Transatlantic Governance in the Global Economy Mark A. Pollack, Gregory C. Shaffer, 2002-05-30 Governance in the global economy is a topic of enormous importance Despite the triumph of free trade many actors still try to protect important sectors of society from the potentially destructive effects of unfettered free markets and rules remain indispensable in settling disputes among states over trade investments and copyrights This book is particularly significant because of its conceptual clarity and broad scope Focusing on the transatlantic area as the engine of the world economy the editors assess three different conceptual models offered by scholars the classic state centered approach the transgovernmental approach and the transnational system of private actors in an emerging global society After a series of excellent case studies on trade and competition policies food safety business and labor dialogues and civil society initiatives the editors conclude that the U S executive and the European Commission have been and remain the dominant actors in transatlantic governance Among all these networks business remains the most successful At a time when many essay collections are loosely shaped unoriginal or jargon ridden this one is a model of research and analysis Foreign Affairs

European Union-U.S. Trade Conflicts and Economic Relationship Jeremy V. Lane, 2002 The United States and the European Union have a healthy and substantial trade relationship but as trade grows between the nations conflicts over subsidies industrial policy and social and economic pressures are inevitable Domestic or abroad these conflicts must be solved to ensure the best trade relations possible This book presents these trade problems and how they affect this mutually beneficial trade relationship

Transatlantic Perspectives on the Euro C. Randall Henning, Pier Carlo Padoan, 2010-12-01 The European economic and monetary union has changed the structure of international monetary relations fundamentally In this book two experts one European the other American offer transatlantic perspectives on the ramifications of the monetary union and the launch of the euro C Randall Henning examines selected

American views on Europe's monetary union and looks at the political economic and institutional interests of the United States as they are affected by the creation of the euro. He examines the external monetary policymaking machinery of the union and discusses the relationship of the monetary union to international institutions particularly the meetings of the G 7 finance ministers and central bank governors and the International Monetary Fund. Henning is generally sympathetic to European integration supportive of the monetary union and persuaded of the importance of international cooperation. Pier Carlo Padoan presents a European view of the role of the euro in the international system. He looks at the euro as a potential global currency and examines the transition phase between a regional currency and a global currency. Central to this is an analysis of the appropriate exchange rate policy for the euro. He also considers euro dollar relations and the prospects for transatlantic cooperation. C. Randall Henning is a professor at The American University and a senior fellow at the Institute for International Economics. Pier Carlo Padoan is a professor at the University of Rome and the College of Europe.

Regionalism and Governance in the Americas L. Fawcett, M. Serrano, 2005-08-25 This book links contemporary thinking on global and regional governance to the recent experience of the Americas. It offers fresh insights into understanding the processes of order and change in the region and in the broader international system. A particular concern is to reveal the changing contours of regional governance whether in terms of actors, issue areas and relations with global structures.

Summitry in the Americas Richard E. Feinberg, 1997 The 1994 Summit of the Americas the first such gathering of hemispheric leaders in over a generation defined a new substantive agenda and architecture for United States Latin American relations. The summit committed participating countries to negotiate a Free Trade Area of the Americas by 2005 and to defending the region's democratic institutions. This book whose author actively participated in planning the summit traces the White House's decision to convene the summit, analyzes the administration's foreign affairs decision making and details the other countries' diplomatic strategies for contributing to the summit agenda. Feinberg critically assesses post summit implementation and makes specific recommendations for the second summit planned for 1998 and for maintaining the momentum for liberalization in the Americas.

Progress in Economics Research Albert Tavidze, 2002 This series spans the globe presenting leading research in economics. It is perhaps a sign of the times that economic weapons such as sanctions seem to be as powerful as or more so than tanks. International applications and examples of economic progress are invaluable in a troubled world with economic booms bursting like so many penny balloons. Contents: Preface, High Inflation Episodes in Transition Economies, An Empirical Analysis Testing for Model Mis Specification and Bubbles under the Chinese Hyperinflation, The Duality of Market Structures, Inflation and Unemployment, What's the Connection? The Idea of Economic Freedom, Stimulating Clean Technology, Paternalistic Altruism, Life Cycle Hypothesis and the Ricardian Equivalence, The Effect of Volatility in the Federal Funds Rate on Commercial Bank Borrowing at the Discount Window, Vietnam's Transition to a Market Economy, Maquiladoras and NAFTA, The Economics of US Mexico Production Sharing and Trade, Trade Conflict and

VOLUME 1: Colonial Beginnings through Revolution 1500-1783
Volume Editor: Andrew Robertson, Herbert H. Lehman College. The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic. This volume discusses the diversity of the colonial political experience, a diversity that modern scholars have found defies easy synthesis, as well as the long-term conflicts, policies, and events that led to revolution and the ideas underlying independence.

VOLUME 2: The Early Republic 1784-1840
Volume Editor: Michael A. Morrison, Purdue University. No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic. This volume discusses the era of Confederation, the shaping of the U.S. Constitution, and the development of the party system.

VOLUME 3: Expansion, Division, and Reconstruction 1841-1877
Volume Editor: William Shade, Lehigh University, emeritus. This volume examines three decades in the middle of the nineteenth century, which witnessed the emergence of the debate over slavery in the territories, which eventually led to the Civil War, the military conflict itself from 1861 until 1865, and the process of Reconstruction, which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877.

VOLUME 4: From the Gilded Age through the Age of Reform 1878-1920
Volume Editor: Robert Johnston, University of Illinois at Chicago. With the withdrawal of federal soldiers from Southern states, the previous year 1878 marked a new focus in American politics, and it became recognizably modern within the next 40 years. This volume focuses on race and politics, economics, labor, and capitalism, agrarian politics, and populism, national politics, progressivism, foreign affairs, World War I, and the end of the progressive era.

VOLUME 5: Prosperity, Depression, and War 1921-1945
Volume Editor: Robert Zieger, University of Florida. Between 1921 and 1945, the U.S. political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts, the Great Depression, and World War II. The main topics covered in this volume are declining party identification, the Roosevelt Coalition, evolving party organization, congressional inertia in the 1920s, the New Deal Congress during World War II, the growth of the federal government, Franklin D. Roosevelt's presidency, the Supreme Court's conservative traditions, and a new judicial outlook.

VOLUME 6: Postwar Consensus to Social Unrest 1946-1975
Volume Editor: Thomas Langston, Tulane University. This volume examines the postwar era with the consolidation of the New Deal, the onset of the Cold War, and the Korean War. It then moves into the 1950s and early 1960s and discusses the

Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered

All for One: Terrorism, NATO and the United States Tom Lansford, 2018-02-06 This title was first published in 2002 This detailed examination of the role of the Transatlantic Alliance in support of the America led military and intelligence operations against the Taliban and the Al Qaida network since the terrorist attacks on the United States provides the first in depth analysis of NATO s historic first invocation of Article V of the Washington Treaty Including a substantial overview of NATO s place in the broad security framework of the Western Atlantic powers and both the shared history and ideals that form its common basis the book specifically analyzes the political machinations behind the decision to invoke Article V and the impact of political differences among the Alliance partners The book also looks at efforts to prevent future incidents by expanding the security framework of the Alliance An essential reference source for military and foreign policy academics courses and practitioners this text offers the reader an unprecedented insight into NATO s response to this most significant event

Evolution and Devolution Tom Lansford, 2019-07-18 This title was first published in 2000 This study bridges the gap in the otherwise rich literature on European security through its analysis of past and present efforts at military integration Previous works have concentrated on the transatlantic relationship or the intra European dimension of the effort to create autonomous defense capabilities or even on the ramifications of the changed defense market Evolution and Devolution combines these themes and subjects The work integrates these topics against the backdrop of the current scholarly debate over international relations by examining the changing nature of sovereignty and the evolution of the nation state In the end the course toward more integration and yet continued participation of the U S is shown to be the optimum course for EU member states in light of the security threats and constraints facing national governments

The European Union in the World Community Carolyn Rhodes, 1998 This volume analyzes the character of the EU as an actor in international affairs The authors consider the questions such as Does the EU have an identity of its own in global affairs distinct from that of its member states And what is its relationship with other major international actors

EC/EU, a world security actor? Gérard Bossuat, 2007
