Treatment of Eating Disorders Margo Maine, Beth Hartman McGilley, Douglas Bunnell, 2010-09-08 Eating disorders EDs affect at least 11 million people in the United States each year and spread across age race ethnicity and socio economic class While professional literature on the subject has grown a great deal in the past 30 years it tends to be exclusively research based and lacking expert clinical commentary on treatment This

volume focuses on just such commentary with chapters authored by both expert clinicians and researchers Core issues such as assessment and diagnosis the correlation between EDs and weight and nutrition and medical psychiatric management are discussed as are the underrepresented issues of treatment differences based on gender and culture the applications of neuroscience EDNOS comorbid psychiatric disorders and the impact of psychiatric medications This volume uniquely bridges the gap between theoretical findings and actual practice borrowing a bench to bedside approach from medical research Includes real world clinical findings that will improve the level of care readers can provide consolidated in one place Underrepresented issues such as gender culture EDNOS and comorbidity are covered in full Represents outstanding scholarship with each chapter written by an expert in the topic area *Relapse for Eating Disorder Sufferers* Judi Hollis, 1985-06 *Weight Problems & Eating Disorders* Kerryn Phelps, Craig Hassed, 2012-10-31 Weight Problems and Eating Disorders General Practice The Integrative Approach This chapter discusses anorexia and bulimia like disorders These eating disorders are characterised by the use of inappropriate behaviours to control body weight and feelings as evidenced by low body weight high body weight extreme weight control behaviours such as vomiting and starvation excessive exercise and binge eating Obesity General Practice The Integrative Approach General Practitioners in primary care are uniquely placed to help in the management of patients in all stages of overweight and obesity and are able to maintain a therapeutic relationship with patients over many years General practitioners should take a long term view of weight problems which can mean avoiding goals for weight management that are unlikely to be achieved **Full and Partial Hospitalization Interventions for Eating Disorders** Enrica Marzola, Cheri Alicia Levinson, Renee Rienecke, Valentina Cardi, 2021-12-06 **Textbook of Hospital Psychiatry** Steven S. Sharfstein, 2009-02-20 With decreases in lengths of hospital stay and increases in alternatives to inpatient treatments the field of hospital psychiatry has changed dramatically over the past 20 years As the first comprehensive guide to be published in more than a decade the Textbook of Hospital Psychiatry is a compilation of the latest trends issues and developments in the field The textbook written by 70 national experts and clinical specialists covers a wide range of clinical and administrative topics that are central to today's practice of hospital psychiatry This is the only textbook on the market today that provides information for psychiatric hospital clinicians and administrators in a single all inclusive volume It covers information not generally available in other textbooks and medical journals touching on a variety of cutting edge issues such as safety improvement use of seclusion and restraint suicide prevention and culturally competent psychiatric care The book's 35 chapters are divided into four parts Part I Inpatient Practice focuses on specialty psychiatric units e.g. acute stabilization unit eating disorders unit forensic unit child unit including the many psychopharmacological and psychosocial treatments used within each This section also touches on specialized treatment for patients with co occurring problems such as substance abuse developmental disabilities and legal difficulties Part II Special Clinical Issues covers clinical issues from the perspective of different populations consumers

families suicidal patients This section also examines the recent trend toward patient centered care Part III The Continuum of Care addresses psychiatric services within the community such as rehabilitation programs day hospitals and emergency services It discusses the importance of understanding hospital based treatment within the broader perspective of patients lives Part IV Structure and Infrastructure focuses on such often overlooked topics as financing of care risk management electronic medical records and the actual architecture of psychiatric hospitals as well as the roles of psychiatric hospital administrators psychiatric nurses and psychiatrists and psychologists An invaluable resource for both clinicians and administrators as well as a comprehensive teaching tool for residents the Textbook of Hospital Psychiatry is a must have for all professionals who work in psychiatric settings
