Robert R. Redfield

Reinventing Fatherhood:

Reinventing Fatherhood Jonathan Gould,1993 Because family relationships have changed so dramatically in the past generation most men cannot turn to their own fathers for guidance This book shows men how to define and develop their own unique roles as fathers Includes practical exercises to help men clarify and shape positive new approaches to parenting

Redefining Fatherhood Nancy E. Dowd,2000-07-01 Most fathers parent less than most mothers Those fathers who do parent equally or more so than mothers are poorly supported by our society For children this means a loss of adult care as well as an ongoing and sharply defined differentiation between fathers and mothers Fathers are not present in children s lives to a significant degree if at all or when they are present they are often rendered socially invisible For many men their parenthood is defined as biological or economic while a minority of men struggle against the presumption that they are not caregivers In *Redefining Fatherhood* Nancy Dowd argues that this skewed social pattern is mirrored and supported by law Dowd makes the case for reenvisioning fatherhood away from genes and dollars and toward nurture Integrating economic social and legal aspects of fathering she makes the case for focusing on social nurturing behavior as the core meaning of fatherhood In this nuanced and complex analysis she explores the barriers to redefinition including concepts of masculinity the interconnections between fathers and mothers male violence and homophobia *Redefining Fatherhood* offers a progressive view on how men and society at large can change understandings and practices of fatherhood

Reinventing Fatherhood Jonathan W. Gould,Robert E. Gunther,1993-05-01 **Constructing Fatherhood** Deborah Lupton Lesley Barclay,Professor Deborah Lupton,Professor Lesley Barclay,1997-08-22 It is a very impressive book Its coverage of contemporary discourses of fatherhood is comprehensive The theoretical stance is one that allows for complexity and fluidity The authors write well making even esoteric sociological and cultural theory accessible I recommend it *British Journal of Social Work* *Constructing Fatherhood* provides an analysis of the social cultural and symbolic meanings of fatherhood in contemporary western societies The authors draw on poststructuralist theory to analyze the representation of fatherhood in the expert literature of psychology sociology and the health sciences and in popular sources such as television film advertisements and child care and parenting manuals and magazines Men s own accounts of first time fatherhood are also drawn upon including four individual case studies *The Modernization of Fatherhood* Ralph LaRossa,1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday s fathers were involved with their children *The Modernization of Fatherhood* recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the image of the father as economic provider pal and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources he explores how the social and economic conditions of the Roaring Twenties and the Great Depression a period of technical innovation as well as economic

hardship fused these expectations into a cultural ideal With chapters on the U S Children s Bureau the fathercraft movement the magazine industry and the development of Parent s Magazine and the creation of Father s Day this book is a major addition to the growing literature on masculinity and fatherhood *Fatherhood* H. Elizabeth Peters,Randal D Day,Gary W Peterson,Suzanne Steinmetz,2014-03-18 How much power does a father have to influence his children s development A lively and often heated public debate on the role and value of the father in a family has been underway in the United States for the past decade Nevertheless we are far from understanding the complex ways in which fathers make contributions to their families and children *Fatherhood Research Interventions and Policies* addresses the central questions of the role of fathers What is the impact of father involvement on child outcomes What factors predict increased involvement of fathers Bringing together papers presented at the Conference on Father Involvement this volume includes contributions by leading scholars in anthropology demography economics family science psychology and sociology Many of the contributors also address the implications of father involvement for family policy issues including family leave child care and child support Furthermore the discussion of fatherhood ranges well beyond the case of intact middle class white families to include fathers from various ethnic groups and socioeconomic classes and of varied marital status including fathers of nonmarital children single father families and nonresident fathers *Fatherhood Research Interventions and Policies* addresses both practical and theoretical concerns including the redefinition of fatherhood changes over time in research on fatherhood the predictive power of fathers activities on their children s adult outcomes the correlation between fathers income and their involvement with their nonmarital children the influence of fathers on their sons probability of growing up to become responsible fathers the effects of divorce on father son and father daughter relationships interventions that help to keep divorced fathers in touch with their children This comprehensive powerful book combines pioneering empirical research with thoughtful consideration of the social and psychological implications of fatherhood It is essential reading for researchers policymakers psychologists and students of family studies human development gender studies social policy sociology and human ecology **Fatherhood** Elizabeth Peters,Randal D. Contemporary American Stories of Masculinity, Domesticity and Kinship Helena Wahlström, 2010-10-12 What do novels such as Annie Proulx's *The Shipping News* Michael Cunningham's *A Home at the End of the World* and Jayne Anne Phillips' *MotherKind* have in common with films such as *Smoke* and *Mrs Doubtfire* This study explores the intersection of masculinity and domesticity in contemporary film and literature It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the nuclear family still often loom large in the imagination of many Americans

Chinese Fatherhood, Gender and Family Mario Liong, 2017-01-16 This book is about how Chinese men make sense of and practise fatherhood within the context of changing gender conventions and socio cultural conditions Liong analyses data from participant observations at a men's centre focus groups and in depth interviews to assess the subjective experience and identities of Chinese fathers in Hong Kong from a gender perspective His findings show that economic provision education and marriage are the three natural and normal domains of paternity Not being able to fulfil these requirements is a threat to fathers masculinity yet is also an opportunity for fathers to reflect upon these accepted conventions In order to compensate

these men typically develop a closer and more caring relationship with their children however these fathers still struggle with feelings of inferiority *The American Father* Wade C. Mackey,2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey in human employs is consistent with the current treatment of topics development This approach which is grounded in a variety of diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so *The Role of the Father in Child Development* Michael E. useful are our assessment tools when they have not been validated on this distinctive group Proposing new assessment models that are in fact based on studies with this population Gould emphasizes that this is one of the fastest growing areas of professional involvement for practicing psychologists counselors and social workers Divided into three parts the book covers a conceptual framework the evaluation process and suggestions for the evaluator in preparing for court This book targets psychologists social workers and students in the fields of family social work family psychology family counseling forensic psychology family studies and family law *Reinventing Fatherhood* ,1994 *The Kaleidoscope of Gender* Joan Z.
