Rediscovering The Ideas Of Liberty The Foundations Of Americas Greatness:

Rediscovering the Ideas of Liberty W. David Stedman, LaVaughn G. Lewis, 1995-03-01 The Religion of American Greatness Paul D. Miller, 2022-07-05 What is Christian nationalism and how is it different from patriotism Political theorist veteran and former White House staffer Paul D Miller provides a detailed portrait of and case against Christian nationalism calling for Christians to seek a healthier political witness that respects our constitutional ideals and a biblical vision of justice

America Rediscovered Robert Garrett with Robert Watkins, 2025-09-09 America must rediscover its national heritage rooted in the Enlightenment Western Christianity and classical Greece and Rome We now live in an age when traditional values and Western civilization itself are under assault from nearly every side This book seeks to celebrate the American story so rarely taught today by highlighting how it began where we are presently and answers for the future Its message is for all people of goodwill regardless of race political party or religious persuasion It acknowledges God because that much should be self evident from American history and the founding documents By what authority did the colonists dare to challenge the King of England George III and notify him that they had seized his thirteen colonies The Declaration of Independence answers that question by appealing to the laws of nature and nature s God the Creator The authors of America Rediscovered believe that readers may find understanding hope and answers in the postmodern age if we seek to strengthen traditional foundations and build a more perfect union **Rediscovering America's Sacred Ground** Barbara A.

McGraw, 2012-02-01 Returning to the ideas of John Locke and the Founders themselves Barbara A McGraw examines the debate about the role of religion in American public life and unravels the confounded rhetoric on all sides She reveals that no group has been standing on proper ground and that all sides have misused terminology religion secular dichotomies public private and concepts separation of church and state in ways that have little relevance to the original intentions of the Founders She rediscovers a theology underlying the founding documents of the nation that is neither anyone s particular religion nor one requiring religion Instead it justifies freedom of conscience for all and provides a two tiered public forum a civic public forum and a conscientious public forum for the debate itself and the actions that debate inspires America s Sacred Ground this theology and its public forum determines the meaning of freedom and the ways in which Americans can pursue the good good government good communities good families good relations between individuals and good individuals from a plurality of perspectives By exploring our past McGraw answers the critical question Who are we as a people and what do we stand for **Live Free Or Die** Sean Hannity, 2020-08-04 1 NEW YORK TIMES BESTSELLER America s top

rated cable news host offers his first book in over ten years a look at America s fight against those who would reverse our tradition of freedom America is great for a reason Built on principles of freedom rugged individualism and self sufficiency no country has ever accumulated more power and wealth abused it less or used that power more to advance the human condition And yet as America blossomed leftwing radicalism and resentment festered beneath the surface threatening to

undermine democracy in the form of social justice warriors the deep state and compromised institutions like academia and the mainstream media With the Democratic victory in 2020 we are now at risk for a big step toward full blown socialism along with the economic dysfunction and social strife that are its hallmarks With radical Democrats demanding the Green New Deal socialized medicine abortion on demand open borders abolishing the Electoral College packing the Supreme Court and an end to free speech our great nation will be fundamentally transformed beyond recognition Ronald Reagan once said Freedom is but one generation away from extinction and his words have never rung truer In Live Free or Die Sean demonstrates why now is an All Hands on Deck moment to save the Republic

The Authentic Constitution Arthur E. Palumbo,2009 In 2008 Alan Keyes a Republican presidential candidate in 1996 and 2000 described the relationship between the Declaration of Independence and the Constitution of the United States in the following way The doctrine of unalienable rights is to the Constitution what the laws of physics are to architecture or engineering Those laws are not repeated in every plan or architect s drawing but they are assumed and must be respected or the results will be defective and dangerous It is clear that the founding principles of the Declaration are intimately connected with the Constitution and it

Economic Inequality, Neoliberalism, and the American Community College Patrick Sullivan,2017-05-11 This book aims to deepen public understanding of the community college and to challenge our longstanding reliance on a deficit model for defining this important powerful and transformative institution Featuring a unique combination of data and research Sullivan seeks to help redefine update and reshape public perception about community colleges This book gives serious attention to student voices and includes narratives written by community college students about their experiences attending college at an open admissions institution Sullivan examines the history of the modern community college and the economic model that is driving much of the current discussion in higher education today Sullivan argues that the community college has done much to promote social justice and economic equality in America since the founding of the modern community college in 1947 by the Truman Commission

Proceedings of ... National Convention of the American Legion American Legion. National Convention,1963 *Rediscovering the Democratic Purposes of Education* Lorraine McDonnell,P. Michael

Timpane, Roger W. Benjamin, 2000 Why do America s public schools seem unable to meet today s social challenges As competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education Public schools were envisioned by the Founders as democratically run institutions for instilling civic values but today s education system seems more concerned with producing good employees than good citizens Meanwhile our country s diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools This volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education Nine original articles by some of today s leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived It both establishes the intellectual foundation for revitalizing American schools and offers concrete ideas for how the educational process can be made more democratic The authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship An initial series of articles reexamines the original premise of American education as articulated by important thinkers like Jefferson and Dewey A second group identifies flaws in how schools are currently governed and offers models for change A final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy Spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy It offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so vital to America s future

We Still Hold These Truths Matthew Spalding, 2014-04-08 The Essential Guide to Rolling Back the Progressive Assault and Putting America Back on Course Many Americans are concerned frightened angry The country it seems is on the wrong track But what is the right course for America Knowing what we stand against is not the same as knowing what we stand for Just in time Matthew Spalding provides the plan for translating angst into proper action in this bestselling book We Still Hold These Truths offers a bracing analysis of how and why we have lost our bearings as a nation and lays out the strategy to rescue our future from arbitrary and unlimited government

The Last Great Game: USA Versus USSR Paul Dukes, 2016-10-06 This book is a historical reinterpretation of the Cold War in the broadest sense from the viewpoint of the late 1980s Dukes contends that the rivalry of the USA and Soviet Union like the Great Game between Britain and Imperial Russia can be understood only by analysing their relationship over centuries He adopts the explanatory model of French historian Fernand Braudel the concepts of event conjuncture and structure and examines the super power relationship in an historical context stretching back to the medieval period He argues that the political and cultural gaps between Western and Soviet approaches at key events have stemmed from widely different experiences of these events as well as from long embedded traditions

Committee on Un-American Activities,1956 *The Nation* ,2007 **Why Conservatives Tell Stories and Liberals Don't** David M Ricci,2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford *Congressional Record* United States.
