Shaffer,1999-07-30 The conventional wisdom has it that a balanced budget is the height of economic rationality that social security should be privatized and that most adult welfare recipients could and should get jobs All our social and economic problems we are told are due to too much government if we only left the American free enterprise system alone the free market would heal all that ails our society and lead to lasting prosperity Challenging these widespread stereotypes and myths this book starts with the fundamental theory underlying capitalist ideology showing that even in theory an unfettered free market cannot deal effectively with the many needs of a modern economy Our society has many social goals to which the great majority subscribe goals such as sustained full employment universal health care and quality education for all The free market will not the author argues bring us quality education for every American child affordable universal health care Social Security for the elderly assistance for the poor or protection of the environment Only an active participant government can affect positive change in such areas of social concern Women at the Margins J Dianne Garner,Rosemary Sarri,Josefina Figueira-McDonough,2013-01-11 A compelling look at the crisis of disadvantaged women This powerful document takes a sobering look at the phenomenon of marginalized women pushed to the edges of society holding on with the barest of hope and extraordinary bravery Handicapped by the increasing societal inequality they face as an everyday fact of life these women and in many cases their children have been disconnected from the mainstream for reasons of age race gender health incarceration domestic abuse unwanted pregnancy unemployment and economic circumstance They are poor in an affluent society powerless in a powerful nation and the suffering caused by their exclusion is poignant and troubling Eloquently illustrated with poetry art and prose created by marginalized women Women at the Margins Neglect Punishment and Resistance makes a compelling argument for social change The book offers a no holds barred look at how economic restructuring welfare reform neo conservative ideology and institutional exclusion have locked women into subservient substandard roles stripping them of their citizenship and rendering them expendable Diverse authors track the life cycle of marginalized women from teenage pregnancy to the loneliness of older women in poverty or prison Women at the Margins

Neglect Punishment and Resistance addresses the effects of welfare reform the forgotten group women in prison and jail low income women and housing women marginalized by substance abuse poverty and incarceration teenage pregnancy children and their incarcerated mothers recidivism and reintegration women law and the justice system and much more Women at the Margins Neglect Punishment and Resistance acknowledges the long history of the inequality faced by women living in exclusion but focuses on the present with a hopeful but realistic eye toward the future It is an indispensable resource for sociology social work legal and penal system professionals and academics and an essential read for everyone **Prismatic**

Metropolis Lawrence D. Bobo,Melvin L. Oliver,Jr. James H. Johnson,Abel, Jr. Valenzuela,2000-11-02 This book cuts through the powerful mythology surrounding Los Angeles to reveal the causes of inequality in a city that has weathered rapid population change economic restructuring and fractious ethnic relations The sources of disadvantage and the means of getting ahead differ greatly among the city s myriad ethnic groups The demand for unskilled labor is stronger here than in other cities allowing Los Angeles s large population of immigrant workers with little education to find work in light manufacturing and low paid service jobs A less beneficial result of this trend is the increased marginalization of the city s low skilled black workers who do not enjoy the extended ethnic networks of many of the new immigrant groups and who must contend with persistent negative racial stereotypes Patterns of residential segregation are also more diffuse in Los Angeles with many once black neighborhoods now split evenly between blacks Hispanics Asians and other minorities Inequality in Los Angeles cannot be reduced to a simple black white divide Nonetheless in this thoroughly multicultural city race remains a crucial factor shaping economic fortunes A Volume in the Multi City Study of Urban Inequality **The Handbook of**

dollars in developmental assistance is funneled annually through non governmental organizations NGOs yet little is

understood about the nature of their relationship with communities and the real impact of their work This book examines what role NGOs really play in fighting poverty in Latin America Expert NGO professionals and scholars explore grass roots relationships between international religious and secular NGOs and poor communities They probe the power structures cultural assumptions dangers and possibilities that underlie NGOs work While fighting poverty is the mission of many NGOs most are aware that they often fail to make things better and in fact may make things worse By providing a forum for Northern and Southern NGOs donors scholars and poor people themselves this book explores the causes and cures of poverty and presses at the boundaries of our understanding of participatory development It identifies both internal and external factors that influence the success of NGO projects and moves beyond standard best practice theory to probe more deeply the relationships that underlie poverty and how these relationships can be shifted to achieve solutions **The Development of**

Weicher, 2012-12-16 Since Franklin D Roosevelt s New Deal American housing policy has focused on building homes for the poor But seventy five years of federal housing projects have not significantly ameliorated crime decreased unemployment or improved health recent reforms have failed to revitalize low income neighborhoods or stimulate the economy To be successful in the twenty first century American housing policy must stop reinventing failed programs Housing Policy at a Crossroads The Why How and Who of Assistance Programs provides a comprehensive survey of past low income housing programs including public and subsidized housing tax credits for developers and block grants for state and local governments John C Weicher s comparative analysis of these programs yields several key conclusions Affordability not quality is the most pressing challenge for housing policy today of all the housing programs vouchers have provided the most choice for the poor at the lowest cost to the taxpayer because vouchers are much less expensive than public or subsidized housing future subsidized projects would be an inefficient use of resources vouchers should be offered only to the poorest members of society ensuring that aid is available to those who need it most At once a history of housing policy a guide to issues confronting policymakers and a case for vouchers as the cheapest most effective solution Housing Policy at a Crossroads is a timely warning that reinventing failed building programs would be a very costly wrong turn for America
