marketing DIRKSEN KROEGER LOCKLEY, 1968 **Marketing In India, Cases And Readings -** S. Neelamegham, 2012

This book provides a comprehensive overview of the current marketing environment in India It examines the changing dynamics of marketing management against the backdrop of globalization and liberalization analysing how both marketers and consumers are adapting to radical changes Insightful perspectives on key issues including market segmentation brand strategy product planning advertising pricing and distribution strategies as well as challenges of rural marketing are given This Fourth Edition boasts of incisive coverage of all contemporary concepts and formats of marketing including retailing Internet marketing and telemarketing It is further enriched by varied case studies that are drawn from the Indian experience and will go a long way to inculcate skills of analysis logical thinking and decision making in students Valuable not only to students and teachers of marketing management the book is a must have for practising managers who want to stay abreast with the latest developments in their field

International Marketing Strategy Hans B. Thorelli, 1976 **Exploring Proactive Market Strategies** Harald Brege, 2018-05-14 How can firms become more successful and achieve higher business performance How can they manage more complex and dynamic markets and maintain a high competitiveness The answer is through a more proactive approach to managing the market and creating customer value This thesis explores proactive market strategies which are firm s proactive strategies for creating communicating and delivering superior value to their customers thereby achieving superior business performance Prior literature in market orientation has touched the area of proactiveness in firms approach to the market but never properly defines proactiveness and lacks a clear connection to actual firm activities Thus in order to better understand how firms can gain the performance benefits from proactiveness this thesis sets out to explore what proactiveness in a market strategic context entails and what proactive activities firms perform in implementing their proactive market strategies The research is based on two papers each detailing one of the two complementary branches of the research The first paper presents the conceptual work focusing on a typology of marketoriented strategic behaviors which are important for understanding how firms can gain the potential performance benefits of market orientation and how they can achieve behavioral fit among their activities The second paper presents the

empirical work focusing on the qualitative case study performed and the themes of proactiveness that emerged from it These papers are then synthesized into a holistic view of proactive market strategies in the thesis The thesis finds that proactiveness at the firm level in a marketing context means a firm is future oriented initiative taking change inducing and creative With a basis in this definition and the extensive literature on market orientation the thesis presents conceptual developments that are important for understanding proactiveness in market strategy such as a framework for understanding market strategies through firm activities and one for identifying and categorizing different types of proactive activities Furthermore the thesis gives more detailed descriptions of the case firms and how their proactive activities help them achieve success This results in a thorough exploration of proactive market strategies which contributes to the marketing and strategic management literatures by clearly defining proactiveness conceptualizing and describing proactive market strategies and delineating proactive firm activities to better understand how firms are being proactive In doing so the thesis provides interesting directions for future research and presents interesting implications for managerial practice
