Rao, 2000-11-30 Globalization is a force with a strong analyzable impact on management practices Rao and his contributors explore its implications and show how globalization's impacts differ by sector and region of the world Taking a comprehensive and integrated approach to the managerial implications of globalization they report research on six groups of critical issues the environmental micromanagerial the exporter importer interaction market communications sectoral management and regional management Academicians and executive policy makers concerned with the internationalization of business will find the book of special importance It may also be used as a text supplement in graduate courses in international business and marketing Rao's contributors focus primarily on the managerial implications of the globalization process that are of most concern to management today Combining conceptualization with empirical research they show how pervasive is the environmental force of globalization and focus on such up to date concerns as relationship marketing and the complex issues of importer exporter interaction The result is a useful insight into the interaction processes that govern international trading The contributors focus too on the unique impacts of globalization on information technologies the services industry and small and medium sized firms They also investigate the phenomena of newly emerging markets struggling to embrace free market systems and identify the challenges and opportunities these markets offer and how distinctly different they are from one market to another

Armies of Sand Kenneth Michael Pollack, 2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that by all rights they should have won and in their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties *Armies of Sand* Kenneth M Pollack's powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab

world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945 **Orientalism** A. L. Macfie,2019-08-05 No detailed description available for Orientalism **Egypt, a Country Study** Richard F. Nyrop,1983 General study of Egypt covers history demographic aspects and geographical aspects social structure minority groups religious practices education health the economy agricultural sector agrarian reform industrial sector banking trade government politics international relations military service defence administration of justice includes texts of peace treaties with Israel Bibliography glossary maps organigram photographs statistical tables Fields of Offerings Victor D. Sanua,1983 This Festschrift celebrates the multifaceted career of Raphael Patai presenting twenty two articles on Jewish folklore and mythology Jewish and Middle Eastern ethnology and anthropology the social psychology of Arabs and Jews Jewish cultural history and Zionism All of these are fields in which Raphael Patai has made major contributions *Islam in Everyday Arabic Speech* Moshe Piamenta,1979 Orientalism Edward W. Said,2014-10-01 A groundbreaking critique of the West's historical cultural and political perceptions of the East that is decades after its first publication one of the most important books written about our divided world Intellectual history on a high order and very exciting The New York Times In this wide ranging intellectually vigorous study Said traces the origins of orientalism to the centuries long period during which Europe dominated the Middle and Near East and from its position of power defined the orient simply as other than the occident This entrenched view continues to dominate western ideas and because it does not allow the East to represent itself prevents true understanding *From Muhammad to Bin Laden* David Bukay,2017-07-28 From Muhammad to Bin Laden analyzes the ideological religious and cultural foundations of one of the most inconceivable phenomena in contemporary world politics Bukay analyzes the homicide bombings and atrocities perpetuated by worldwide jihad He also uses information from primary sources to suggest how to cope with this lethal phenomenon The book explores the meaning and interpretation of the seemingly benign concept of da wah the expansion of the Islamic community Da wah provides the religious and ideological justification for the lethal phenomenon of worldwide jihad it describes the incentive and motivational drive that support the emergence and the operation of the fundamentalist Islamic movement Bukay locates the dimensions of the phenomenon of jihad as well as the reasons motivations and aspects of the behavior of fundamentalist groups The importance of this work lies in its skillful combination of historical perspectives and contemporary dynamics religious and anthropological aspects of the phenomena and its use of research tools of both the humanities and social sciences By exploring the religious and cultural foundations of homicide bombers activities Bukay explains the essence of jihad how it is connected to the da wah and together how da wah and jihad

serve as the platform of the current worldwide terrorist activities Bukay quotes religious edicts and declarations of classical and modern Islamic texts as well as contemporary Islamic fanatic movements from Ibn Hanbal in the eighth century to Sayyid Qutb in the mid twentieth century He also aims to bring to the world s consciousness the aims and objectives of fundamentalist Islam The volume concludes by challenging the free world to wake up before the bells of another world war start to ring From Muhammad to Bin Laden will interest scholars policymakers and lay readers Its importance is transparent particularly in light of the current developments in the Middle East

The Semantics of Form in Arabic David Justice,1987-01-01 Justice s first aim in this volume is to demystify the Arabic language which is widely perceived as difficult to learn and has been characterised as ambiguous and confusingly polysemous The central concern of this three dimensional portrait of Classical Arabic is a version of the Sapir Whorf hypothesis that language is a determinant of other aspects of culture But rather than focusing on the possible influences of language on thought Justice is intersted in connections between language and language use or langue and parole Among the topics treated are the difficulty of Arabic morphosyntax and Whorfian semantics the role of duality in Arabic iconicity a population profile of vocabulary the syntactic cut of Arabic and the relation between causatives and verbs that ascribe qualities to an object This erudite and thought provoking volume will be of interest not only to Arabists but to linguistic anthropologists in general

Lebanon Adel Beshara,2013-01-11 Lebanon examines the ideological political and social underpinnings of the attempted coup against General Chihab s government in Lebanon in 1961 The author analyzes the role of the Syrian Socialist Nationalist Party the history of the army in Lebanon and it role in Lebanese politics and the impact of the coup on Lebanese political life This book provides an extraordinary insight into the mechanisms of military coups in the Arab world and will be of interest to students and researchers of the history and politics of the Middle East
