism in the Novel Eros Futility and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being Eros is supposedly the consolation for this rift but the history of the novel documents its expression as one of frustrated desires neuroses anxieties and cosmic doom As if repeating the trauma from that original split in Plato a split that also divides philosophy from literature the novel treats eros as a site of loss and grief from the medieval romances to Goethe Emily Brontë

Proust Mann Woolf D H Lawrence and Nabokov The pessimism that emerges from this eros tells us something fundamental about who we are something that only the novel can say At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity complexity and contingency and as we are hurtling toward a bleak future of climate catastrophe and political instability the novel is one of the last bastions of humanity even as it is quickly being eroded

The Science of Character S. Pearl Brilmyer, 2022-01-11 *The Science of Character* makes a bold new claim for the power of the literary by showing how Victorian novelists used fiction to theorize how character forms In 1843 the Victorian philosopher John Stuart Mill called for the establishment of a new science the science of the formation of character Although Mill's proposal failed as scientific practice S Pearl Brilmyer maintains that it found its true home in realist fiction of the period which employed the literary figure of character to investigate the nature of embodied experience Bringing to life Mill's unrealized dream of a science of character novelists such as George Eliot Thomas Hardy and Olive Schreiner turned to narrative to explore how traits and behaviors in organisms emerge and develop and how aesthetic features shapes colors and gestures come to take on cultural meaning through certain categories such as race and sex Engaged with materialist science and philosophy these authors transformed character from the liberal notion of the inner truth of an individual into a materially determined figuration produced through shifts in the boundaries between the body's inside and outside In their hands Brilmyer argues literature

became a science not in the sense that its claims were falsifiable or even systematically articulated but in its commitment to uncovering through a fictional staging of realistic events the laws governing physical and affective life The Science of Character redraws late Victorian literary history to show how women and feminist novelists pushed realism to its aesthetic and philosophical limits in the crucial span between 1870 and 1920 *Ecocriticism in the Modernist Imagination* Kelly Elizabeth Sultzbach,2016-08-24 Although modernism has traditionally been considered an art of cities Ecocriticism in the Modernist Imagination claims a significant role for modernist texts in shaping environmental consciousness Analyzing both canonical and lesser known works of three key figures E M Forster Virginia Woolf and W H Auden Sultzbach suggests how the signal techniques of modernism encourage readers to become more responsive to the animate world and non human minds Understanding the way these writers represent nature s agency becomes central to interpreting the power dynamics of empire and gender as well as experiments with language and creativity The book acknowledges the longer pastoral tradition in literature but also introduces readers to the newly expanding field of ecocriticism including philosophies of embodiment and matter queer ecocriticism and animal studies What emerges is a picture of green modernism that reifies our burgeoning awareness of what it means to be human within a larger living community **E. M. Forster's Material Humanism** Nour Dakkak,2023-12-22 Through attending to the nonhuman E M Forster s Material Humanism Queer Matters places Forster s fiction in conversation with contemporary debates concerned with the intersection of neomaterialism environmental humanities and queer ecology The book revisits Forster s liberal humanism from a materialist perspective by focusing on humans embodied activities in artificial and natural environments By examining the everyday embodied experiences of characters the book thus brings to the fore insignificant and sometimes overlooked aspects in Forster s fiction It also places importance on the texts treatment of queer intimacy as an embodied experience that can transcend sexual desire The book acknowledges nonhuman agency as central to our understanding of queerness in Forster s texts and studies the representation of formless matters such as dust as a way through which Forster s ecological concerns arise by linking the fate of oppressed humans with oppressed nonhuman others **Reading the American Novel 1780 - 1865** Shirley Samuels,2014-02-10 Reading the American Novel 1780 1865 provides valuable insights into the evolution and diversity of fictional genres produced in the United States from the late 18th century until the Civil War and helps introductory students to interpret and understand the fiction from this popular period Offers an overview of early fictional genres and introduces ways to interpret them today Features in depth examinations of specific novels Explores the social and historical contexts of the time to help the readers understanding of the stories Explores questions of identity about the novel its 19th century readers and the emerging structure of the United States as an important backdrop to understanding American fiction Profiles the major authors including Louisa May Alcott Charles Brockden Brown James Fenimore Cooper Nathaniel Hawthorne Herman Melville Harriet Beecher Stowe alongside less familiar writers such as Fanny Fern Caroline Kirkland George Lippard

Catharine Sedgwick and E D E N Southworth Selected by Choice as a 2013 Outstanding Academic Title **Free Indirect Style in Modernism** Eric Rundquist, 2017-11-30 Free Indirect Style FIS is a linguistic technique that defies the logic of human subjectivity by enabling readers to directly observe the subjective experiences of third person characters This book consolidates the existing literary linguistic scholarship on FIS into a theory that is based around one of its most important effects consciousness representation Modernist narratives exhibit intensified formal experimentation and a heightened concern with characters conscious experience and this provides an ideal context for exploring FIS and its implications for character consciousness This book focuses on three novels that are central to the Modernist canon Virginia Woolf s *To the Lighthouse* D H Lawrence s *The Rainbow* and James Joyce s *Ulysses* It applies the revised theory of FIS in close semantic analyses of the language in these narratives and combines stylistics with literary criticism linking interpretations with linguistic features in distinct manifestations of the style *Aesthetics and Ideology of D. H. Lawrence, Virginia Woolf, and T. S. Eliot* Petar Penda, 2017-12-15 Scrutinizing the aesthetic and ideological in the works by Lawrence Woolf and Eliot this book gives a different perspective on Modernism and what are considered to be its principal features In that respect fragmentation disunity relativity of things break with tradition as well as the depiction of life s disorder are disputed and seen as aesthetic means for the promotion of certain ideologies *Aesthetics and Ideology of D H Lawrence Virginia Woolf and T S Eliot* offers a smooth transition from general discussion and revision of some fixed concepts related to Modernism through individual authors and their major works to the conclusion where the main findings are summarized and further explicated Apart from dealing with Modernism in general *Aesthetics and Ideology of D H Lawrence Virginia Woolf and T S Eliot* presents a somewhat different view on the authors it deals with They are not only seen as opponents of established religious political and social views but to a certain extent as their perpetrators This duality concerning their stances is reconciled by their insisting on the aesthetic unity *Forgiveness in Victorian Literature* Richard Hughes Gibson, 2015-01-29 Forgiveness was a preoccupation of writers in the Victorian period bridging literatures highbrow and low sacred and secular Yet if forgiveness represented a common value and language literary scholarship has often ignored the diverse meanings and practices behind this apparently uncomplicated value in the Victorian period *Forgiveness in Victorian Literature* examines how eminent writers such as Charles Dickens George Eliot Thomas Hardy and Oscar Wilde wrestled with the religious and social meanings of forgiveness in an age of theological controversy and increasing pluralism in ethical matters Richard Gibson discovers unorthodox uses of the language of forgiveness and delicate negotiations between rival ethical and religious frameworks which complicated forgiveness s traditional powers to create or restore community and within narratives offered resolution and closure Illuminated by contemporary philosophical and theological investigations of forgiveness this study also suggests that Victorian literature offers new perspectives on the ongoing debate about the possibility and potency of forgiving **Reading the Eighteenth-Century Novel** David H.
