Reinventing Nationalism The Northern Leagues Of Italy:

Rethinking Nationalism and Ethnicity Hans-Rudolf Wicker, 2020-12-17 While there has been a spate of books concerned with race and ethnicity in Europe more specifically this timely volume offers a broader perspective and positions issues of identity ethnicity multiculturalism xenophobia regionalism and ethnonationalism within the wider contexts of trans and supranationalism With the weakening of welfare states and the homogenizing influences of globalization nations within both Eastern and Western Europe are discovering that the battlefield of political action is being redefined and as a result emotional alliances threaten to bypass the democratic systems of the past Offering fresh insights that are both empirically and theoretically informed this book illuminates the processes and consequences of these new developments In particular it reviews Marx s Durkheim s and Simmel s theories on nationalism and national identity and presents case studies of Belgium Italy s Northern League right wing intellectual production in Russia and much more *A World Without Meaning* Zaki

Laidi, 2005-08-10 This sophisticated book by internationally renowned theorist Zaki Laidi tackles the problem of individual identity in a rapidly changing global political environment He argues that it is increasingly hard to find meaning in our ever expanding world especially after the collapse of political ideologies such as communism With the breakup of countries such as the former Yugoslavia it is clear that people are now looking to old models like nationalism and ethnicity to help them forge an identity But how effective are these old certainties in a globalized world in a permanent state of flux Nationalism

in Italian Politics Damian Tambini, 2012-12-06 This book is the first full length study available in English to trace the extraordinary history of the Italian Northern Leagues during the 1980s and 1990s At a time when the postwar First Republic entered a crisis amid corruption scandals the Leagues acted as one of the main protest actors and grew at an unprecedented rate Drawing on electoral and survey data existing research eyewitness accounts of protest events and interviews with activists and leaders this book provides the definitive account of the movement Damian Tambini analyses why the movement was so successful in mobilising support and focuses on its most novel aspect its use of nationalism The new regionalist movements in Northern Italy which were unified into the Northern League in 1990 had a huge influence on Italian politics during the period Written for scholars interested in nationalism ethnicity and citizenship and for specialists in European Studies Italian and ethnic studies Nationalism in Italian Politics draws on the best Italian and international research to thoroughly analyse the movement and update classic studies of nationalism in the age of media spectacle **The**

Nationalism of the Rich Emmanuel Dalle Mulle, 2017-12-01 Based on rigorous analysis of the propaganda of five Western European separatist parties this book provides in depth examination of the nationalism of the rich defined as a type of nationalist discourse that seeks to end the economic exploitation suffered by a group of people represented as a wealthy nation and supposedly carried out by the populations of poorer regions and or by inefficient state administrations It shows that the nationalism of the rich represents a new phenomenon peculiar to societies that have set in place complex systems of

wealth redistribution and adopted economic growth as the main principle of government legitimacy The book argues that the nationalism of the rich can be seen as a rhetorical strategy portraying independent statehood as a solution to the dilemma between solidarity and efficiency arisen in Western Europe since the end of the Glorious Thirties It further suggests that its formation can be best explained by the following combination of factors 1 the creation from the end of the Second World War of extensive forms of automatic redistribution to a scale previously unprecedented 2 the beginning from the mid 1970s of an era of permanent austerity exacerbated in specific contexts by situations of serious public policy failure 3 the existence of national cultural cleavages roughly squaring with uneven development and sharp income differentials among territorial areas of a given state

Nationalism Today M. Troy Burnett, 2020-08-04 This extensive reference examines extreme political movements and the political cultural and economic conditions that breed them from the alt right in the United States to the Houthi rebel movement in Yemen and the question of Taiwan's independence

Nationalism Today Extreme Political Movements around the World is an authoritative guide for students and teachers who seek to understand nationalist movements across the globe The two volume work opens with essays that describe different types of nationalist movements extremist revisionist and separatist Arranged by country the entries that follow provide the geographic cultural economic and political context for the development of nationalist movements The entries provide expert analysis of specific movements and lay the groundwork for comparison of the many different types of extreme political movements that are exerting themselves around the world today In addition easy to read tables give cultural economic and political facts and figures for each country A comprehensive scholarly bibliography of secondary sources rounds out the book

The Rise of the Capital-state and Neo-Nationalism Oleksandr Svitych, 2022-11-21 What explains the rise of populist nationalism in the contemporary phase of globalized development Drawing on Karl Polanyi's study of the great transformation The Rise of the Capital state and Neo nationalism argues that populist nationalism is a societal reaction to the pro market structural changes in the political economies of nation states conceptualized as the capital state transformation Oleksandr Svitych shows that there is an inextricable link between free market reforms declining state legitimacy and identity based mobilization Examining four case studies Australia France Hungary and South Korea through a mixed method approach the book finds that discontented voters gravitate toward populist neo national political forces and embrace identity based solutions often in exclusivist and scapegoating forms to harness their anxieties and insecurities triggered by the capital state restructuring Populist nationalism of both the left and the right has emerged to compensate for the real and perceived inability of the state to shield citizens from the corrosive effects of market fundamentalism The Rise of the Capital state and Neo nationalism contributes to our understanding of the dynamics of the interrelated nature of state capital and identity politicization through a broader social theoretical perspective The Rise of the Capital state and Neo Nationalism is now available in paperback for individual customers

Reinventing Geopolitics John A. Agnew, 2001

Forthcoming Books Rose Army, 2003-04

A World

Without Meaning Zaki Laïdi,1998 In this provocative and incisive book Zaki Laidi argues that as our world becomes ever larger our ability to find meaning in it diminishes With the end of communism came the end of the intimate alliance between power and ideology No power in our globalised world can any longer claim to provide meaning In despair we look back to old models religious traditions nationalism ethnicity to give us a sense of identity But in a globalised world in a permanent state of flux just how effective are these old certainties

Nationalism and European Integration Ireneusz Pawel Karolewski, Andrzej Marcin Suszycki, 2007-10-24 Recoge Nationalism and european integration in comparative perspective Nationalism and european integration in depth case studies

Reinventing Free Labor Gunther Peck, 2000-05-22 One of the most infamous villains in North America during the Progressive Era was the padrone a mafia like immigrant boss who allegedly enslaved his compatriots and kept them uncivilized unmanly and unfree In this history of the padrone first published in 2000 Gunther Peck analyzes the figure s deep cultural resonance by examining the lives of three padrones and the workers they imported to North America He argues that the padrones were not primitive men but rather thoroughly modern entrepreneurs who used corporations the labour contract and the right to quit to create far flung coercive networks Drawing on Greek Spanish and Italian language sources Peck analyzes how immigrant workers emancipated themselves using the tools of padrone power to their own advantage

Bibliographie Internationale de Science Politique ,2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004

Krav Maga and the Making of Modern Israel Andrea Molle, 2022-03-04 This book examines the profound interplay of martial arts combative and self defense disciplines with nationalism and ethno religious politics through the analysis of Zionism the birth of the State of Israel antisemitism and the life of the contemporary Jewish Diaspora in the United States It connects martial arts studies and political science spearheading the new field of political hoplology Focusing on the complex formative process of national communities their growth resilience and consequences for the individuals Krav Maga and the Making of Modern Israel presents the unique case of Krav Maga literally hand to hand combat a self defense system developed between the late nineteenth and early twentieth centuries which is now considered a staple of Israeli culture and a prime self defense practice Through its chapters the book provides strong evidence supporting the idea that physical violence is indeed needed as a unifying experience to allow national communities to emerge and thrive Furthermore it examines the growing importance of violence for modern democratic societies and suggests the existence of a gladiatorial effect or the need for a certain level of violence to exist to maintain a harmonious stable and cooperative society

The New Authoritarians David Renton, 2019-07-23 The eighteen months between June 2016 and the end of 2017 saw the victory of Leave in Britain s EU referendum the election of Donald Trump as President of the United States and unprecedented support for Marine Le Pen of the Front National in her campaign for the same office in France Nearly a

decade after the great financial crash it is these figures and the alarmingly confident and radical version of right wing politics they represent that have gained the initiative over a moribund center and a still weak left But what exactly does this new reality represent While some argue that we are hurtling towards fascism in a replay of the 1930s and others insist there is little substantial change from politics as usual Renton takes a different and more nuanced view In country after country under the clouds of economic austerity and post 9 11 Islamophobia we have seen a convergence between traditional conservatives the authoritarian far right and previously marginal fascists The result is a new still emergent and deeply troubling form of right wing radicalism at once more moderate than classical fascism in its political strategy yet indulgent of the racism of its most extreme components

Italian Modernities Rosario Forlenza, Bjørn Thomassen, 2016-09-30 This book argues that Italy represents a privileged entry point into the comparative analysis of ideologies and experiences of modernity The book compares how thinkers and politicians belonging to different ideological clusters Liberalism Communism Fascism Christian Democracy came to formulate multiple and often antagonistic visions of Italy's road to the modern By revisiting Italian political history from the late nineteenth century until the present with a focus on transition periods Italian Modernities explores how competing historical narratives influenced shifting understandings of Italian nationhood thus foregrounding the active role of memory politics in the formulation of multiple modernities

Heritage and Nationalism Chiara Bonacchi, 2022-03-14 How was the Roman Empire invoked in Brexit Britain and in Donald Trump's United States of America and to what purpose And why is it critical to answer these kinds of questions Heritage and Nationalism explores how people's perceptions and experiences of the ancient past shape political identities in the digital age It particularly examines the multiple ways in which politicians parties and private citizens mobilise aspects of the Iron Age Roman and Medieval past of Britain and Europe to include or exclude others based on culture religion class race ethnicity etc Chiara Bonacchi draws on the results of an extensive programme of research involving both data intensive and qualitative methods to investigate how pre modern periods are leveraged to support or oppose populist nationalist arguments as part of social media discussions concerning Brexit the Italian Election of 2018 and the US Mexican border debate in the US Analysing millions of tweets and Facebook posts comments and replies this book is the first to use big data to answer questions about public engagement with the past and identity politics The findings and conclusions revise and reframe the meaning of populist nationalism today and help to build a shared basis for the democratic engagement of citizens in public life in the future The book offers a fascinating and unmissable read for anyone interested in how the past and its contemporary legacy or heritage influence our political thinking and feeling in a time of hyper interconnectivity

Redefining the Nation State and Citizen Günay Göksu Özdoğan, Gül Tokay, 2000 *The Migration of Power and North-South Inequalities* E. Paoletti, 2010-11-17 This book examines negotiations on migration in the Mediterranean It argues that migration is a bargaining chip which countries in the South use to increase their leverage versus their counterparts in the North This

proposition opens up new understandings reframing relations of inequalities among states *Stranger Or Guest?* Sandro Fridlizius, Abby Peterson, 1996 Racialized violence and murders in Greenwich and Birmingham Le Pen s neo nationalist party in France Lega Nord in Italy neo nazi violence rocking German society the repeated arson attacks on refugee centers in Sweden since 1989 all of these events and phenomena attest to the depth and persistency of racial and ethnic oppression within the practices and narratives of Western European societies and nation states The contributions in this anthology make a passionate plea for the urgency of understanding and coming to grips with racism and neo nationalism
