Regional Security Structures In Asia:

Regional Security Structures in Asia Ashok Kapur, 2003 Ashok Kapur argues that explanations of international relations in Asia in the post Second World War period have relied too much on the Cold War as a key explanatory factor and outlines alternative concepts that may have wider explanatory powers

Regional Security Structures in Asia Ashok Kapur, 2018-10-24 Kapur argues that explanations of international relations in Asia in the post Second World War period have relied too much on the Cold War as a key explanatory factor and have not given enough emphasis to the useful concepts of regional power formation conflict formation and conflict resolution The author outlines these concepts and goes on to elaborate on them and to apply them to three key Asian regions northeast southeast and south Asia discussing practical strategic issues in an historical perspective and arguing that these concepts and other concepts which he discusses are extremely helpful in making sense of the complex pattern of international relations in Asia

Regionalism and Multilateralism Amitav Acharya, 2003 These essays written between 1990 and 2000 cover the most significant phase of multilateral institution building in the Asia Pacific region They deal with the emergence of regionalism in Southeast Asia ASEAN's transition to the post Cold War era the role of the ASEAN Regional Forum the engagement of China the changing relationship between sovereignty and regionalism and prospects for the regional institutions such as ASEAN APEC and the ARF after the Asian economic crisis The essays address the most challenging issues of regional order and articulate an institutionalist understanding of international relations in the region This updated second edition includes four new chapters and two revised chapters

The Architecture of Security in the Asia-Pacific Ronald Huisken, 2009-10-01 We cannot expect in East Asia over the foreseeable future to see the sort of conflation of sovereign states that has occurred in Europe We must anticipate that for the foreseeable future the requirement will be for the sensible management and containment of competitive instincts The establishment of a multilateral security body in East Asia that includes all the key players and which the major powers invest with the authority to tackle the shaping of the regional security order remains a critical piece of unfinished business

Regional Security in Southeast Asia Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking

place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia

Central Asia and Regional Security Mr P L Dash, Ms Anita Sengupta, Mr Murat M Bakhadirov, 2014-02-15 While security concerns have assumed salience across the globe Afghanistan's proximity to Central Asia has meant that security or perceptions of insecurity dominate the strategic discourse in the region Issues that stand out include the challenges that the Central Asian states will face in terms of stability ethnic tensions radicalization of youth destabilization of commodity flows and energy security and the impact that these could have on Central Asian society However security cannot just be defined in terms of security at the borders It needs to be defined in cosmopolitan terms through an array of issues like movements across borders radicalism within states the sharing of water and various multilateral attempts at combating insecurity This volume is an attempt to focus on some of these issues that reflect on perceptions of security principally from Indian and Uzbek positions It examines shifts over the last two decades from debates on the geopolitical importance of the region from a great game perspective to the salience of new engagements within the international arena **Regional Security in South**

Asia and the Gulf Umer Karim, Saloni Kapur, 2023-02-24 As we move towards a world without superpowers the dynamics within and between regions are of growing significance Against this backdrop this book explores the links between South Asia and the Gulf which have existed for centuries but are undergoing important shifts in the transition to multipolarity With a special focus on India Pakistan Iran Bangladesh Saudi Arabia the United Arab Emirates Sri Lanka and Oman this volume brings together scholars from across these regions to investigate what the decentring world order means for the relationship between South Asia and the Gulf It employs Regional Security Complex Theory to examine the changing global patterns of power and their impact on the inter regional patterns of amity and enmity between states in South Asia and the Gulf It employs both constructivist and realist approaches seeking to understand how power and social processes influence the political and security linkages between these regions The Transformation of Security in the Asia/Pacific Region Desmond

Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation Such changes are not without problems which are discussed here Natural Allies?: Regional Security in Asia and Prospects for Indo-American

Strategic Cooperation , 2005 Indo American relations increasingly comprise expanded strategic and economic ties India's government led by Prime Minister Manmohan Singh has stated its intention to intensify these ties with America Clearly the Bush administration agrees For example President Bush has indicated his intention to sustain the gains achieved since 2001 as a priority Prime Minister Singh has invited the President to India President Bush has indicated his intention to go there leading Indian analysts to expect that What we are going to see is a consolidation of Indo U S ties on a range of strategic issues We may see a greater emphasis on economic ones as well The Bush administration is prepared to make a major offer of arms sales to India This deal has many repercussions across the entire range of Indo American relationships and of India's

relationships with a host of important foreign governments like Russia China Pakistan and Israel Undoubtedly a reinforcement of the economic foundations of bilateral amity would be desirable for many reasons This book length monograph seeks to illuminate India s rising power and capabilities with regard to the key regions on its periphery the Persian Gulf Central Asia and South East Asia The author also considers the major issues pertaining to India s bilateral defense agenda with the United States By revealing the dimensions of India s growing capabilities and interests he provides a strategic rationale developing the U S India partnership further

Strategic Minilateralism and the Regional Security Architecture of the Indo-Pacific Thomas S. Wilkins, *Asia-Pacific Regional Security Assessment 2017* Tim Huxley, William Choong, 2023-05-31 This book offers an analysis of the four central regional security themes relevant to the policy focussed discussions at the annual IISS Shangri La Dialogue Namely The evolving roles of the United States and China in Asia Pacific security Responses by the US and regional states to regional security tensions particularly in the South China Sea Emerging security questions relating to nuclear weapons missiles and military cyber capabilities The prospects for regional security cooperation including the challenges for the ASEAN centred architecture

Multilateral Asian Security Architecture See Seng Tan, 2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

Security Politics in the Asia-Pacific William T. Tow, 2009-10-15 In this book leading experts present research on the evolution of key issues in Asian security

The Security Environment in the Asia-Pacific Hung-Mao Tien, Ten-jen Cheng, 2016-09-16 Multilateral security forums in the Asia Pacific region have evolved but bilateral defence alliances continue to form the principle pillars of national security for most nations in the region This text presents a survey of issues confronting the Asia Pacific region as it enters year 2000

Asia-Pacific Security Cooperation: National Interests and Regional Order See Seng Tan, 2014-12-18 New developments in the Asia Pacific are forcing regional officials to rethink the way they manage security issues The contributors to this work explore why some forms of security cooperation and

institutionalisation in the region have proven more feasible than others This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts **Asia's New Institutional**

Architecture Vinod K. Aggarwal, Min Gyo Koo, 2008-02-04 Can regional and interregional mechanisms better institutionalize the creasing complexity of economic and security ties among states in Nor east Southeast and South Asia As the international state system und goes dramatic changes in both security and trade relations in the wake of the Cold War s end the Asian financial crisis and the attacks of Sept ber 11 2001 this question is now of critical importance to both academics and policymakers Still little research has been done to integrate the ana sis of both regional security and economic dynamics within a broader c text that will give us theoretically informed policy insights Indeed when we began our background research on the origin and e lution of Asia s institutional architecture in trade and security we found that many scholars had focused on individual subregions whether Nor east Southeast or South Asia In some cases scholars examined links tween Northeast and Southeast Asia and the literature often refers to these two subregions collectively as Asia artificially bracketing South Asia Of course we are aware that as products of culture economics history and politics the boundaries of geographic regions change over time Yet the rapid rise of India and its increasing links to East Asia especially those formed in the early 1990s suggest that it would be fruitful to examine both developments within each subregion as well as links across subregions *International Relations of East Asia* Xiaoming Huang, 2019-12-28 East Asia s rapidly changing role in

international security the global economy development and global governance are expertly accounted for in this much needed state of the art text Xiaoming Huang offers an engaging and informed account of the key concepts issues and actors working in this area Ranging from the region s history to culture and a comparative assessment of the region s states this text is informed throughout by a compelling theoretical framework In so doing it unpicks the often complex relationships both at the domestic level and externally Only with this understanding is it possible to make sense of the region s complex relationships both internally and externally Structured around key concepts in international relations of war and peace economic development and increased contemporary security threats this text offers an empirically rich engaging account of the changing fortunes of East Asia **Building Regional Security in the Middle East** Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus

on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies **Cooperative Security in the Asia-Pacific** Jürgen Haacke, Noel Morada, 2010-01-21

This book offers the most comprehensive analysis yet of the ASEAN Regional Forum ARF which remains the foremost dialogue forum for the promotion of cooperative security in the Asia Pacific Contributors focus on the perspectives and roles of the key players in the ARF ASEAN the United States China Japan and Australia and discuss to what extent these participants have shaped the Forum's institutional development and affected its achievements and prospects against the backdrop of the evolving regional security architecture They also examine in depth how participants have used the Forum to respond to a range of important transnational security issues and challenges including terrorism and maritime security as well as disaster relief This work also explores how despite the difficulties in reaching a new consensus regarding the collective pursuit of preventive diplomacy some activist participants have succeeded in bringing about a notable albeit incipient practical turn in the ARF's security cooperation This book will appeal to students of South East Asian Politics Asian Security Studies and International Relations in general **Trade Commerce and Security in the Asia Pacific Region** Y
