The Forging of the American Empire Sidney Lens, 2003-06-20 From Mexico to Vietnam from Nicaragua to Lebanon and more recently to Kosovo East Timor and now Iraq the United States has intervened in the affairs of other nations Yet American leaders continue to promote the myth that America is benevolent and peace loving and involves itself in conflicts only to defend the rights of others excesses and cruelties though sometimes admitted usually are regarded as momentary aberrations This classic book is the first truly comprehensive history of American imperialism Now fully updated and featuring a new introduction by Howard Zinn it is a must read for all students and scholars of American history Renowned author Sidney Lens shows how the United States from the time it gained its own independence has used every available means political economic and military to dominate other nations Lens presents a powerful argument meticulously pieced together from a huge array of sources to prove that imperialism is an inevitable consequence of the U S economic system Surveying the pressures external and internal on the United States today he concludes that like any other empire the reign of the U S will end and he examines how this time of reckoning may come about
