The Reflection Hugo Wilcken, 2015 An average law abiding psychiatrist finds himself inexplicably caught up in a case of mistaken identities with one of his own patients

Reflections in a Glass Door Marvin Marcus, 2009-07-15 Much has been written about Natsume Soseki 1867-1916 one of Japan's most celebrated writers Known primarily for his novels he also published a large and diverse body of short personal writings shohin that have long lived in the shadow of his fictional works The essays which appeared in the Asahi shinbun between 1907 and 1915 comprise a fascinating autobiographical mosaic while capturing the spirit of the Meiji era and the birth of modern Japan In *Reflections in a Glass Door* Marvin Marcus

introduces readers to a rich sampling of Soseki's shōhin. The writer revisits his Tokyo childhood recalling family friends and colleagues and musing wistfully on the transformation of his city and its old neighborhoods. He painfully recounts his two years in London where he immersed himself in literary research even as he struggled with severe depression. A chronic stomach ailment causes Soseki to reflect on his own mortality and what he saw as the spiritual afflictions of modern Japanese: rampant egocentrism and materialism. Throughout, he adopts a number of narrative voices and poses the peevish husband, the harried novelist, the convalescent, the seeker of wisdom. Marcus identifies memory and melancholy as key themes in Soseki's personal writings and highlights their relevance in his fiction. He balances Soseki's account of his Tokyo household with that of his wife Natsume Kyoko, who left a straightforward record of life with her celebrated husband. Soseki crafted a moving and convincing voice in his shōhin, which can now be pondered and enjoyed for their penetrating observation and honesty as well as the fresh perspective they offer on one of Japan's literary giants.

Reflections James O. Jeffers, 2003. The book chronicles James Jeffers' life from about age two, but it purposefully falls short of being either memoirs or autobiography. With this work, he has attempted to simply record for his children, grandchildren, and others the wonderful events of his life as he experienced them. The book covers thousands of miles of travel along with living and working with peoples of differing cultures on three continents and in the Caribbean, five foreign countries, and fifteen different states, spanning the nation from coast to coast to coast.

Reflection Jessica Roberts, 2012-02-17 Guided Reflection Christopher Johns, 2011-06-13. An important text for practitioners, this text is a valuable tool that develops self-inquiry skills. Journal of Advanced Nursing. Reflection is widely recognised as an invaluable tool in health care, providing fresh insights which enable practitioners to develop their own practice and improve the quality of their care. Guided Reflection: A Narrative Approach to Advancing Professional Practice introduces the practitioner to the concept of guided reflection, in which the practitioner is assisted by a mentor or guide in a process of self-enquiry, development, and learning through reflection in order to effectively realise one's vision of practice and self as a lived reality. Guided reflection is grounded in individual practice and can provide deeply meaningful insights into self-development and professional care. The process results in a reflexive narrative which highlights key issues for enhancing healthcare practice and professional care. Reflection: A Narrative Approach to Advancing Professional Practice uses a collection of such narratives from everyday clinical practice to demonstrate the theory and practicalities of guided reflection and narrative construction. In this second edition, Chris Johns has explored many of the existing narratives in more depth. Many new contributions have been added, including several more innovative reflections such as performance and art. These narratives portray the values inherent in caring, highlight key issues in clinical practice, reveal the factors that constrain the quest to realise practice, and examine the ways practitioners work towards overcoming these constraints.
