Register of William Greenfield William Greenfield, 1936 *The Register of William Melton, Archbishop of York, 1317-1340* David Robinson, Rosalind M. T. Hill, 1977 This volume continuing the series of great medieval bishops registers offers material valuable for both religious and social history The register of Archbishop William Melton is one of the largest and most comprehensive to survive Its backbone is the institution of clergy and licences to them papal provisions and ordination of vicars and chantries but it also contains a wealth of material for social history During the period it covers the East Riding of Yorkshire was flourishing and a number of entries in the register reflect the challenges which the newly founded town of Kingston upon Hull was causing for the existing parochial structure The archbishop is shown anathematizing malefactors who stole his swans and invaded his liberties in Beverley and the river Hull and demanding the return of stolen wool on behalf of a merchant whose ship had been wrecked in the river Humber The register also covers the origins of one of the last monasteries to be founded in medieval England Haltemprice and reveals the shortcomings of monks and nuns as well as secular clergy and members of the laity more widely many entries reflect the tensions between outlying vill and chapelries and their mother churches The text is presented here with introduction apparatus and notes which elucidate the entries David Robinson until his retirement County Archivist of Surrey was awarded his PhD from the University of

Cambridge *The Register of William Greenfield, Lord Archbishop of York, 1306-1315 Part 2* Edited by William Brown and A. Hamilton Thompson A. Hamilton Thompson, 1934 **Chivalry, Kingship and Crusade** Timothy Guard, 2013 A fresh perspective on the Crusade shows its ideal and practice flourishing in the fourteenth century The central theme of this book is the largely untold story of English knighthood's ongoing obsession with the crusade fight during the age of Chaucer high chivalry and the famous battles of the Hundred Years War After combat in France and Scotland fighting crusades was the main and a widespread experience of English chivalry in the fourteenth century drawing in noblemen of the highest rank as well as knights chasing renown and the jobbing esquire The author exposes a thick seam of military engagement along the perimeters of Christendom details of participants and campaigns are chronicled in many cases for the first time and associated matters of tactics diplomacy organisation and recruitment are minutely analysed adding substantially to the historiography of the later crusades The book's second theme traces the surprisingly strong grip the crusade idea possessed at the height of politics as an animating force of English kingship Disputing the common assumption that crusade plans were increasingly ill treated by the monarchs adopted as diplomatic double speak or as a means of raiding church coffers the author argues that courtiers and knights moved in a rich environment of crusade speculation and ambition and exercised a strong influence on the culture of the time Timothy Guard gained his DPhil at Hertford College University of Oxford

Pragmatic Utopias Rosemary Horrox, Sarah Rees Jones, 2001-11-29 This collection of essays was presented to Barrie Dobson in celebration of his 70th birthday It will be welcomed by all scholars of pre modern religion and society Spanning the artificial divide between medieval and early modern the contributors all acknowledged experts in their field pursue the ways in which men and women tried to put their ideals into practice sometimes alone but more commonly in the shared environment of cloister college or city The range of topics is testimony to the breadth of Barrie Dobson's own interests but even more striking are the continuities and shared assumptions across time and between the dissident and the impeccably orthodox Taking the reader from a rural anchor hold to the London of Thomas More and from the greenwood of Robin Hood to the central law courts this collection builds into a richly satisfying exploration of the search for perfection in an imperfect world Guide to Bishops' Registers of England and Wales David M. Smith, David Michael Smith, 1981 **The Growth of English Schooling, 1340-1548** Jo Ann Hoepfner Moran, 2014-07-14 In contrast to the prevailing view this book reveals the educational revolution of the 1500s to have grown from an earlier expansion of elementary and grammar education in the fourteenth fifteenth and early sixteenth centuries Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Donations to the Knights Hospitaller in Britain and Ireland, 1291-1400 Rory MacLellan, 2020-11-29

Donations to the Knights Hospitaller in Britain and Ireland 1291 1400 is the first study of donations to the Knights Hospitaller throughout England and Ireland during the late thirteenth and fourteenth centuries The book demonstrates that patrons donated to both military and non military orders for much the same reasons particularly family connections or the desire for spiritual benefit rather than an interest in crusading Such a conclusion has important implications for the treatment of the military orders by scholars of medieval religion who traditionally have either overlooked these orders entirely or relegated them to a subfield of crusade studies rather than treating them as a full part of mainstream religious life By reincorporating the military orders into mainstream religious history discussion will be furthered in a range of fields and debates such as ecclesiastical landholding lay church relations the role of women in religion and the processes of the Reformation By focusing on the period 1291 to 1400 the book considers the impact of the loss of the Holy Land in 1291 the subsequent diffusion in crusade activity to the Baltic and Spain the intensification of the order s career as English royal servants in Wales Scotland and Ireland and the Hospitallers crusade to Rhodes in 1309 10 This book will appeal to scholars and students of the Hospitallers as well as those interested in medieval Britain and Ireland
