**Integral Europe** Douglas R. Holmes,2010-07-01 Over the past 15 years the project of advanced European integration has followed a complex secular and cosmopolitan agenda As that agenda has evolved however so have various hard line populist movements with goals diametrically opposed to the ideals of a harmonious European Union Spearheaded by figures such as Jean Marie Le Pen the controversial leader of France's National Front party these radical movements have become increasingly influential and because of their philosophical affinities with fascism and national socialism politically worrisome In Integral Europe anthropologist Douglas Holmes posits that such movements are philosophically rooted in integralism a sensibility that in its most benign form enables people to maintain their ethnic identity and solidarity within the context of an increasingly pluralistic society Taken to irrational extremes by people like Le Pen integralism is being used to inflame people's feelings of alienation and powerlessness the by products of impersonal transnational fast capitalism The consequences are an invidious politics of exclusion that spawns cultural nationalism racism and social disorder The analysis moves from northern Italy to Strasbourg and Brussels the two venues of the European Parliament and finally to the East End of London This multi sited ethnography provides critical perspective on integralism as a form of intimate cultural practice and a violent idiom of estrangement It combines a wide ranging review of modern and historical scholarship with two years of field research that included personal interviews with right wing activists among them Le Pen and neo Nazis in inner

Rodriguez,2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States     *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004
