Reinhold Niebuhr and the Issues of Our Time Richard Harries, 1986 *Reinhold Niebuhr and the Issues of Our Time*
Reinhold Niebuhr, **Liberating Paul** Neil Elliott, 2005-02-01 For centuries the apostle Paul has been invoked to justify oppression whether on behalf of slavery to enforce unquestioned obedience to the state to silence women or to legitimate anti-Semitism To interpret Paul is thus to set foot on a terrible battleground between spiritual forces But as Neil Elliott argues the struggle to liberate human beings from the power of Death requires Liberating Paul from his enthrallment to that power In this book Elliott shows that what many people experience as the scandal of Paul is the unfortunate consequence of the way Paul has usually been read or rather misread in the churches In the first half of the book Elliott examines the many texts historically interpreted to support oppression or maintain the status quo He shows how often Paul's authentic message has been interpreted in the light of later pseudo-Pauline writings In Part Two Elliott applies a political key to the interpretation of Paul Though subsequent centuries have turned the cross into a symbol of Christian piety Elliott forcefully reminds us that in Paul's time this was the Roman mode of executing rebellious slaves a fact that has profound political implications **The Annual Review of Women in World Religions** Arvind Sharma, Katherine K. Young, 2001-11-01 This interdisciplinary consideration of women in world religions features new scholarship across traditions and approaches

The Poetics of Grace: Christian Ethics as Theodicy Jeph Holloway, 2013-04-09 What is God doing about a world marked by conflict and division What about a world in which our technologies promise great good but also threaten our existence What is God doing in a world where the demands for accumulation and acquisition create division and despair Can Christians hope to be of positive influence in a world that does not always support reflect or even understand Christian commitments Christian ethics often raises such questions as these and the possible answers vary widely Paul's Letter to the Ephesians is a tremendous resource for exploring a faithful response to perhaps the toughest question of all what is God doing about evil The role of Christian ethics is to take seriously the challenge that whatever God is doing God calls us to participate in a distinctive task that embraces our own commitments and labors within the divine purpose Ephesians says that God has taken the initiative to pursue that purpose and remarkably offers that we ourselves are part of the answer to the question what is God doing about evil **Christianity, Politics, and the Predicament of Evil** Bradley B. Burroughs, 2019-06-04

Christianity Politics and the Predicament of Evil overcomes a defining divide in contemporary Protestant political ethics created by two contrasting conceptions of politics The first exemplified in the work of Reinhold Niebuhr construes politics as a matter of statecraft that utilizes the power of government to secure the greatest possible order and justice for society as a whole The second most prominently articulated by Stanley Hauerwas maintains that politics concerns itself with the cultivation of virtue consequently it finds not the well ordered state but the church to be the exemplar of politics Not only illuminating the divide between politics as statecraft and politics as soulcraft but also redeveloping the conceptual space

between them this book reconceives politics within a theological framework in which the eschatological City of God rather than the well ordered state or the faithful church functions as the paradigm of political life At the same time it simultaneously recognizes that the existence of evil which corrupts individual wills and social structures inhibits human beings from building the City of God in this world Analyzing criticizing and drawing resources from Niebuhr and Hauerwas as well as looking beyond to Augustine Martin Luther King Jr and others this book specifies the respective roles of soulcraft and statecraft in a political ethic capable of guiding Christians as they witness to God s eschatological intention to establish the City of God in a world currently mired in the predicament of evil

Religion and the Realist Tradition Jodok Troy,2013-09-11 This volume picks up a rather uninvested field of international relations theory the influence of religion on Realism as well as the power of Realism to address religious issues in world politics Although classical scholars of Realism rarely mention religion explicitly in their well known work this volume suggests that Realism offers serious ground for taking religion and faith into account as well as evaluating the impact of religion on its theoretical framework how religion and religious worldviews influence and affect the theoretical framework of Realism and how Realism approach religious issues in international relations as a relatively new field of international studies Although international relations scholars now widely deal with issues of religion large portions of the theoretical underpinning are missing In addressing this lack the volume illustrates the possibility of reform and change in Realism Furthermore the chapters reach out to normative statements The contributors offer a theoretical view on religion in international relations in the context of Realism but always connect this with actual real world related political problems The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations theory and political philosophy

are the underlying principles of peace nonviolence democracy social justice and human rights all placed within a framework of realistic pacifism Peace brings the story up to date by examining opposition to the Iraq War and responses to the so called war on terror This is history with a modern twist set in the context of current debates about the responsibility to protect nuclear proliferation Darfur and conflict transformation

Blessed Are the Peacemakers Lisa Sowle Cahill, 2019-03-02 This book is a contribution to the Christian ethics of war and peace It advances peacebuilding as a needed challenge to and expansion of the traditional framework of just war theory and pacifism It builds on a critical reading of historical landmarks from the Bible through Augustine Aquinas the Reformers Christian peace movements and key modern figures like Dietrich Bonhoeffer Reinhold Niebuhr and recent popes Similar to just war theory peacebuilding is committed to social change and social justice but includes some theorists and practitioners who accept the use of force in extreme cases of self defense or humanitarian intervention Unlike just war theorists they do not see the justification of war as part of the Christian mission Unlike traditional pacifists they do see social change as necessary and possible and as such requiring Christian participation in public efforts Cahill argues that transformative Christian social participation is demanded by the gospel and the example of Jesus and can produce the avoidance resolution or reduction of conflicts And yet obstacles are significant and expectations must be realistic Decisions to use armed force against injustice even when they meet the criteria of just war will be ambiguous and tragic from a Christian perspective Regarding war and peace the focus of Christian theology ethics and practice should not be on justifying war but on practical and hopeful interreligious peacebuilding
