**The Irrelevant Leader** Phil Jewell,2025-07-14 Somewhere along the way we embraced the idea that good leaders should always know everything that s going on and have all the answers That staying in the loop means staying in charge Yet what if the real measure of leadership isn t how involved we are but how well the teams we lead can keep moving forward when we re not there After years in the military and then moving into civilian leadership roles Author Phil Jewell saw leaders struggling with the belief that they had to be involved in every process every decision to be successful Yet Phil had already learned a truth they hadn t yet discovered the team is the centre not the leader The Irrelevant Leader The Art of Leading by Letting Go challenges the traditional leadership model and provides today s leaders with a new way to lead one that is sustainable impactful and fulfilling Based on the author s years in military and civilian leadership roles this guide offers eight principles for leaders to rethink their leadership styles and move from relevance to irrelevance creating stronger teams with less overwhelm and greater results Direct and honest The

Decker, Jordan Paul Mitchell, 2015-11-12 Every day millions of employees watch their leaders sabotage themselves They watch they learn and then they do it too Next thing you know everyone's lost motivation and nobody takes ownership That's how organizations fail This book will help you break the vicious cycle of self handicapping leadership in your organization stop the excuses and unleash all the performance your team is capable of delivering Phil and Jordan reveal how and why people handicap themselves even when they know better Next they offer real solutions from their own pioneering research and consulting You'll find practical ways to strengthen accountability and self awareness recognize the big picture improve decision making deepen trust and engagement develop talent escape micromanagement and focus relentlessly on outcomes Your colleagues can be far more effective and so can you In fact it starts with you right here right now with this book Many leaders inadvertently create cultures of failure They model and promote selfhandicapping actions where people withdraw effort or create new problems in order to maintain their own self images of competence Self Handicapping Leadership shines the spotlight on this widespread and destructive phenomenon and presents real action plans for overcoming it
