Reference Guide To World Hunger:

Reference Guide to Africa Alfred Kagan, Atoma Batoma, 2014-10-16 This third edition of the Reference Guide to Africa explains the most important resources for the study of the continent of Africa. It contains a general sources section and a larger disciplinary oriented section. All sources are annotated. A new edition is sorely needed since the last edition was published nine years ago. The previous editions have been successfully used in research libraries worldwide since 1999 and it has been used to teach several African studies research courses. The book provides an orientation for researching almost any topic in the arts, humanities and social sciences concerning the continent of Africa and all of its countries and ethnic groups. The first part explains and lists portals, databases, bibliographies, indexes, guides, encyclopedias, country sources, biography, primary sources, government publications and statistics. The second part presents 16 subject oriented chapters mostly in the arts, humanities and social sciences from agriculture and food security to women studies. It covers sources that broadly cover the continent or in some cases only North Africa and the Middle East. It generally excludes sources limited to one country or region of Africa except for North Africa because of the nature of the literature. One third of the sources in this edition are new and nearly half of them are available in electronic format. There are author, title and subject indexes. This unique work is intended for students, teachers, librarians and researchers. It likely will be used most by reference librarians and teachers for students in high school through graduate studies. It will also be used independently by undergraduate and graduate students. It can be used to answer simple reference questions, provide the resources for an undergraduate paper or for comprehensive work by advanced students and researchers. *A Reference Guide to World Hunger* William A. Dando, Caroline Z. Dando, 1991. Comprises a dictionary, directory and information guide relating to world hunger, nutrition and food relief. *A User's Guide to the Crisis of Civilization* Nafeez Mosaddeq Ahmed, 2010-08-06. It often seems that different crises are competing to devastate civilisation. This book argues that financial meltdown, dwindling oil reserves, terrorism and food shortages need to be considered as part of the same ailing system. Most accounts of our contemporary global crises focus on one area such as climate change or the threat of terrorism to the exclusion of others. Nafeez Mosaddeq Ahmed argues that the unwillingness of experts to consider crises from an interdisciplinary perspective has resulted in their failure to understand historical events. From ecology and the environment to political governance, the global economy and international relations, Ahmed investigates contemporary crises not as isolated events but as trends and processes that belong to a single global system. Ahmed posits that we are therefore not dealing with a clash of civilisations as Samuel P. Huntington argued. Rather, we are dealing with a fundamental crisis of civilisation itself. **Exotic Fruits Reference Guide** Sueli Rodrigues, Ebenezer de Oliveira Silva, Edy Sousa de Brito, 2018-01-05. Exotic Fruits Reference Guide is the ultimate most complete reference work on exotic fruits from around the world. The book focuses on exotic fruit origin, botanical aspects, cultivation and harvest, physiology and biochemistry, chemical composition and nutritional value, including phenolics and

In addition this edition is the first to feature substantial coverage of electronic resources both databases and Internet sites. Each source receives its own annotation with entries grouped in categories to bring together like works for easy comparison. This work is a cornerstone reference for academic and public libraries. *The Horn Book Guide to Children's and Young Adult Books*, 1991

Food and Famine in the 21st Century William A. Dando, 2012-02-13 This comprehensive two volume encyclopedia examines specific famines throughout history and contains entries on key topics related to food production security and policies and famine giving readers an in depth look at food crises and their causes responses to them and outcomes. Famines have claimed more lives across human history than all the wars ever fought. This two volume set represents the most comprehensive study of food and famine currently available providing the broadest analysis of hunger and famine causes as well as a detailed examination of the ramifications of cultural and natural hazards upon famine. Volume one focuses upon 50 topics and issues relating to the creation of hunger and famines in the world from 4000 BCE to 2100 including an overview of how agriculture has evolved from primitive hunting and gathering that supported limited numbers of people to a worldwide system that now feeds over seven billion people. Volume two entitled *Classic Famines* begins with famines of the past from 4000 BCE to 2100 CE includes ten classic famine case studies and concludes with predictions of famines we could see in the 21st century and beyond.
