Committee on International Relations,2001 *American Sanctions in the Asia-Pacific* Brendan Taylor,2009-12-04 This book provides the first comprehensive treatment of US sanctions policy in the Asia Pacific Using the Bill Clinton and George W Bush presidencies as a basis for comparison it examines nine prominent episodes involving the US use of sanctions toward countries in this economically and strategically vital part of the world [PAIS International in Print](#) Catherine Korvin,2001-04

Congressional Record United States. Congress,2001 *Legislative Review Activities of the Committee on International Relations* United States. Congress. House. Committee on International Relations,2001 *CIS Annual Congressional Information Service,2000* **The United States, India and the Global Nuclear Order** Tanvi Pate,2018-06-13 In the Post Cold War era US nuclear foreign policies towards India witnessed a major turnaround as a demand for cap reduce eliminate under the Clinton administration was replaced by the implementation of the historic civil nuclear deal in 2008 by Bush a policy which continued under Obama s administration This book addresses the change in US nuclear foreign policy by focusing on three core categories of identity inequality and great power narratives Building upon the theoretical paradigm of critical constructivism the concept of the state is problematised by focusing on identity related questions arguing that the state becomes a constructed entity standing as valid only within relations of identity and difference Focusing on postcolonial principles Pate argues that imperialism as an organising principle of identity difference enables us to understand how difference was maintained in unequal terms through US nuclear foreign policy This manifested

in five great power narratives constructed around peace and justice India Pakistan deterrence democracy economic progress and scientific development Identities of race political economy and gender in terms of radical otherness and otherness were recurrently utilised through these narratives to maintain a difference enabling the respective administrations to maintain US identity as a progressive and developed western nation intrinsically justifying the US role as an arbiter of the global nuclear order A useful work for scholars researching identity construction and US foreign and security policies US India bilateral nuclear relations South Asian nuclear politics critical security and postcolonial studies *Regional Security in South Asia* United States. Monthly Catalogue, United States Public Documents, 1987 Monthly Catalog of United States Government Publications, 2004 **Understanding Security Practices in South Asia** Monika Barthwal-Datta, 2012-05-04 This book explores the ways in which non state actors NSAs in South Asia are involved in securitizing non traditional security challenges in the region at the sub state level South Asia is the epicentre of some of the most significant international security challenges today Yet the complexities of the region s security dynamics remain under researched While traditional security issues such as inter state war border disputes and the threat of nuclear devastation in South Asia remain high on the agendas of policy makers and academics both within and beyond the region scant attention has been paid to non traditional or new security challenges Drawing on various case studies this work offers an innovative analysis of how NSAs in South Asia are shaping security discourses in the region and tackling security challenges at the sub state level Through its critique of securitization theory the book calls for a new approach to studying security practices in South Asia one which considers NSAs as legitimate security actors This book will be of much interest to students of security studies Asian security Asian politics critical security studies and IR in general **Growing US Security Interests in Central Asia** Elizabeth Wishnick, 2002 Making Sense of Cyber Capabilities for Small States Francis C. Domingo, 2022-03-28 Domingo explores the potential of cyber capabilities for small states in the Asia Pacific the most active region for cyber conflict He develops a systematic explanation for why Brunei New Zealand and Singapore have developed or are developing cyber capabilities Studies on cyber conflict and strategy have substantially increased in the past decade but most have focused on the cyber operations of powerful states This book moves away from the prominence of powerful states and explores the potential of cyber capabilities for small states in the Asia Pacific the most active region for cyber conflict It develops a systematic explanation of why Brunei New Zealand and Singapore have developed or are developing cyber capabilities despite its obscure strategic value The book argues that the distribution of power in the region and a technology oriented strategic culture are two necessary conditions that influence the development of cyber capabilities in small states Following this argument the book draws on neoclassical realism as a theoretical framework to account for the interaction between these two conditions The book also pursues three secondary objectives First it aims to determine the constraints and incentives

that affect the utilization of cyber capabilities as foreign policy instruments Second the book evaluates the functionality of these cyber capabilities for small states Lastly it assesses the implications of employing cyber capabilities as foreign policy tools of small states This book will be an invaluable resource for academics and security analysts working on cyber conflict military strategy small states and International Relations in general Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission,2011 Cumulated Index Medicus ,1973 Challenges to Civil Rights Guarantees in India A.G. Noorani,South Asia Human Rights Documentation Centre,2011-10-13 The civil rights of Indian citizens are guaranteed both in the Indian Constitution and through the State s international commitments Despite these guarantees the civil rights framework encounters numerous challenges from the State problematic counter terrorism laws continuation of the death penalty misuse of arrest and preventive detention powers lack of implementation and impunity Through nine incisive essays on both traditional and emerging issues this volume examines the prevailing imbalance between individual rights and State power Many laws designed to protect the State do little more than protect State power at the expense of her citizens directly flouting the Constitution international law and democratic principles The authors critically analyse most of these laws examining their justifications background debates and evolution along with how they violate constitutional and international law Taking into account relevant and contemporary comparative case law and developments in international law this book makes a strong case for bold legal reforms and suggests various measures for improvement
