Herzog, Alan M. Schlottmann, 1991 **Industrial Location and Community Development** Barry M. Moriarty, 1980 This study describes and explains the concepts materials and methods designed to make community industrial development programs more effective It attempts to reconcile the three different and often conflicting interest groups involved the industrial land user represented by the manufacturer searching for a location the landowner represented by the industrial or economic developer and the community represented by the planner and other government officials Originally published in 1980 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **The Social Production of Urban Space** M. Gottdiener, 2010-07-22 From reviews of the first edition This is perhaps the best theoretically oriented book by a United States urban sociologist since the work of Firey Hawley and Sjoberg in the 1940s and 1950s Gottdiener is on the cutting edge of urban theoretical work today Joe R Feagin *Contemporary Sociology* Since its first publication in 1985 *The Social Production of Urban Space* has become a landmark work in urban studies In this second edition M Gottdiener assesses important new theoretical models of urban space and their shortcomings including the global perspective the flexible accumulation school postmodernism the new international division of labor and the growth machine perspective Going beyond the limitations of these and older theories Gottdiener proposes a model of urban growth that accounts for the deconcentration away from the central city that began in the United States in the 1920s and continues today Sociologists political scientists economists geographers and urban planners will find his interdisciplinary approach to urban science invaluable as it is currently the most comprehensive treatment of European
