Boaz Shoshan, 2015-09-07 The early Arab conquests pose a considerable challenge to modern day historians. The earliest historical written tradition emerges only after the second half of the eighth century, over one hundred years removed from the events it contends to describe and was undoubtedly influenced by the motives and interpretations of its authors. Indeed when speaking or writing about the past, fact was not the only nor even the prime concern of Muslims of old. The Arabic Historic Tradition and the Early Islamic Conquests presents a thorough examination of Arabic narratives on the early Islamic conquests. It uncovers the influence of contemporary ideology, examining recurring fictive motifs and evaluating the reasons behind their use. Folklore and tribal traditions are evident throughout the narratives which aimed to promote individual tribal and regional fame through describing military prowess in the battles for the spread of Islam. Common tropes are encountered across the materials which all serve a central theme: the moral superiority of the Muslims which destined them to victory in God's plan. Offering a key to the state of mind and agenda of early Muslim writers, this critical reading of Arabic texts would be of great interest to students and scholars of early Arabic History and Literature as well as a general resource for Middle Eastern History. **Jerusalem Falls** John D. Hosler, 2022-01-01 The first full account of the medieval struggle for Jerusalem from the seventh to the thirteenth century. The history of Jerusalem is one of conflict, faith and empire. Few cities have been attacked as often and as savagely. This was no less true in the Middle Ages. From the Persian sack in 614 through the bloody

First Crusade and beyond Jerusalem changed hands countless times But despite these horrific acts of violence its story during this period is also one of interfaith tolerance and accord In this gripping history John D Hosler explores the great clashes and delicate settlements of medieval Jerusalem He examines the city s many sieges and considers the experiences of its inhabitants of all faiths The city s conquerors consistently acknowledged and reinforced the rights of those religious minorities over which they ruled Deeply researched this account reveals the way in which Jerusalem s past has been constructed on partial histories and urges us to reckon with the city s broader historical contours *Maximus the Confessor* Paul M. Blowers, 2016 This study contextualizes the achievement of a strategically crucial figure in Byzantium s turbulent seventh century the monk and theologian Maximus the Confessor 580-662 Building on newer biographical research and a growing international body of scholarship as well as on fresh examination of his diverse literary corpus Paul Blowers develops a profile integrating the two principal initiatives of Maximus s career first his reinterpretation of the christocentric economy of creation and salvation as a framework for expounding the spiritual and ascetical life of monastic and non-monastic Christians and second his intensifying public involvement in the last phase of the ancient christological debates the monothelete controversy wherein Maximus helped lead an East-West coalition against Byzantine imperial attempts doctrinally to limit Jesus Christ to a single divine activity and will devoid of properly human volition Blowers identifies what he terms Maximus s cosmo-politeian worldview a contemplative and ascetical vision of the participation of all created beings in the novel politeia or reordered existence inaugurated by Christ s new theandric energy Maximus ultimately insinuated his teaching on the christoformity and cruciformity of the human vocation with his rigorous explication of the precise constitution of Christ s own composite person In outlining this cosmo-politeian theory Blowers additionally sets forth a theo-dramatic reading of Maximus inspired by Hans Urs von Balthasar which depicts the motion of creation and history according to the christocentric plot or interplay of divine and creaturely freedoms Blowers also amplifies how Maximus s cumulative achievement challenged imperial ideology in the seventh century the repercussions of which cost him his life and how it generated multiple recontextualizations in the later history of theology **The Cambridge Companion to the Age of Justinian** Michael Maas, 2005-04-18 This book introduces the Age of Justinian the last Roman century and the first flowering of Byzantine culture Dominated by the policies and personality of emperor Justinian I 527-565 this period of grand achievements and far-reaching failures witnessed the transformation of the Mediterranean world In this volume twenty specialists explore the most important aspects of the age including the mechanics and theory of empire warfare urbanism and economy It also discusses the impact of the great plague the codification of Roman law and the many religious upheavals taking place at the time Consideration is given to imperial relations with the papacy northern barbarians the Persians and other eastern peoples shedding new light on a dramatic and highly significant historical period
