TV by Design Lynn Spigel, 2008 From the Publisher While critics have long disparaged commercial television as a vast wasteland TV has surprising links to the urbane world of modern art that stretch back to the 1950s and 60s during that era the rapid rise of commercial television coincided with dynamic new movements in the visual arts a potent combination that precipitated a major shift in the way

Americans experienced the world visually TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium Lynn Spigel shows how TV was instrumental in introducing the public to the latest trends in art and design Abstract expressionism pop art art cinema modern architecture and cutting edge graphic design were all mined for staging techniques scenic designs and an ever growing number of commercials As a result TV helped fuel the public craze for trendy modern products such as tailfin cars and boomerang coffee tables that was vital to the burgeoning postwar economy And along with influencing the look of television many artists including Eero Saarinen Ben Shahn Saul Bass William Golden and Richard Avedon also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks Dizzy Gillespie Ernie Kovacs Duke Ellington and Andy Warhol all stop by in this imaginative and winning account of the ways in which art television and commerce merged in the first decades of the TV age

How Knowledge Workers Get Things Done Nathaniel Palmer, Max J. Pucher, 2012-01-01 Highly predictable work is easy to support using traditional programming techniques while unpredictable work cannot be accurately scripted in advance and thus requires the involvement of the knowledge workers themselves The core element of Adaptive Case Management ACM is the support for real time decision making by knowledge workers How Knowledge Workers Get Things Done describes the work of managers decision makers executives doctors lawyers campaign managers emergency responders strategist and many others who have to think for a living These are people who figure out what needs to be done at the same time that they do it and there is a new approach to support this presents the logical starting point for understanding how to take advantage of ACM Keith Swenson points out We are seeing a fundamental shift in our workforce and in the ways they need to be managed Not only are companies engaging their customers in new ways but managers are engaging workers in similarly transformed ways In award winning case studies covering industries as diverse as law enforcement transportation insurance banking state services and healthcare you will find instructive examples for how to transform your own organization This important book follows the ground breaking ACM publications Taming the Unpredictable and Mastering the Unpredictable and provides important papers by thought leaders in this field together with practical examples detailed ACM case studies and product reviews

Legendary Locals of Toledo Barbara L. Floyd, 2016 While Jesup W Scott proclaimed it the Future Great City of the World in 1868 in reality Toledo saw little development for the first four decades after its founding in 1837 Plagued by swamps disease and unwelcoming occupants few settled here But slowly the city attracted people who saw a chance to improve their lives and perhaps their fortunes including Edward Drummond Libbey In 1888 Libbey brought with him the glass industry that would dominate the city's economy and earn it the nickname of Glass Capital of the World **Legendary Locals of Toledo** describes the impact of people like Scott Libbey and others who shaped Toledo from the well known whose

Anxious Creativity David Trend, 2019-09-03 Creativity is getting new attention in today's America along the way revealing fault lines in U.S. culture Surveys show people overwhelmingly seeing creativity as both a desirable trait and a work enhancement yet most say they just aren't creative Like beauty and wealth creativity seems universally desired but insufficiently possessed Businesses likewise see innovation as essential to productivity and growth but can't bring themselves to risk new ideas Even as one's inner artist is hyped by a booming self-help industry creative education dwindles in U.S. schools *Anxious Creativity When Imagination Fails* examines this conceptual mess while focusing on how America's current edginess dampens creativity in everyone Written in an engaging and accessible style *Anxious Creativity* draws on current ideas in the social sciences economics and the arts Discussion centers on the knotty problem of reconciling the expressive potential in all people with the nation's tendency to reward only a few Fortunately there is some good news as scientists economists and creative professionals have begun advocating new ways of sharing and collaboration Building on these prospects the book argues that America's innovation crisis demands a rethinking of individualism competition and the ways creativity is rewarded

Saskatchewan Sentinels A to Z Herman Friesen, June Friesen, 2020-12-16 The images in this book have been organized in alphabetical order As you journey through the alphabet each image depicts a Saskatchewan town with the stately elevators that were so essential to the settlement and growth of the province You will also gain an insight into the variety of scenery as it changes with the seasons In an effort to preserve the memory of those wooden grain elevators Herman has spent many years photographing and then painting the images of what he refers to as Saskatchewan Sentinels In publishing this book he hopes the images will bring back fond memories for those who once worked at or used these elevators for their grain deliveries and will perhaps spark an interest in a generation that is more familiar with the inland grain terminals used today The images in this book depict scenes of Saskatchewan as it was during the 1980's to early 2000's
