REIMAGINING THOREAU

ROBERT MILDER

Reimagining Thoreau

Robert Kuhn McGregor

Reimagining Thoreau:

Reimagining Thoreau Robert Milder, 1995-03-31 Reimagining Thoreau synthesizes the interests of the intellectual and psychological biographer and the literary critic in a reconsideration of Thoreau's career from his graduation from Harvard in 1837 to his death in 1862. The purposes of the book are threefold: 1 to situate Thoreau's aims and achievements as a writer within the context of his troubled relationship to the microcosm of ante-bellum Concord; 2 to reinterpret Walden as a temporally layered text in light of the successive drafts of the book and the evidence of Thoreau's journals and contemporaneous writings; and 3 to overturn traditional views of Thoreau's decline by offering a new estimate of the post-Walden writing and its place within Thoreau's development.

Thoreauvian Modernities François Specq, Laura Dassow Walls, Michel Granger, 2013-02-01 Does Thoreau belong to the past or to the future? Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization, the essays in *Thoreauvian Modernities* reveal edgier facets of his work: how Thoreau is able to unsettle as well as inspire and how he is able to focus on both the timeless and the timely. Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context. The first of three sections, *Thoreau and Non-Modernity*, views Thoreau as a social thinker who set himself against the modern currents of his day even while contributing to the emergence of a new era. By questioning the place of humans in the social, economic, natural, and metaphysical order, he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement. The second section, *Thoreau and Philosophy*, examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates. Section three, *Thoreau, Language, and the Wild*, centers on his relationship to wild nature in its philosophical, scientific, linguistic, and literary dimensions. Together, these sixteen essays reveal Thoreau's relevance to a number of fields, including science, philosophy, aesthetics, environmental ethics, political science, and animal studies. *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought, the challenge it poses to our own thinking, and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity. Robinson, William Rossi, Dieter Schulz, François Specq, Joseph Urbas, Laura Dassow Walls.

Natural Life David Robinson, 2004 Robinson tells the story of a mind at work, focusing on Thoreau's idea of natural life as both a subject of study and a model for personal growth and ethical purpose. The best, most thoughtful, most carefully worked-out account of Thoreau's major ideas. Robert D. Richardson Jr., author of *Emerson: The Mind on Fire*. *Nineteenth Century Prose*, 2007.

The Transcendentalists Barbara L. Packer, 2007 Barbara L. Packer's long essay *The Transcendentalists* is widely acknowledged by scholars of nineteenth-century American literary history as the best-written, most comprehensive treatment to date of Transcendentalism. McGregor, 2017-05-15 Thoreau in his early career did not consider nature a worthy subject for his pen Beginning with only a superficial knowledge of nature even while living at Walden Pond he later began to study the subject more intensely in 1849 Over the next dozen years he applied himself especially to botany and ornithology seeking to integrate knowledge into the larger patterns of life Independently deriving what today would be considered an ecological worldview Thoreau devoted the last years of his writing career to nature studies written in his own distinctive voice In this revised edition of a standard study of Thoreau and nature the author traces the origins and development of Thoreau's shift in viewpoint and his painstaking efforts thereafter *Angelic Troublemakers* A. Dark Nature Richard Schneider, 2016-10-04 In The Ecological Thought eco philosopher Timothy Morton has argued for the inclusion of dark ecology in our thinking about nature Dark ecology he argues puts hesitation uncertainty irony and thoughtfulness back into ecological thinking The ecological thought he says should include negativity and irony ugliness and horror Focusing on this concept of dark ecology and its invitation to add an anti pastoral perspective to ecocriticism this collection of essays on American literature and culture offers examples of how a vision of nature s darker side can create a fuller understanding of humanity s relation to nature Included are essays on canonical American literature on new voices in American literature and on non print American media This is the first collection of essays applying the dark ecology principle to American literature

Beyond Little Women Lauren Hehmeyer, 2025-02-24 This collection concentrates on the secondary works of Louisa May Alcott and looks at the idea that Alcott was as heavily influenced by her times as by her transcendentalist upbringing Her work often subverts the conventional and includes the new the practical and the real The sections include 1 the gothic and the monstrous feminine 2 the theme of useful work 3 the themes of physical and mental health and 4 Alcott s philosophy concerning creativity and genius Contributors emphasize Alcott s belief in women s agency and argue that Alcott can be considered as a brilliant bridge between the Transcendental idealism of the early nineteenth century and later reforms

To Set this World Right Sandra Harbert Petrulionis, 2006 In the decade before the Civil War Concord Massachusetts was a center of abolitionist sentiment and activism *To Set this World Right* is the first book to recover and examine the voices events and influence of the antebellum antislavery movement in Concord In addressing fundamental questions about the origin and nature of radical abolitionism in this most American of towns Sandra Harbert Petrulionis frames the antislavery ideology of Henry Thoreau and Ralph Waldo Emerson two of Concord's most famous residents as a product of family and community activism and presents the civic context in which their outspoken abolitionism evolved In this historic locale radical abolitionism crossed racial class and gender lines as a confederation of neighbors fomented a radical consciousness and Petrulionis documents

how the Thoreaus Emersons and Alcotts worked in tandem with others in their community including a slaveowner's daughter and a former slave. Additionally, she examines the basis on which Henry Thoreau, who cherished nothing more than solitary tramps through his beloved woods and bogs, has achieved lasting fame as a militant abolitionist. This book marshals rich archival evidence of the diverse tactics exploited by a small coterie of committed activists, largely women, who provoked their famous neighbors to action. In Concord, the fugitive slave Shadrach Minkins was clothed and fed as he made his way to freedom. In Concord, the adolescent daughters of John Brown attended school and recovered from their emotional distress after their father's notorious public hanging. Although most residents of the town maintained a practiced detachment from the plight of the enslaved women and men, whose sole objective was the moral urgency of abolishing slavery, at last prevailed on the philosophers of self-culture to accept the responsibility of their reputations. **The Keys of Power** Nathan

Crick, 2017-08-31 Examines Transcendentalism as a distinct rhetorical genre concerned primarily and self-consciously with questions of power. Nathan Crick has crafted a new critical rhetorical history of American Transcendentalists that interprets a selection of their major works between the years 1821 and 1852 as political and ethical responses to the growing crises of their times. In *The Keys of Power*, Crick argues that one of the most enduring legacies of the Transcendentalist movement is the multifaceted understanding of transcendental eloquence as a distinct rhetorical genre concerned primarily and self-consciously with questions of power. Crick examines the Transcendentalist understanding of how power is constituted in both self and in society, conceptualizing the relationships among technology, nature, language, and identity, critiquing the ethical responsibilities to oneself, the other, and the state, and defining and ultimately praising the unique role that art, action, persuasion, and ideas have in the transformation of the structure of political culture over historical time. What is offered here is not a comprehensive genealogy of ideas, a series of individual biographies, or an effort at conceptual generalization, but instead an exercise in narrative rhetorical theory and criticism that interprets some of the major specific writings and speeches by men and women associated with the Transcendentalist movement: Sampson Reed, Amos Bronson Alcott, Orestes Brownson, Ralph Waldo Emerson, Margaret Fuller, Henry David Thoreau, and Frederick Douglass, by placing them within a specific political and social history. Rather than attempting to provide comprehensive overviews of the life and work of each of these individuals, this volume presents close readings of individual texts that bring to life their rhetorical character in reaction to particular exigencies while addressing audiences of a unique moment. This rhetoric of Transcendentalism provides insights into the keys of power that is the means of persuasion for our modern era that remain vital tools for individuals seeking to reconcile power and virtue in their struggle to make manifest a higher ideal in the world. *Hawthorne's*
