But what about the people who create these treasures? You might be surprised. *Spider Woman's Children* is the inside story told by two women who are both deeply embedded in their own culture and considered among the very most skillful and artistic of Navajo weavers today. Barbara Teller Ornelas and Lynda Teller Pete are fifth generation weavers who grew up at the fabled Two Grey Hills trading post. Their family and clan connections give them rare insight into where the craft has been and where it is going. They take you into traditional hogans, remote trading posts, reservation housing neighborhoods, and urban apartments to meet weavers who follow the paths of their ancestors, who innovate with new designs and techniques, and who uphold time-honored standards of excellence. You'll meet men who learned to weave from their grandmothers, women who weave alongside their aging moms, a young woman who incorporates contemporary images into skillful, highly collectible tapestries. You'll walk with elderly women over their sheep pastures and cornfields in search of natural dyestuffs. You'll see how well-made, simple weaving tools from generations past take a place of pride in every home. And throughout, you'll see examples of the finest, most mindful weaving this rich tradition has to offer. Annual Report National Endowment for the Arts, Reports for 1980 include also the Annual report of the National Council on the Arts.

Navajo Weaving in the Late Twentieth Century Ann Lane Hedlund, 2004-10 According to the Navajos, the holy people Spider Man and Spider Woman first brought the tools for weaving to the People. Over the centuries, Navajo artists have used those tools to weave a web of beauty, a rich tradition that continues to the present day. In testimony to this living art form, this book presents 74 dazzling color plates of Navajo rugs and wall hangings woven between 1971 and 1996. Drawn from a private southwestern collection, they represent the work of sixty of the finest native weavers in the American Southwest. The creations depicted here reflect a number of styles: revival, sandpainting, pictorial, miniature, sampler, and a number of major regional variations from Ganado to Teec Nos Pos. Textile authority Ann Hedlund provides an introductory narrative about the development of Navajo textile collecting, including the shift of attention from artifacts to art, and a brief review of the history of Navajo weaving. She then comments on the shaping of the particular collection represented in the book, offering a rich source of knowledge and insight for other collectors. Explaining themes in Navajo weaving over the quarter century represented by the Santa Fe Collection, Hedlund focuses on the development of modern rug designs and the influence on weavers of family, community, artistic identity, and the marketplace. She also introduces each section of plates with a description of the representative style, its significance, and the weavers who perpetuate and deviate from it. In addition to the textile plates, Hedlund's color photographs show the families' landscapes, livestock, hogans, and looms that surround today's Navajo weavers. *Navajo Weaving in the Late Twentieth Century* explores many of the important connections that exist today.

among weavers through their families and neighbors and the significant role that collectors play in perpetuating this dynamic art form For all who appreciate American Indian art and culture this book provides invaluable guidance to the fine points of collecting and a rich visual feast Disruptive Voices and the Singularity of Histories Regna Darnell, Frederic W. Gleach, 2019-11-01 Histories of Anthropology Annual presents diverse perspectives on the discipline's history within a global context with a goal of increasing awareness and use of historical approaches in teaching learning and conducting anthropology The series includes critical comparative analytical and narrative studies involving all aspects and subfields of anthropology Volume 13 Disruptive Voices and the Singularity of Histories explores the interplay of identities and scholarship through the history of anthropology with a special section examining fieldwork predecessors and indigenous communities in Native North America Individual contributions explore the complexity of women's history indigenous history national traditions and oral histories to juxtapose what we understand of the past with its present continuities These contributions include Sharon Lindenburger's examination of Franz Boas and his navigation with Jewish identity Kathy M Closkey's documentation of Navajo weavers and their struggles with cultural identities and economic resources and demands and Mindy Morgan's use of the text of Ruth Underhill's Oodham study to capture the voices of three generations of women ethnographers Because this work bridges anthropology and history a richer and more varied view of the past emerges through the meticulous narratives of anthropologists and their unique fieldwork ultimately providing competing points of access to social dynamics This volume examines events at both macro and micro levels documenting the impact large scale historical events have had on particular individuals and challenging the uniqueness of a single interpretation of the same facts **Native America in the Twentieth Century** Mary B. Davis, 2014-05-01 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Women in Mexican Folk Art* Eli Bartra, 2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported *American Indian Art Magazine*, 2002 **American Folk Art** Kristin G. Congdon, Kara Kelley Hallmark, 2012-03-19 Folk art is as varied as it is indicative of person and place informed by innovation and grounded in cultural context The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays *American Folk Art A Regional Reference* offers a collection of fascinating essays on the life and work of 300 individual artists Some of the men and women profiled in these two volumes are well known while others are important practitioners who have yet to receive the notice they merit Because many of the artists in both categories have a clear identity with their land and culture the work is organized by geographical region and

includes an essay on each region to help make connections visible There is also an introductory essay on U S folk art as a whole Those writing about folk art to date tend to view each artist as either traditional or innovative One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits they are grounded in their cultural context and creative in the way they make work their own Such insights expand the study of folk art even as they readjust readers understanding of who folk artists are
