Regeneration Of Public Parks:

The Regeneration of Public Parks Ken Fieldhouse, Jan Woudstra, 2012-12-06 The Urban Parks Programme financed by the Heritage Lottery Fund has sparked a new enthusiasm for the regeneration of Britain's parks. This unique reference book gives a valuable overview of all the elements of public park design. It emphasizes our parks diversity and richness and offers practical guidance as to their renovation and future care. It is essential reading for all those involved in the design, upkeep and regeneration of public parks. **A Design Guide of Public Parks in Malaysia** Jamil Abu Bakar, 2002 **Spon's**

Manual: Methods for increasing forest cover in a watershed Karen Cappiella, 2005 *Public Parks, Private Gardens* Colta Ives, 2018-03-05 The spectacular transformation of Paris during the 19th century into a city of tree lined boulevards and public parks both redesigned the capital and inspired the era's great Impressionist artists The renewed landscape gave crowded displaced urban dwellers green spaces to enjoy while suburbanites and country dwellers began cultivating their own flower gardens As public engagement with gardening grew artists increasingly featured flowers and parks in their work *Public Parks Private Gardens* includes masterworks by artists such as Bonnard Cassatt C zanne Corot Daumier Van Gogh Manet Matisse Monet and Seurat Many of these artists were themselves avid gardeners and they painted parks and gardens as the distinctive scenery of contemporary life Writing from the perspective of both a distinguished art historian and a trained landscape designer Colta Ives provides new insights not only into these essential works but also into this extraordinarily creative period in France's history *Gardens and Landscapes in Historic Building Conservation* Marion Harney, 2014-04-03 This comprehensive guide on historic garden and landscape conservation will help landscape professionals familiarise themselves with what the conservation of historic gardens garden structures and designed landscapes encompasses The aim of the series is to introduce each aspect of conservation and to provide concise basic and up to date knowledge within five volumes sufficient for the professional to appreciate the subject better and to know where to seek further help *Gardens Landscapes in Historic Building Conservation* is an essential guide for everyone with an interest in the conservation of historic gardens and designed landscapes worldwide The latest assessment of the origins scope and impact of gardens and designed landscapes is vital reading Covering history and theory survey and assessment conservation and management and the legislative framework the book considers all aspects of garden and landscape conservation and related issues It explores the challenge of conserving these important sites and surviving physical remains and a conservation movement which must understand protect and interpret those remains This book demonstrates how the discipline of the history and conservation of gardens and landscapes has matured in recent decades recognising the increased participation of professional contract and curatorial managers in the management of these sites and in conserving and interpreting landscapes Drawing on a wide range of sources combining academic and professional perspectives the book provides information and advice relevant to all involved in trying to preserve one of England's greatest cultural contributions and legacy for future generations to enjoy With chapters by all the leading players in the field and illustrated by copious examples this gives essential guidance to the management and conservation of historic gardens and designed landscapes

Patricia Johanson and the Re-invention of Public Environmental Art, 1958-2010 Xin Wu, 2013 Impeccably researched and richly detailed this book addresses the issue of translation between visual arts and landscape design in the 50 year career of American painter and environmental artist Patricia Johanson Exploring the artist's search for an art of the real as a member of the postwar New York art world it demonstrates that visual translation cannot be understood solely

through the works of art instead attention must be paid to the process of creation This book is an insightful attempt to confront a crucial question in the history of art through the work of a contemporary artist Social Urbanism and the Politics of Violence K. Maclean,2015-01-23 Medell n Colombia used to be the most violent city on earth but in recent years allegedly thanks to its social urbanism approach to regeneration it has experienced a sharp decline in violence The author explores the politics behind this decline and the complex transformations in terms of urban development policies in Medell n

Public Space Design and Social Cohesion Patricia Aelbrecht,Quentin Stevens,2019-01-22 Social cohesion is often perceived as being under threat from the increasing cultural and economic differences in contemporary cities and the increasing intensity of urban life Public space in its role as the main stage for social interactions between strangers clearly plays a role in facilitating or limiting opportunities for social cohesion But what exactly is social cohesion how is it experienced in the public realm and what role can the design of city spaces have in supporting or promoting it There are significant knowledge gaps between the social sciences and design disciplines and between academia and practice and thus a dispersed knowledge base that currently lacks nuanced insight into how urban design contributes to social integration or segregation This book brings together scholarly knowledge at the intersection of public space design and social cohesion It is based on original scholarly research and a depth of urban design practice and analyses case studies from a variety of cities and cultures across the Global North and Global South Its interdisciplinary cross cultural analysis will be of interest to academics students policymakers and practitioners engaged with a range of subject areas including urban design urban planning architecture landscape cultural studies human geography social policy sociology and anthropology It will also have significant appeal to a wider non academic readership given its topical subject matter **Recreation and Parks** Betty Van der Smitten,2005 Gaining an understanding of the recreation and parks profession is crucial to success in the field and to effective leadership within the field Recreation and Parks The Profession is a one of a kind resource that delineates the components that make this complex field a profession Written by well known recreation authority Betty van der Smitten this book defines the marks of the recreation and parks profession and identifies the steps involved in becoming a professional in the field profiles 62 professional organizations within the profession provides a Web site that features a time line of the development of areas and organizations of the profession and the most up to date Web addresses for organizations detailed in the text outlines a comparative history of 15 categories of the recreation and parks field in the United States and Canada and presents a classic to contemporary bibliography of resources that showcases an inclusive body of knowledge on the profession Part I describes recreation and parks as a profession and provides students with steps to lay a solid foundation to become a professional Part II grounds readers with a comparative historical overview of the recreation and parks field from the 1500s to the present day The author divides the field into 15 categories and offers suggestions on how to use the time line Part III profiles 62 professional organizations Each profile includes the organization s mission goals structure history

publications services and professional credentialing information In addition it lists the organization s Web sites contact information and other vital information that students use in completing course work in applying for internships and in researching various aspects of the profession Part IV contains a bibliography of selected resources on recreation and parks from classic to the present Recreation and Parks The Profession includes a Web site that not only provides links to other current Web sites for the organizations profiled but it also is linked to a color coded version of the time line The time line is ready to download print and use in the classroom or office This version of the time line provides the most effective way to obtain an overall picture of the historical comparison of the categories in the recreation and parks profession Recreation and Parks The Profession is a unique resource for students professors and professionals in recreation and parks The text brings together the important aspects of the field as a profession

Culture, Participation and Policy in the Municipal Public Park Abigail Gilmore, 2024-01-12 This book concerns the values and practices of participation in municipal public parks and the connections they have with cultural policy urbanism and social life Adopting a critical cultural policy lens it identifies the park as a mundane but extraordinarily treasured place for the production and exchange of cultural values regulation resistance and the practising of citizenship Drawing on extensive mixed methods research on everyday participation in diverse local cultural ecosystems in England and Scotland the book examines the social lives of parks and their users and the important public values that are generated through their common stewardship and usership It presents case studies of parks and co located museums as cultural public spheres which promote both commoning and commodification These are contextualized by histories of municipal parkmaking from the nineteenth century to the present and related to the making of local government and to other civic and cultural institutions The book highlights contemporary issues of austerity marketisation and de municipalisation within local government in the context of urban development It positions the public park as fundamental to democratic cultural governance and makes the case for the primacy of public trust ownership and park equity in safeguarding the right to the city

Great City Parks Alan Tate, 2015-03-05 Great City Parks is a celebration of some of the finest achievements of landscape architecture in the public realm It is a comparative study of thirty significant public parks in major cities across Western Europe and North America Collectively they give a clear picture of why parks have been created how they have been designed how they are managed and what plans are being made for them at the beginning of the twenty first century Based on unique research including extensive site visits and interviews with the managing organisations this book is illustrated throughout with clear plans and photographs with this new edition featuring full colour throughout Tate updates his seminal 2001 work with 10 additional parks including The High Line in NYC Golden Gate Park in San Francisco and Westergasfabriek Amsterdam All the previous city parks have also been updated and revised to reflect current usage and management This book reflects a belief that well planned well designed and well managed parks and park systems will continue to make major contributions to the quality of life in an increasingly urbanized world
