Reinventing Celebration The Art Of Planning Public Events:

Reinventing Celebration Bob Gregson,1992 **Event Studies** Donald Getz,2010-08-31 Many books exist on various aspects of event management reflecting growing academic and professional interest but there has not been a book written on Event Studies until now As the event management field expands there is a growth in demand for advanced texts particularly with a multidisciplinary research and theoretical orientation Event Studies is the first text to embrace this new direction in the field of event management providing students and practitioners with an explanation of why planned events are important from a social cultural economic and environmental perspective readers with an understanding of how various disciplines and other professional fields view planned events and the contributions they make to understanding events research students with a detailed evaluation of research issues and challenges and of methodologies and theories applicable to event studies The bibliography is extensive and numerous research examples are provided professionals with a tool to expand their knowledge well beyond the art and science of producing events to include the philosophical and scientific foundations of event studies For the event management student and for professionals Event Studies provides the necessary body of knowledge and theoretical methodological underpinnings on the subject of planned events The SAGE Handbook of Hospitality Management Roy C Wood,Bob Brotherton,2008-06-05 At last a comprehensive systematically organized Handbook which gives a reliable and critical guide to all aspects of one of the world s leading industries the hospitality industry The book focuses on key aspects of the hospitality management curriculum research and practice bringing together leading scholars throughout the world Each essay examines a theme or functional aspect of hospitality management and offers a critical overview of the principle ideas and issues that have contributed and continue to contribute within it Topics include The nature of hospitality and hospitality management The relationship of hospitality management to tourism leisure and education provision The current state of development of the international hospitality business The core activities of food beverage and accommodation management Research strategies in hospitality management Innovation and entrepreneurship trends The role of information technology The SAGE Handbook of Hospitality Management constitutes a single comprehensive source of reference which will satisfy the information needs of both specialists in the field and non specialists who require a contemporary introduction to the hospitality industry and its analysis Bob Brotherton formerly taught students of Hospitality and Tourism at Manchester Metropolitan University He has also taught Research Methods to Hospitality and Tourism students at a number of international institutions as a visiting lecturer Roy C Wood is based in the Oberoi Centre of Learning and Development India Event Management & Event Tourism Donald Getz,2005 This book provides both an overview of event studies and a foundation for professional event management *Reinventing Los Angeles* Robert Gottlieb,2007-10-12 Describes how water politics cars and freeways and immigration and globalization have shaped Los Angeles and how innovative social movements are working to make a more livable and sustainable city Los Angeles the place

without a sense of place famous for sprawl and overdevelopment and defined by its car clogged freeways might seem inhospitable to ideas about connecting with nature and community But in *Reinventing Los Angeles* educator and activist Robert Gottlieb describes how imaginative and innovative social movements have coalesced around the issues of water development cars and freeways and land use to create a more livable and sustainable city Gottlieb traces the emergence of Los Angeles as a global city in the twentieth century and describes its continuing evolution today He examines the powerful influences of immigration and economic globalization as they intersect with changes in the politics of water transportation and land use and illustrates each of these core concerns with an account of grass roots and activist responses efforts to reenvision the concrete bound fenced off Los Angeles River as a natural resource Arroyofest the closing of the Pasadena Freeway for a Sunday of walking and bike riding and immigrants initiatives to create urban gardens and connect with their countries of origin *Reinventing Los Angeles* is a unique blend of personal narrative Gottlieb himself participated in several of the grass roots actions described in the book and historical and theoretical discussion It provides a road map for a new environmentalism of everyday life demonstrating the opportunities for renewal in a global city

Festival and Events Management Ian Yeoman, 2004 This title explores the central role of events management in the cultural tourism and arts industries It includes international case studies of arts and leisure events together with case studies from Europe New Zealand Australia and the USA

Forthcoming Books Rose Arny, 1999

Place Reinvention Dr Torill Nyseth, Professor Arvid Viken, 2012-11-28 Through an interdisciplinary range of case studies from across the Northern rim of Europe this volume shows how place reinvention as a concept affects not only global cities but also marginal regions Linking place reinvention to the economic the symbolic and the political production of space the volume puts forward insights into how marginal areas understand their role in the global competition between places and regions through their branding strategies playing with representations of the unique and the ordinary urban and rural reindustrialization and cultural economy It also shows how and why some places seem to retain and strengthen their uniqueness whilst others are losing their local distinctiveness in the struggle to survive

Reclaiming and Redefining American Exhibitions of Russian Art Roann Barris, 2023-08-23 This book examines the history of American exhibitions of Russian art in the twentieth century in the context of the Cold War Because this history reflects changes in

museological theory and the role of governments in facilitating or preventing intercultural cooperation it uncovers a story that is far more complex than a chronological listing of exhibition names and art works Roann Barris considers questions of stylistic appropriations and influences and the role of museum exhibitions in promoting international and artistic exchanges Barris reveals that Soviet and American exchanges in the world of art were extensive and persistent despite political disagreements before during and after the Cold War It also reveals that these early exhibitions communicated contradictory and historically invalid pictures of the Russian or Soviet avant garde The book will be of interest to scholars working in art history museum studies and Russian studies The Routledge Research Companion to Planning and Culture Greg

Young,2016-03-23 It has become increasingly evident that effective planning for sustainable communities environments and economies pivots on the ability of planners to see the possibilities for culture in comprehensive social historical and environmental terms and to more fully engage with the cultural practices processes and theorisation that comprise a social formation More broadly an approach to planning theory and practice that is itself formed through a close engagement with culture is required This Research Companion brings together leading experts from around the world to map the contours of the relationship between planning and culture and to present these inextricably linked concepts and issues together in one place By examining significant trends in varying national and international contexts the contributors scrutinise the theories and practices of both planning and culture and explore not only their interface but significant divergences and tensions In doing so this collection provides the first comprehensive overview and analysis of planning and culture interdisciplinary and international in scope It is comprised of six parts organised around the themes of global and historical contexts key dimensions of planning and cultural theory and practice and cultural and planning dynamics Each section includes a final chapter that provides a case study lens which pulls the themes of the section together with reference to a significant planning issue or initiative Building Institution Kim Förster,2024-02-21

Building Institution chronicles the expansion of architecture as a profession and discipline in the postmodern era Kim Förster traces the compelling history of the Institute for Architecture and Urban Studies which was active in New York from 1967 to 1985 Drawing on extensive archival research and oral histories he constructs a collective biography that details the Institute's diverse roles and the dynamic interplay between research and design education culture and publishing By exploring the transformation of cultural production into a practice as well as the culturalization and global postmodernization of architecture the volume contributes significantly to the institutional history of architecture Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff,R R

Bowker Publishing,1996-09 *Festival Cities* John R. Gold,Margaret M. Gold,2020-12-03 Festivals have always been part of city life but their relationship with their host cities has continually changed With the rise of industrialization they were largely considered peripheral to the course of urban affairs Now they have become central to new ways of thinking about the challenges of economic and social change as well as repositioning cities within competitive global networks In this timely and

thought provoking book John and Margaret Gold provide a reflective and evidence based historical survey of the processes and actors involved charting the ways that regular festivals have now become embedded in urban life and city planning Beginning with David Garrick s rain drenched Shakespearean Jubilee and ending with Sydney s flamboyant Mardi Gras celebrations it encompasses the emergence and consolidation of city festivals After a contextual historical survey that stretches from Antiquity to the late nineteenth century there are detailed case studies of pioneering European arts festivals in their urban context Venice s Biennale the Salzburg Festival the Cannes Film Festival and Edinburgh s International Festival Ensuing chapters deal with the worldwide proliferation of arts festivals after 1950 and with the ever increasing diversification of carnival celebrations particularly through the actions of groups seeking to assert their identity The conclusion draws together the book s key themes and sketches the future prospects for festival cities Lavishly illustrated and copiously researched this book is essential reading not just for urban geographers social historians and planners but also for anyone interested in contemporary festival and events tourism urban events strategy urban regeneration regeneration or simply building a fuller understanding of the relationship between culture planning and the city *Cultural Geographies* John Horton, Peter Kraftl, 2013-10-08 Cultural geography is a major vibrant subdiscipline of human geography Cultural geographers have done some of the most important exciting and thought provokingly zesty work in human geography over the last half century This book exists to provide an introduction to the remarkably diverse controversial and sometimes infuriating work of cultural geographers The book outlines how cultural geography in its various forms provides a rich body of research about cultural practices and politics in diverse contexts Cultural geography offers a major resource for exploring the importance of cultural materials media texts and representations in particular contexts and is one of the most theoretically adventurous subdisciplines within human geography engaging with many important lines of social and cultural theory The book has been designed to provide an accessible wide ranging and thought provoking introduction for students studying cultural geography or specific topics within this subdiscipline Through a wide range of case studies and learning activities it provides an engaging introduction to cultural geography *Paperbound Books in Print* 1995 Reed Reference Publishing, R5ference Reed, 1995-12 *Events and Sustainability* Andrew Smith, Judith Mair, 2022-09-05 This book examines the links between events and sustainability with a particular focus on how festivals and events contribute to making places more inclusive resilient and sustainable Previous sustainability research in events often focused on reducing the negative environmental impacts with a corresponding lack of consideration of socio economic dimensions More recently research has begun to consider events in relation to a range of economic and social issues highlighting the growing importance of examining events through a critical lens This book adopts a critical and broader approach to event sustainability arguing that scholars should examine how events might contribute to sustainable development rather than merely exploring how individual events could be made more sustainable Accordingly the contributors to this edited book address how events might

change attitudes and behaviours by promoting sustainable lifestyles communities and technologies Following a detailed introduction the book features 16 chapters written by scholars from across the world The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism
