## **Reexamination Of Freedom:**

**The Concept of Will in Classical German Philosophy** Manja Kisner, Jörg Noller, 2020-06-08 This volume collects thirteen original essays that address the concept of will in Classical German Philosophy from Kant to Schopenhauer During this short but prolific period the concept of will underwent various transformations While Kant identifies the will with pure practical reason Fichte introduces in the wake of Reinhold an originally biological concept of drive into his ethical theory thereby expanding on the Kantian notion of the will Schelling Hegel and Schopenhauer take a step further and conceive the will either as a primal being Schelling as a socio ontological entity Hegel or as a blindly striving non rational force Schopenhauer Thus the history of the will is marked by a complex set of tensions between rational and non rational aspects of practical volition The book outlines these transformations from a historical and systematic point of view It offers an overview of the most important theories of the will by the major figures of Classical German Philosophy but also includes interpretations of conceptions developed by lesser studied philosophers such as Maimon Jacobi Reinhold and Bouterwek

**A Reexamination of U.S.-China Relations** United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on East Asian and Pacific Affairs, 1999 In re Shepard's Estate, 161 MICH 441 (1910) , 38 **Property Rights: A Re-Examination** J. E Penner, 2020-02-14 Ranging over a host of issues Property Rights A Re Examination pinpoints and addresses a number of theoretical problems at the heart of property theory Part 1 reconsiders and rejects once again the bundle of rights picture of property and the related nominalist theories of property showing that ownership reflects a tripartite structure of title the right to immediate exclusive possession the power to license what would otherwise be a trespass and the power to transfer ownership Part 2 explores in detail the Hohfeldian theory of jural relations in particular liberties and powers and Hohfeld s concept of multital jural relations and shows that this theory fails to illuminate the nature of property rights and indeed obscures much that it is vital to understand about them Part 3 considers the form and justification of property rights beginning with the relation an owner s liberty to use her property and her right to exclude with particular reference to the tort of nuisance Next up for consideration is the Kantian theory of property rights the deficiencies of which lead us to understand that the only natural right to things is a form of use or usufructory right Part 3 concludes by addressing the ever vexed question of property rights in land The Philosophy of History: A Re-examination William Sweet, 2019-09-25 The philosophy of history is an area of interest not only to philosophers but to historians and to social scientists It has been of central importance in continental European philosophy since the late 18th century and for the past half century has had a significant place in Anglo American philosophy Interest in the philosophy of history continues to grow This volume offers both an introduction to contemporary discussion in the philosophy of history and a reassessment of some of the major movements in the philosophy of history since the beginning of the 20th century Including the work of leading international scholars in the field the book presents a wide range of perspectives from different schools in philosophy

and in political and social theory history and the history of ideas Traditional questions raised in the philosophy of history are explored with fresh insight the nature of history historical understanding historical objectivity the nature of the past the psychological factors in historical explanation the human significance of history alongside issues which are less frequently examined including the role of science and mathematics in history history as a social science and history as an art form As history itself remains disputed ground it is important to consider what clues history can provide for our response to issues of contemporary concern such as political realignments and economic globalisation this volume offers important insights from leading scholars in the philosophy of history Multidimensional Well-Being, Deprivation and Inequality P. K.

Pattanaik, Yongsheng Xu, 2024-08-26 This volume explores several aspects of Amartya Sen and Martha Nussbaum's framework for thinking about individual well being Called the functioning and capability approach FCA this framework radically departs from the conventional approach to the concept of individual well being in welfare economics insofar as it identifies an individual's well being as the value attached to the individual's achievements along certain dimensions of life and her freedom to choose a vector of such achievements rather than as the individual's happiness or desire fulfillment The volume consists of two main parts Part I outlines and studies the basic conceptual and analytical framework and its major features in detail Part II of the book is devoted to application of the analytical structure of the FCA to practical problems of measuring well being deprivation and inequality in a society The book concludes with a discussion of the main conclusions of earlier chapters and the role of social scientists and philosophers in the FCA This volume will be of interest to students researchers and practitioners studying multidimensional well being deprivation and inequality *Country Reports on Human Rights Practices*, 1998 *Consolidated Listing of Official Gazette Notices Re Patent and Trademark Office Practices and Procedures*, 2007 Re-imagining Shakespeare in Contemporary Japan Tetsuhito Motoyama, Rosalind Fielding, Fumiaki

*Life* John Ames Mitchell,1908 **The Unanimity Rule in the Revision of Treaties a Re-Examination** Edwin C. Hoyt,2012-12-06 In international law the authority of the writers has been great and the Statute of the International Court of Justice still takes cognizance of them as subsidiary sources Yet it has been widely recognized that on many points writers even of the most respectable authority have merely repeated the statements of their predecessors sometimes with the result that error or some individual dogma or predilection has been perpetuated The three mile limit of territorial waters for example was long identified with the range of cannon and with the famous dictum of Galiani until modern historical research revealed more accurately its historical origin in the practice of states The very definition of international law as a law of which only states were subjects impelled to somewhat far fetched inclusions of certain political entities as states and has had at last to yield at least to the concept that an international organization may also be a subject of international law The long repetition of the essential attributes of states sovereignty independence equality has not altered the realities of the very great differences between states in respect of each of these attributes As Cardozo said of definitions if our preconceived notions of international law do not accord with the facts of international life so much the worse for those notions they must be revised to be brought into line with reality **USPTO Image File Wrapper Petition Decisions 0494** ,

*Inequality Reexamined* Amartya Sen,1995-03-15 The noted economist and philosopher Amartya Sen argues that the dictum all people are created equal serves largely to deflect attention from the fact that we differ in age gender talents and physical abilities as well as in material advantages and social background He argues for concentrating on higher and more basic values individual capabilities and freedom to achieve objectives By concentrating on the equity and efficiency of social arrangements in promoting freedoms and capabilities of individuals Sen adds an important new angle to arguments about such vital issues as gender inequalities welfare policies affirmative action and public provision of health care and education
