*Kierkegaard, Metaphysics and Political Theory* Alison Assiter, 2009-05-24 Alison Assiter argues that the notion of the person that lies at the heart of the liberal tradition is derived from a Kantian and Cartesian metaphysic This metaphysic according to her is flawed and it permeates a number of aspects of the tradition Significantly it excludes certain individuals those who are labelled mad or evil Instead she offers an alternative metaphysical image of the person that is derived largely from the work of Kierkegaard Assiter argues that there is a strand of Kierkegaard's writing that offers a metaphysical picture that recognises the dependence of people upon one another He offers a moral outlook derived from this that encourages

people to love one another Inspired by Kierkegaard Assiter goes on to argue that it is useful to focus on needs rather than rights in moral and political thinking and to defend the view that it is important to care about others who may be far removed from each one of us Furthermore she argues it is important that we treat those who are close to us well **Catalogue** Wesleyan University (Middletown, Conn.),1895 **Literary World; Choice Readings from the Best New Books, with Critical Reviews** ,1888 **Readings in Later Chinese Philosophy** Justin Tiwald,Bryan W.
