Immigration and Education David Wood Stewart, 1993-01-01 The level of immigration to the United States has never been higher with more than a million immigrants legal and illegal entering every year This new immigration is placing unique demands upon schools colleges vocational training centers and adult education agencies Cities and towns across the nation are straining to educate ever larger numbers of immigrants whose needs are often very different from native born Americans Educating these diverse groups is however difficult and for urban school districts whose resource bases are diminishing grappling with these issues presents a vital social problem David Stewart analyzes these issues in detail illustrating that the root of these difficulties lies in the absence of coordination between the federal government's immigration policy and related education policies at the federal state and local levels Stewart calls the Congressional immigration committees to task for giving insufficient attention to the educational needs of immigrants and urges larger and more timely federal funding for local immigrant education programs *Migration World Magazine* ,1993 *Terms of Refuge* Court Robinson, 1998 For half a century ever since the Japanese invasion of 1942 much of Southeast Asia has been racked by war In the last 20 years alone some three million people fled their homes in Vietnam Laos and Cambodia This book is their story It is also the story of the international community's response Spearheading this was the United Nations agency responsible UNHCR It pioneered innovations like the Orderly Departure Programme anti piracy and rescue at sea efforts and later on ambitious reintegration projects for returnees Today the camps in Southeast Asia are closed Half a million people have returned home Over two

million have started new lives in the United States Canada Australia and France This compelling book is the history of this modern exodus It also takes stock and poses important questions How did the flight of refugees and international response evolve How do we measure the achievements and the failures of that international effort What has been the legacy in Asia itself And what lessons can be drawn for use in other refugee situations around the world
