Bailkey, 1992 This primary source reader covers the entire span of ancient history providing helpful editorial material and carefully selected sources to promote student learning The selections in this text encourage critical thinking through an examination of parallel developments across ancient civilizations during the same historical periods Mysticism Jess Byron Hollenback, 1996 This sweeping

study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience God and His Coexistent Relations to the Universe: George D. Shollenberger, 2014-01-30 In the book God and His Coexistent Relations to the Universe the author is rejecting the universe that Judaism Christianity Islam Isaac Newton and Albert Einstein have accepted for a long period To replace this old universe an improved universe appeared from the thoughts of Confucius Anaxagoras Plato and Jesus who taught the death of our sun in Ch 24 of Matthew Unfortunately this teaching by Jesus was quieted for fifteen centuries by Irenaeus until Copernicus stood up and said that earth is not the center of the universe So an improved universe was becoming very interesting to many scientists This improved universe of Copernicus would expand when Kepler found that our sun has a system of eight precise planets Slowly the improved universe would become very clear when Leibniz found the immortal human souls and when Galileo found the bodies are made by these immortal souls In 1766 Ben Franklin went to Germany in order to learn the immortal souls of Leibniz In the next ten years Americans would separate America from England which still accepts the old universe After this separation more discoveries would come to the USA from German and Chinese thoughts For example Riemann would tell the world that the relationships of bodies in the universe can be determined only by our senses and measurements With Riemanns statement the author concluded that God is always active The author also found that God and the bodies in the universe come together with co existent concepts With these advances the author rejects the old universe and says that the people of many nations will form a new religion under an active God Genesis Ouest Barry Verdi, 2014-10-21 Are the stories in Genesis fact myth legend the word of God philosophy or something else Through time what people think or remember about Genesis has become a mixture of fact and fable For example if you were to ask

someone what fruit Adam and Eve were tempted by most people might say An apple If you were to ask what color the apple was most people might state that they think the fruit was red Are these actual facts No people are simply using artistic imagination The stories in Genesis are multifaceted oral traditions about the human family that originated long before the established interpretations dogmas and doctrines of our contemporary world. One thing the stories do indicate is that we are all genetically connected regardless of our outward appearance yet we are divided due to multiple factors related to our situation in life and personal beliefs The Genesis Quest examines ancient roots of human thinking to strip away veneers of progressive interpretations and reveal the evolution of a philosophy six principles of the human spirit looking for the soul of our communal life God creation good and evil sharing mercy saving life and communicating These principles are intended to help us understand what it means to be human Star Wars and Philosophy Kevin S. Decker, 2010-10 Sensed a disturbance in The Force lately This is whats been setting your midi chlorians tingling Seventeen Jedi adepts got together to probe the deeper reaches of the Star Wars epic A hazardous guest philosophy is more risky than not letting a Catalog of **Copyright Entries. Shollenberger, 2012-06-08 THE GENERAL PURPOSE OF THIS BOOK The general purpose of this book is to build the minds of all Little Gods who were created by God who also created the universe About 4 4 million years ago Little Gods appeared on planet earth Today billions of Little Gods exist and have developed their minds after they found that God and the universe have no end However the minds of all Little Gods did not develop until counting tokens appeared about 9 000 years ago Then 5000 years later the Little Gods added symbols to these tokens These symbols were used in early texts and later in national languages religious scriptures scientific books newspapers etc For the last 4000 years many religious leaders were saying that the symbols in scriptures are sacred and are inspired by God In 2006 I found that God is infinite and unlimited Six years later I found that symbols are finite and limited These findings prove that scriptures cannot be sacred I confirmed these findings with new research on Greek writings and the teachings of Jesus in the New Testament In time I expect all Little Gods to worship the same God The purpose of my book is thus to bring all Little Gods together under one God Program of the Annual Meeting - American Historical Association American Historical Association, 1976 Some programs include also the programs of societies meeting concurrently with the association The Cumulative Book Index ,1977 A world list of books in the English language **The Ancient World** Richard Mansfield Haywood,1971 The Code Program of the ...
