## **Regions In Recession And Resurgence:**

Regions in Recession and Resurgence Michael Chisholm, 2015-03-27 The world economy has undergone rapid evolution in recent decades along with changes in the importance of industries and their organization and sharp changes in the fortunes of regions There are differences of opinion regarding the mainsprings of change and development and the role of governments in fostering national output In order to show the relevance of these changes to regional economies the book focuses on the different schools of economic thought from the neo classical through Keynesian to Marxist radical ideas and monetarist supply side thinking providing a brief description of their structure in non spatial terms The way these theories map into contrasting ideas regarding the mechanisms of regional economic growth is then explained The book concentrates on developed economies and explicitly seeks to confront theory with fact fact with theory Bringing together non spatial economic theory regional growth theory and relevant empirical data this book is intended for students in geography and regional economics but will also be of interest for those studying politics and government

**Regions in Recession & Resurgence** Michael Chisholm, 1990-12-01      Dynamics of Regional Growth in Europe Andres Rodriguez-Pose, 1998-11-19

In a period of deep economic social and political transformation regional disparities seem to be particularly resistant to change The emergence of a global economy the shift in production methods and the greater mobility of capital labour and raw materials have not brought about a radical reshuffling of the prevailing regional disparities There is a greater concentration of economic activity in core areas and very few peripheral regions are taking advantage of the process of global restructuring The Dynamics of Regional Growth in Europe looks for the reasons behind this persistence in the social political and institutional arrangements of a large set of European regions by trying to relate two scientific approaches concerned with regional economic performance which share very little in common the literature on socio economic restructuring and structural change and neoclassical and endogenous growth theories OXFORD GEOGRAPHICAL AND ENVIRONMENTAL STUDIES AIMS TO PUBLISH THE BEST ORIGINAL RESEARCH STUDIES IN THE RELATED FIELDS OF GEOGRAPHY AND ENVIRONMENTAL STUDIES IT S SCOPE IS INTERNATIONAL PRESENTING A BROAD AND DIVERSE RANGE OF SCHOLARLY APPROACHES FROM ACROSS THE WORLD SERIES EDITORS GORDON CLARK ANDREW

GOUDIE AND CERI PEACH      *Forest Related Perspectives for Regional Development in Europe* Pentti Hyttinen, European Forest Institute, 2002 Most of the less favoured regions in Europe feature large areas of forestland The FORWARD Forest Resources for Work Opportunities and Regional Development project was initiated to generate employment and income based on forest resources This report presents the findings of the project      **The Dilemma of Regional Policy** Stilianos Alexiadis, 2017-11-06 Applying the principles of Optimal Control Theory to the problem of regional allocation of investment can be a useful tool for demonstrating how the trade off between regional equity and overall efficiency can be overcome This book poses the following questions are spatial inequalities harmful for overall efficiency How is the economist to assist the

policy maker in establishing generally applicable criteria or policies when the aims include equity as well as efficiency Alexiadis analyses the equity versus efficiency dilemma in the allocation of scarce resources expressing the argument in mathematical terms an issue of particular importance in development planning and programming This is invaluable reading for final year and postgraduate students of regional development and mathematical economics as well as researchers policy makers and all those working in regional development institutions *Routledge Library Editions: Economic Geography*

Various,2021-06-23 The books in this set originally published between 1968 and 1992 introduce the reader to the many lines of thought in the literature on economic geography and tie these various aspects together within the concept of the economy As well as providing a comprehensive overview of the Western European economy since the Second World War and including specific studies and assessments of the Dutch and Italian economies these volumes examine the economic factors that have shaped cities and patterns of urbanization **Local and Regional Development** Andy Pike,Andrés Rodríguez-Pose,John Tomaney,Andres Rodriguez-Pose,2006-11-22

Local and regional development is an increasingly global issue For localities and regions the challenge of enhancing prosperity improving wellbeing and increasing living standards has become acute for localities and regions formerly considered discrete parts of the developed and developing worlds Amid concern over the definitions and sustainability of development a spectre has emerged of deepened unevenness and sharpened inequalities in the development prospects for particular social groups and territories Local and Regional Development engages and addresses the key questions what are the principles and values that shape definitions and strategies of local and regional development What are the conceptual and theoretical frameworks capable of understanding and interpreting local and regional development What are the main policy interventions and instruments How do localities and regions attempt to effect development in practice What kinds of local and regional development should we be pursuing This book addresses the fundamental issues of what kind of local and regional development and for whom frameworks of understanding and instruments and policies It outlines what a holistic progressive and sustainable local and regional development might constitute before reflecting on its limits and political renewal With the growing international importance of local and regional development this book is an essential student purchase illustrated throughout with maps figures and case studies from Asia Europe and Central and North America **Contemporary South Africa and the Political Economy of Regional**

**Development** Methembe Mdhlalose,Isaac Khambule,Nene Ernest Khalema,2025-02-21 South Africa s struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa s place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post

apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state s apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners

**Institutional Change in Transition Economies** Michael Cuddy,2019-01-15 This title was first published in 2002 The importance of institutions for transition economies has so far been overlooked Michael Cuddy and Ruvin Gekker bring together leading experts in the field to fill this crucial void in the literature The contributors concentrate on an ongoing tension between informal constraints and mechanisms and the new formal rules and mechanisms that have gradually evolved through the transition period Experiences are primarily drawn from Russia The book consists of three parts the first comprising an analysis synthesis and generalizations of the institutional adaptations as a market economy slowly emerges from a fog of shifting rules and varying interpretations This is followed by the study of business and taxation authorities behavior as they try to minimize or maximize the taxation take The volume also analyzes the challenges facing central and regional governments in delivering equitable levels of public services across regions of vastly different development levels while at the same time trying to stimulate regional economic growth

**The Tokyo Uni-polar Concentration** Jinyeong Kim,1993

**Regional and Local Economic Development in South Africa** Etienne Louis Nel,2019-07-23 First published in 1999 this volume responds to the recent application of Local Economic Development around the world and examines its impact in South Africa in the wake of the nation s recent political transition Etienne Louis Nel observes how the initiative is taking on a dual form of community led and authority led initiatives Nel explores the issue through areas including South Africa s space economy a case study of Stuttenheim and local economic development in East London

**New Firms and Regional Development in Europe** David Keeble,Egbert Wever,2016-07-15 When originally published in 1986 this book was one of the first to deal solely with the urban and regional incidence and development implications of new firm formation in particular EU countries It reviews the extent of and reasons for geographical variation in numbers of new firms examines the nature of such firms and assesses the regional impact and policy implications in various EC countries

**Governing Metropolitan Areas** David K. Hamilton,2014-04-24 Interest and research on regionalism has soared in the last decade Local governments in metropolitan areas and civic organizations are increasingly engaged in cooperative and collaborative public policy efforts to solve

problems that stretch across urban centers and their surrounding suburbs Yet there remains scant attention in textbooks to the issues that arise in trying to address metropolitan governance *Governing Metropolitan Areas* describes and analyzes structure to understand the how and why of regionalism in our global age The book covers governmental institutions and their evolution to governance but with a continual focus on institutions David Hamilton provides the necessary comprehensive in depth description and analysis of how metropolitan areas and governments within metropolitan areas developed efforts to restructure and combine local governments and governance within the polycentric urban region This second edition is a major revision to update the scholarship and current thinking on regional governance While the text still provides background on the historical development and growth of urban areas and governments efforts to accommodate the growth of metropolitan areas this edition also focuses on current efforts to provide governance through cooperative and collaborative solutions There is also now extended treatment of how regional governance outside the United States has evolved and how other countries are approaching regional governance

***The Planning Imagination*** Mark Tewdwr-Jones, Nicholas Phelps, Robert Freestone, 2013-10-01 Knighted in 1998 for services to the Town and Country Planning Association and in 2003 named by Her Majesty Queen Elizabeth II as a Pioneer in the Life of the Nation Peter Hall is internationally renowned for the breadth and depth of his studies and writings on urban and regional planning For the last 50 years he has captured and helped to create the planning imagination Here the editors have brought together in five themes a series of critical reflections on Peter s vast and diverse contributions Those reflections are provided by colleagues familiar with his work The five parts are devoted to Peter Hall s breadth of academic work covering the history of cities and planning London spatial planning connectivity and mobility and urban globalization Finally as a sixth part the editors have asked Peter Hall himself to reflect on his career and the sources of his imagination The story this book tells is not one of a singular totally consistent theoretical and philosophical view elaborated over several decades Rather it covers a set of views that necessarily admits signs of Peter s inconsistency and imperfection over the years the insights and imperfections that inevitably accompany the exercise of a nonetheless remarkably fertile restless and inspiring planning imagination

***Regionalism in Global Trade*** Dilip K. ***Background Paper Prepared for the Africa Regional Workshop on Mainstreaming Urban Poverty Reduction in Sub-Sahara Africa*** K. Wekwete, 1999 *Governance and Planning of Mega-City Regions* Jiang Xu, Anthony Yeh, 2010-09-13 Provides a comparative treatment and examination of how new approaches in governance and planning are reshaping mega city regions around the world The contributors highlight how European mega city regions are evolving and strategic intervention redefined to enable the integration of urban qualities in a multi level governance environment how traditional federal countries in North America and Australia see the promise of

major policies and development initiatives finally moving ahead to herald a more strategic intervention at national and regional scales and how transitional economies in China witness the rise of state strategies to control the articulation of scales and to reassert the functional importance of state in a growing diffused power context Governing James Bickerton, B. Guy Peters, 2013-06-01 To honour the distinguished career of Donald Savoie *Governing* brings together an accomplished group of international scholars who have concerned themselves with the challenges of governance accountability public management reform and regional policy *Governing* delves into the two primary fields of interest in Savoie's work regional development and the nature of executive power in public administration The majority of chapters deal with issues of democratic governance particularly the changing relationship over the past thirty years between politicians and public servants A second set of essays addresses the history of regional development examining the politics of regional inequalities and the promises and pitfalls of approaches adopted by governments to resolve the most vexing policy problems Contributors provide readers with a valuable primer on the key issues that have provoked debate among practitioners and students of government alike while reflecting on government initiatives meant to address inadequacies Showcasing the practical experience and scholarly engagement of its authors this collection is a valuable addition to the fields of public administration public policy political governance and regional policy Contributors include Peter Aucoin Dalhousie University Herman Bakvis University of Victoria James Bickerton St Francis Xavier University Jacques Bourgault cole nationale d administration publique UQAM Thomas Courchene Queen's University Ralph Heintzman University of Ottawa Mark D Jarvis University of Victoria Lowell Murray Senate of Canada retired B Guy Peters University of Pittsburgh Jon Pierre University of Gothenburg Mario Pol se INRS UCS Christopher Pollitt Leuven University Donald J Savoie Universit de Moncton and Paul G Thomas University of Manitoba

**Regional Development in the 1990s** Ron Martin, Peter Townroe, 2013-10-18 This book documents the changing nature and challenge of regional development in Britain and Ireland in the final decade of this century In the first half of this book region by region profiles review the experience of the eighties and reflect on the present climate assessing problems and opportunities The second half provides 25 commentaries on changes influencing the development of regions from questions of industry technology and employment to the impact of national policy and 1992 and the prospects and capacity for regional policy and development *Straits of Malacca* Donald B. Freeman, 2003-04-17 Casting a broad net across several disciplines particularly geography and political economy Donald Freeman examines the significance of the Straits as both a trade gateway and a choke point that has forced generations of sailors to run the gauntlet Rather than the more conventional historical narrative approach he offers an innovative adoption of an interdisciplinary analytical perspective through his use of detailed case studies of trading systems and shipping hazards
