Turkish Public Policies Aylin Güney, Ali Tekin, 2015-09-16 Turkey s candidacy for membership of the European Union has had mixed effects on its public policies The initial degree of cohesion between EU and Turkish national policies practices and institutions has varied by the policy field in question leading to a complex amalgam of fit and misfit between the two actors Their interaction in different policy areas has had direct influence both on Turkey s accession to the EU and its own national reform process With accession negotiations stalled and Turkey s relationship with the EU increasingly tenuous it is vital to take stock of the extent to which Turkey and the EU are aligned in key policy areas The Europeanization of Turkish Public

Policies A Scorecard is the first comprehensive work focusing on the impact of the EU accession process upon Turkey's public policies between 1999 and 2014. Complementing the authors' earlier volume *Europeanization of Turkey's Policy and Politics*, it brings together leading specialists to provide key analyses of the impact of Europeanization on specific areas of Turkey's public policy. Each chapter applies a core analytical framework to examine a separate policy field, resulting in a consistent and comprehensive volume on Turkey-EU relations. With its focused structure and extensive coverage, concluding with a scorecard enabling informed assessment of the impact of Europeanization on Turkey's public policy areas, this book provides a one-stop resource for scholars and students alike. A timely and informed assessment of the dynamics and outcome of the Europeanization of an EU candidate country's major public policy areas, this book represents an essential resource for those interested in EU-Turkey relations, the effects of Europeanization on Turkey and Turkish politics.

Transport Projects, Programmes and Policies John Nellthorpe, Peter Mackie, 2017-11-30. This title was first published in 2003. The European Union is constantly struggling to find effective ways to plan major transport infrastructure developments at a European level. This is a critical factor in the emerging debates surrounding the absorption of the accession states into the EU, but it is essential for these states that their economic competitiveness is supported by appropriate and effective transport infrastructure. It is therefore crucial to find innovative approaches to the infrastructure itself, how it is financed, and the ways in which proper evaluation procedures are implemented to select which policies, programmes, and projects should be supported. This informative volume brings together leading international specialists in economic evaluation applied within the transport sector. Their contributions encompass all the main levels at which transport planning is typically conceptualized: strategic, regional, policy, programme, and project planning. It therefore examines how coherent economic evaluation practice can be developed and applied, not only across different physical scales but also across national borders.

Reviewing European Union Accession Tom Hashimoto, Michael Rhimes, 2017-09-25. The year 2017 has been an uneasy one for the EU, with so-called Brexit on the horizon and the rise of populist euroskepticism in a number of Member States. This year, with the tenth anniversary of the Romanian and Bulgarian accession to the Union, is a good year to pause and reflect over the life and future of the Union. In this work, we envision the next decade with Europe 2020 strategy and review the fruits of the 2004 accession in Central and Eastern Europe. What has the Union achieved? Which policy areas are likely to change, and how? How successful, and by what measure, has the accession of the 10 Member States in 2004 been? *Reviewing European Union Accession* addresses a wide range of issues deliberately without any thematic constraints in order to explore EU enlargement from a variety of perspectives, both scientific and geographical, internal and external. In contrast to the major works in this field, we highlight the interrelated and often unexpected nature of the integration process, hence the subtitle: *unexpected results, spillover effects, and externalities*.

Ordnungspolitik als konstruktive Antwort auf wirtschaftspolitische Herausforderungen Hans-Friedrich Eckey, 2001

Geograficheskii zhurnal , 2010 **The European Union and Europe's New Regionalism** Boyka M. Stefanova, 2017-10-24 This book presents a new approach to studying the European Union s regional and global relevance It recasts into a dynamic perspective the three most significant systemic processes that define the EU as a regionalist project its enlargement neighborhood and mega regional policies The book argues that these processes collectively demonstrate a dynamic shift of the core tenets of European regionalism from an inward looking process of region building to an open selective system of global interactions

Subnational Authorities in EU Law Michèle Finck, 2017-09-29 This book explores the role and status of local and regional authorities also referred to as subnational authorities or SNAs in European Union law and reveals the existence of two parallel yet opposed constitutional imaginations of the supranational legal order Through a survey of various areas of EU law including primary and secondary legislation case law as well as various soft law instruments Finck introduces two narratives These are the outsider narrative and the insider narrative that frame these constitutional imaginations According to the outsider narrative the structure of the legal order is bi centric composed of the member states and the EU only This narrative envisages SNAs as outsiders of EU law whose interactions with Union law are merely of an indirect nature However in addition to this well known account of EU law a parallel yet distinct narrative can be identified according to which SNAs are insiders that entertain direct relations with the European Union and contribute to the substantive development of EU law It is illustrated that the coexistence of both narratives has wider implications as it points towards a shift in the structure of the European legal order itself which is transitioning from bi centrality to polycentricity

Cross-national Policy Convergence Christoph Knill, 2013-10-31 A fresh analysis of policy convergences across nations which identifies their key driving forces To what extent and in which direction can we empirically observe a convergence of national policies In which areas and for which patterns of policy is convergence

more or less pronounced This text addresses these central questions with clarity and rigour With growing economic and institutional interlinkages between nation states it is often assumed that there is an overall trend towards increasingly similar policies across countries Comparative research on the domestic impact of globalization and European integration however reveals that policy convergence can hardly be considered as a dominant and uniform tendency which can be taken for granted Although a number of factors have been suggested in order to account for the rather mixed empirical picture we still have limited knowledge about the causes and conditions of cross national policy convergence In particular the central mechanisms and conditions affecting both degree and level of cross national policy convergence are yet not well understood This book will be of great interest to all students and scholars of the European Union European politics and international relations This is a special issue of the leading Journal of European Public Policy Geography, Institutions and Regional Economic Performance Riccardo Crescenzi, Marco Percoco, 2012-12-13 The book aims to present traditional features of regional science as geographical concepts and institutions as well as relatively new topics such as innovation and agglomeration economies In particular it demonstrates that contrary to what has been argued by recent economics literature both geography and institutions or culture are relevant for local development In fact these phenomena along with the movement of goods and workers are among the main reasons for persisting development differentials These intriguing relationships are at the heart of the analysis presented in this book and form the conceptual basis for a promising institutional approach to economic geography The Europeanization of National Policies and Politics of Immigration T. Faist, A. Ette, 2007-02-28 The Europeanization of National Policies and Politics of Immigration is the first cutting edge volume presenting a comparative empirical investigation on the impact of the EU on migration policy at national level Revealing striking differences this collection examines traditional member states new member states as well as non member states

The International Dimension of EU Competition Law and Policy Anestis S. Papadopoulos, 2010-10-28 Modern competition law was first employed by countries over one hundred years ago in order to address issues relating to restrictions of trade at the national level Recent international economic integration has weakened the distinction between the domestic and the international in several fields of economic activity and consequently the laws which regulate such activity competition law included Several attempts to address the paradox of adopting national competition rules to address international issues have been made at the international regional and lately bilateral levels This book discusses the international dimension of EU competition law and examines the position taken by the EU in four distinct categories of international agreements which are devoted to competition or include competition provisions In particular it analyses the EU's position with regard to bilateral enforcement cooperation agreements bilateral free trade agreements plurilateral regional agreements and the long negotiations for the adoption of a multilateral competition regime **Potencjał rozwojowy a aktywność inwestycyjna województw i podregionów Polski** Jarosław Michał Nazarczuk, 2013-12-06 Jednym z czynników w rozwoju regionu jest

zgrupowany na ich terenie potencjał rozwojowy wyrażają pewien unikatowy zbiór zasobów w warunkach osigniętych poziom rozwoju oraz możliwości implikowania wzrostu i rozwoju gospodarczego w przyszłości. Dodatkowo regiony są opisywane także poprzez zrealizowane przemiany społeczno-gospodarcze, kierunki rozwoju, a także odmienne skale i struktury realizowanych inwestycji. Celem pracy była weryfikacja zależności między potencjałem rozwojowym a dynamiką i strukturą aktywności inwestycyjnej regionu w Polsce. Wyniki przeprowadzonych analiz doprowadziły do wniosku, że potencjał rozwojowy posiada dodatni i statystycznie istotny wpływ na skalę aktywności inwestycyjnej regionu oraz oddziaływanie na strukturę sektorów wydatkowanych nakładów w inwestycyjnych. Kierunek oddziaływania potencjału w drugim przypadku byłby jednak uwarunkowany sektorem gospodarki, do którego alokowano nakłady. Ponadto zaobserwowano statystycznie istotny wpływ potencjału rozwojowego na koncentrację przestrzenną podmiotów w gospodarczych, także z udziałem kapitału zagranicznego. W pracy zaproponowano alternatywny sposób pomiaru dystansu rozwojowego między regionami, a obszarem referencyjnym, np. gospodarką kraju lub wybranym regionem. W tym kontekście dystans rozwojowy jest rozumiany jako przeciwna liczba lat potrzebna na osiągnięcie poziomu rozwoju obszaru odniesienia poziomu z danego roku lub przy uwzględnieniu wzrostu analizowanego regionu oraz terytorium referencyjnego. Zmiana warunków w otoczeniu, w jakim funkcjonowały regiony, wywołana wiatowym kryzysem finansowym skłoniła do przeledzenia regionalnego wymiaru skutku w transmisji negatywnego szoku ekonomicznego do Polski. Spośród ogólnego obszaru w największe nasilenie negatywnych zjawisk spadł PKB aktywności inwestycyjnej zaobserwowano w grupie obszarów przemysłowych, z kolei relatywnie najszybciej w 2009 r. wzrastała gospodarka regionalnych ośrodków wzrostu i dużych ośrodków w miejskich. Syntetycznym wymiarem dokonanej analizy jest klasyfikacja województw i podregionów do trzech grup z uwzględnieniem ich stopnia wrażliwości na spowolnienie gospodarcze w 2009 r. oraz przyszłych szans rozwojowych. Zamieszczone w pracy analizy umożliwiły poszerzenie dorobku naukowego w zakresie relacji między potencjałem rozwojowym a aktywnością inwestycyjną. Sformułowane wnioski i propozycje mogą wesprzeć prowadzoną politykę rozwoju.
