Life / Afterlife Suzanne Lye, 2024 Life Afterlife Revolution and Reflection in the Ancient Greek Underworld from Homer to Lucian explores the mechanics function and impact of ancient Greek Underworld scenes a unique and ancient form of embedded storytelling appearing across time and genres This book approaches Underworld scenes as a special register of language that acts as a narrative space outside of chronological time to reflect on important themes and issues in a frame narrative This book argues that Underworld scenes use hypertextual poetics to embed authorial commentary by creating networks of texts that act as para narratives which provide additional information to engage audiences in the interpretative process of a given work Life Afterlife traces the development evolution and application of Underworld scenes through the works of such authors as Homer Hesiod Pindar Aeschylus Aristophanes Plato Vergil and Lucian to show how each used afterlife depictions featuring mythic and historical figures as commentaries to communicate a call to action for their audiences in response to cultural religious and political changes in their worlds Using the network of Underworld scenes authors could reinforce and challenge traditional religious and cultural beliefs and practices by presenting the long term cosmic effect of actions in life on an individual s post death experience From ancient to modern times Underworld scenes have helped authors and audiences define the essential qualities of a good life for different social political and religious groups and their societies

Reflecting on the Inevitable Peter J. Adams,2020-03-09 Death studies have over the last twenty years witnessed a flourishing of research and scholarship particularly in areas such as dying and bereavement cultural practices and fear of dying But despite its importance a specific focus on the nature of personal mortality has attracted surprisingly little attention Reflecting on the Inevitable combines evidence from several disciplinary fields to explore the varying ways each of us engages with the prospect of personal mortality Chapters are organized around the question of how an ongoing relationship might be possible when the threat of consciousness coming to an end points to an unspeakable nothingness The book then argues that despite this threat an ongoing relationship with one s own death is still possible by means of conceptual devices or enabling frames that help shape personal mortality into a relatable object In each chapter the subtleties and applicability of key ideas are enhanced through a series of illustrative narratives built up around the lives of four people at different ages living in two adjacent houses Reflecting on the Inevitable is relevant not only to academics of death studies but also those training and practicing in people helping professions as well as anyone experiencing or attempting to make sense of major life events
