work aims to fill a gap in the existing legal literature by presenting a compact concise but nevertheless panoramic view of the law of the United Nations Today the organisation is at the centre of all multilateral international relations and impossible to avoid And of course the UN Charter is a foundational document without which modern international law cannot be properly

understood In spite of its importance this pre eminent world political organisation is poorly understood by the general public and the extent and variety of its activities is not widely appreciated Even lawyers generally possess insufficient knowledge of the way its legal institutions operate Assessments of the organisation and judgements about its achievements are consequently frequently distorted This work is aimed especially at remedying these deficiencies in public and legal understanding but also at presenting the organisation as a coherent system of values and integrated action Thus the book presents an overarching view of the significance of the UN organisation in general the history of its origins in the League of Nations the aims and principles of the Charter governmental agencies members of the Organisation the non use of violence and collective security the peaceful settlement of disputes and the question of amendments to the Charter This work will be suitable for students of law and international relations as well as scholars and those interested in the work and organisation of the United Nations New Security Challenges: the Adaptations of International Institutions NA NA,2016-04-30

historical position on the United Nations its past present and possible future expectations of the organization and UN related issues of special interest and the circumstances behind them A Changing United Nations W. Knight, 2000-10-19 The United Nations is at a critical juncture It is faced with two distinct choices to remain a decision frozen in time or to develop a long term adaptation agenda and strategy that would allow it to be a relevant institution of global governance for the twenty first century Reform and reflexive institutional adjustments have failed to address underlying problems facing this organization After fifty five years of existence it is still considered an inefficient and ineffective world body Worse yet its relevance is being questioned This study offers a critique of existing UN change processes and then shifts focus to considerations of institutional learning strategies that would allow the UN to maintain relevance amidst the evolution of global governance arrangements **United Nations, Volumes I and II** Sam Daws, Paul Taylor, 2020-10-11 The International Library of Politics and Comparative Government is an essential reference series which compiles the most significant journal articles in comparative politics over the past 30 years It makes readily accessible to teachers researchers and students an extensive range of essays which together provide an indispensable basis for understanding both the established conceptual terrain and the new ground being broken in the rapidly changing field of comparative political analysis These two volumes include articles which examine the system the structure the function and the future of the United Nations **Reforming the United Nations** Joachim Müller, 2021-05-25 Reforming the United Nations Fit for Purpose at 75 examines the efforts of Secretary General António Guterres to improve the aging organisation during 2017-2019 On development the global network was repositioned better to assist countries On peace and security the Secretariat was reorganised with a focus on conflict prevention On management the paradigm centred on decentralisation and accountability Other priorities addressed sexual exploitation in peacekeeping and gender parity The detail analysis of the reform process highlights the positions of the United States Russia China the Group of 77 and the European Union Official records are used The Guterres reform was respectable by improving efficiency and effectiveness Reform proposals did not however address fundamental problems including Security Council reform *Historical Dictionary of the United Nations* Jacques Fomerand, 2017-12-29 At a time of profound transformations in international relations the second edition of Historical Dictionary of the United Nations maps out the continuing and deepening role and relevance of the United Nations in the maintenance of peace and the promotion of development and human rights Focusing on the past two decades developments this book contributes to a reasoned and fuller understanding of an organization which remains the cornerstone of a changing world fraught with challenges which simply cannot be addressed either unilaterally or bilaterally This second edition of Historical Dictionary of the United Nations contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on its basic organizations subsidiary bodies related specialized and other agencies and nongovernmental actors as well as outstanding figures in its history This book is an excellent

resource for students researchers and anyone wanting to know more about the United Nations Reforming the United Nations [electronic resource] Joachim Müller,2006 The United Nations is in need of reform There has always been widespread agreement that this is the case indeed throughout the 60 year history of the Organization Differences over the best cure reflect the political confrontation between its 191 member states The institution has been criticized to lack legitimacy to need accountability and to be inefficient with a bloated bureaucracy Recently allegations of mismanagement and corruption in the Oil for Food Program have led to a crisis of confidence The public debate followed reform initiatives for enlarging the Security Council achieving the Millennium Development Goals and establishing new collective mechanisms to protect human rights counter terrorism and respond to crimes against humanity Strengthening oversight governance and management practices aimed at introducing fundamental institutional changes The publication describes the reform process leading to the United Nations Summit in September 2005 The achievements remain disappointing with the failure to approve a grand bargain A number of recommendations are put forward to facilitate the reform process in the United Nations realising however that this will remain cumbersome and a lengthy step by step effort The United Nations in The Era of Globalization Mazid Reza Momeni ,2021-08-03 The United Nations as a world organization has gone through different epochs of time facing various challenges and changes since its inception While it has done a lot in saving humankind in its diverse fields of activities yet it has failed to function legitimately and effectively according to the principles of its Charter which have brought its existence and relevance under criticism and questioning The UN after the end of the Cold War for a short period of time gave a new hope to the world that it would now work genuinely according to its member states will in an environment of cooperation and understanding between its member states for common goals However right after the collapse of the communist bloc and the end of capitalist communist antagonism the process of globalization already in force gained momentum which brought about a new era in the UN s life affecting international relations and the world politics too The emergence of globalization has created many new challenges not only to the individuals and countries but also to the international institutions and global organizations This study is an attempt to analyze the real purpose of the emergence of globalization as a policy and its effects on the UN in particular and the international political economic relations in a wider context CONTENTS Preface V Acknowledgement VII Abbreviations XI Chapter I Introduction 15 Chapter II Bretton Woods Institutions and Globalization Their Impact on the UN 61 Chapter III The Global Compact Project 117 Chapter IV Millennium Development Goals and The Reform Initiatives 155 Chapter V Civil Society Organizations and the United Nations 218 Chapter VI Conclusion 265 Appendix 283 Select Bibliography 284 Index 295 *The A to Z of the United Nations* Jacques Fomerand,2009-07-29 Consisting of 192 Member States the United Nations was founded in 1945 to maintain international peace and security to develop friendly relations among nations based on the respect for the principle of equal rights and self determination of peoples to achieve international cooperation in solving problems of an economic social cultural or

humanitarian character and encouraging respect for human rights and for fundamental freedoms for all without distinction as to race sex language or religion Just how successful the UN has been in maintaining these goals is covered in The A to Z of the United Nations Author Jacques Fomerand provides a comprehensive dictionary of nearly 900 cross referenced entries on the UN s various committees and organizations its leaders terms policies and major events in which the UN took part Supplementing the dictionary entries are a chronology an introduction a bibliography and appendixes which include a reproduction of the UN s Charter and the Universal Declaration of Human Rights as well as a list of the Member States and when they joined *United Nations Reform* Eric Fawcett,Hanna Newcombe,1996-09-12 The UN needs reform in order to meet the challenges of the unbalanced and alienated world whose outline is now on the horizon
