Hamilton, 2017-11-30 Illustrated by a detailed comparative examination of mining regulations and environmental impact assessment EIA in the USA the second largest producer of coal in the world and Indonesia the eighth largest and most rapidly growing this book argues that the degree of policy integration often determines the success or failure in controlling

environmental effects of mining operations Comparison of surface mining regulation in the two countries provides some stark contrasts some surprising results concerning the diffusion of policy innovations from one country to another and instances of both policy success and failure The book provides significant new insights into international relations and comparative environmental policy particularly as they affect rainforests and biodiversity It also suggests that if mining environmental policy were to be effectively implemented the environmental degradation caused need not be permanent *Energy Abstracts for Policy Analysis* ,1985 Bureaucratic Landscapes Craig W. Thomas,2002-12-20 Political scientists have long been concerned about the tension between institutional fragmentation and policy coordination in the U S bureaucracy The literature is rife with examples of agencies competing with each other or asserting their independence while cooperation is relatively rare This is of particular importance in policy areas such as biodiversity where species habitats and ecosystems cross various agency jurisdictions Bureaucratic Landscapes explores the reasons for the success and failure of interagency cooperation focusing on several case studies of efforts to preserve biodiversity in California The book examines why public officials tried to cooperate and the obstacles they faced providing indirect evidence of policy impacts as well Among other topics it examines the role of courts in prompting agency action the role of scientific knowledge in organizational learning and the emergence of new institutions to resolve collective action problems Notable findings include the crucial role of environmental lawsuits in prompting agency action and the surprisingly active role of the Bureau of Land Management in resource preservation **Water Policy, Tourism, and Recreation** Lin Crase,Suzanne O'Keefe,2012-12-06 This book explores the complicated interrelationships between freshwater resources and tourism and recreation The focus is on Australia but comparisons with the experience of other countries are also made throughout Yet Australia has been at the forefront of conflicts over drought and water use particularly for irrigated agriculture as well as of the design of policies and institutions for water policy so there are many lessons which can be applied to other parts of the world The authors examine in detail the relationships between water economics and supply and the needs for tourism and recreation The book discusses water use and access and the conflict between urban and recreational demands It considers the institutional arrangements around water and the significance of property rights including water markets and water pricing Theoretical and practical models for increasing collaboration and cooperation such as the use of trusts are also developed and water trusts in the USA are examined Specific chapters highlight the role of interest groups such as the boating industry to influence policy thinking and the practical trade offs between access to urban water supplies and the requirements of recreation Tourist behavior in relation to water use and pricing is also assessed Policy Instruments for Environmental and Natural Resource Management Thomas Sterner,2003 Table of contents **Environmental Politics** Jacqueline Vaughn,2007 See how environmental policy is shaped with ENVIRONMENTAL POLITICS DOMESTIC AND GLOBAL DIMENSIONS Easy to read and concise this political science text shows you how environmental problems are identified and how solutions are formulated

MacDonnell,Sarah F.
