Relationality And The Concept Of God:

Relationality and the Concept of God Henry Jansen, 2025-02-10 Classical theism the dominant tradition in Christian theology has stressed the metaphysical concept of God i.e. God's ontological transcendence and independence from the world. In this century however this concept of God has increasingly met with criticism. On the basis of the Bible and new philosophical considerations it is argued that a relational concept of God better answers the fundamental concerns of the Christian faith. In this book the author investigates the questions of whether one can conceive of God apart from the metaphysical attributes and whether reflection on the biblical depiction of God leads necessarily to a relational concept of God. The author explores the questions by examining the relational concepts of God found in two contemporary German theologians Jürgen Moltmann and Wolfhart Pannenberg and uses the divine attribute of immutability as a focus for the discussion. He argues that the relational concept of God presupposes another metaphysical conception of God which raises problems as serious as those in classical theism and that the Bible itself because of its nature as a narrative text is ambiguous in many respects as far as God is concerned. A truly Christian doctrine of God must take both the metaphysical and relational aspects of God into account.

Knowing God by Name Cherith Fee Nordling, 2010 Does women's experience matter for theological inquiry? Elizabeth Johnson's premise is that it does. Knowing God by name is a critical assessment and evaluation of this approach bringing Johnson into conversation with Catholic and feminist colleagues and with Karl Barth whose Trinitarian theology of experience maintains the divine creaturely distinction she challenges. P 4 cover *Ageing, Disability and Spirituality* Elizabeth MacKinlay, 2008-02-15 This collection examines theological and ethical issues of ageing disability and spirituality with an emphasis on how ageing affects people who have mental health and developmental disabilities. The book presents ways of moving towards more effective relationships between carers and older people with disabilities.

Restored to Our Destiny Brian G. Mattson, 2011-10-06 A close conceptual analysis of Herman Bavinck's 1854-1921 four volume *Reformed Dogmatics* this book explores what is broadly understood as the central motif of his work the organic relationship between nature and grace and highlights an overlooked aspect to this motif Bavinck's view of nature and grace is not only rooted in his Trinitarian theology but more importantly in his covenant theology. Exploring Bavinck's link between the doctrine of the imago Dei to an eschatology uniquely provided by Reformed covenant theology this book serves to illumine the rationale behind his signature dogma that grace restores and perfects nature. Given the link between the nature/grace motif and covenant theology this book raises the question whether the one can stand without the other. **Feminist Eschatology** Emily Pennington, 2016-08-25 Many feminist theologians have made timely and valuable contributions to rethinking the eschaton by framing it as cyclical and by embracing endings as they are experienced by present relational fluid and sensuous bodies. However any sense of eschatological finality or ultimacy has either been rejected or ignored. Feminist Eschatology seeks to think differently about Christian eschatology in light of contributions from feminist theologians.

noting the numerous and varied critiques they have made of traditional models These critiques are identified as being directed towards three key claims eschatology is understood to be actuated by a domineering God populated by masculinised beings and disassociated from present lives Using a form of strategic feminism wherein traits associated with female bodies and some women's experiences of their bodies are used to rethink the end time of the eschaton this book contributes to the meaning and significance of both bodies and eschatology Beyond Evangelicalism Steven Knowles, 2016-12-05 A prolific author and thinker Stanley J Grenz was a respected and influential figure not only within evangelicalism but in the wider theological world Amongst the many issues tackled by him it is perhaps his revisioning of evangelical theology in the light of the postmodern challenge that has caused the biggest stir in the theological world Advocating a nonfoundationalist methodology Grenz attempts to reposition evangelical theology in line with postmodern concerns This work examines the main traits of postmodern thought that would seem to directly challenge how evangelical theology is traditionally done An examination of the seminal influences on Grenz will be traced in order to understand more fully the position he takes A rigorous critique and assessment of his theological methodology will follow with the conclusion that his work goes beyond evangelicalism This will be the first book length treatment on Grenz's work on theological methodology and therefore will break new ground in this important area of study **Time & Eternity** Antje Jackelen, 2005-06-28 What is time Is there a link between objective knowledge about time and subjective experience of time And what is eternity Does religion have the answer Does science Antje Jackelen investigates the problem and concept of time Her analysis of the subject includes The notion of time and eternity as it is narrated through Christian hymn books stemming from Germany Sweden and the English speaking world with insights into changes of the concept and understanding of time in Christian spirituality over the past few decades Theological approaches to time and eternity as well as a look at Trinitarian theology and its relation to time The discussion of scientific theories of time including Newtonian relativistic quantum and chaos theories The formulation of a theology of time a theological mathematical model incorporating relational thinking oriented towards the future the doctrine of trinity and the notion of eschatology Descripci n del editor Primacy of Christ Vincent C. Anyama, 2021-03-02 What comes to mind when you hear the term primacy of Christ Perhaps that Jesus is number one or that he is the Lord of the universe Using the wealth of our tradition on Christ's primacy this book compels us to pause and search the profound depths of our basic Christian claim on the universal preeminence of Christ Upholding the writings of Joseph Ratzinger Pope Benedict XVI as exemplary representation of how the early Christian awareness of Christ's primacy helps us to interpret the present age this book displays a symphonic harmony between our ancient Christian heritage and the ongoing conversations about the authentic interpretation of Scripture the human person the last things and the church Central to this symphonic harmony of our tradition is the use of analogy whereby the incarnation helps us to better understand the similarity between the created things and the mystery of God To better understand how Ratzinger uses the writings of the fathers of the church to draw us

more deeply into the depths of Christ is what the correctives offered to some scholars in this book intends to accomplish What emerges is the ecumenical significance of Joseph Ratzinger's contribution to the modern debate on analogy of being analogia entis identifying Christ's primacy as the point of synthesis between analogia entis and analogia fidei **Bearing Sin as Church Community** Hyun Joo Kim,2022-07-28 Hyun Joo Kim claims that Bonhoeffer transforms and reconstructs the Augustinian doctrine of original sin by shifting the hamartiological premise from the doctrine of God to the doctrine of the church based on his Lutheran resources In Bonhoeffer's view Augustine's doctrine of original sin does not fully relate the doctrine of sin to the responsibility of the saints In order to reform Augustinian hamartiology Bonhoeffer appropriates Augustine's notion of the church as the whole Christ totus Christus which is located in Augustine's ecclesiology Kim explicates how Augustine relates his epistemological premises in his Christianized Platonism to his formulation of the doctrine of original sin and examines how Luther's Christocentric standpoint transforms Augustine's anthropology and ultimately leads Luther to his relational hamartiology Kim contends that Bonhoeffer's later hamartiology and ethics contain the most distinctive characteristics of Bonhoeffer's doctrine of sin in that he not only incorporates both the active and passive dimensions of sin but also intensifies his continuing notion of vicarious representative action towards the church community

The Relational Power of God Eleanor O'Donnell,2023-01-23 When we find the courage to allow our rebel voice to speak many of us question traditional Christian beliefs about God's power and how it is exercised in the world and in the church We ask What if God is not in omnipotent control of everything What if God's exercise of power is relational and noncoercive instead What if it is the quality rather than the quantity of God's power that really matters This book focuses on the theology of power that emerges when we ask such questions It draws on the social Trinitarian theology of Jürgen Moltmann and the process thought of Charles Hartshorne to image God as a Social Trinity in process This vision of God understands the Holy Trinity to be fully relational and thoroughly with us and all creation To think of God and God's power this way ensures freedom for creature and creation and enables a viable response to the problem of evil and suffering It also leads to the conclusion that human relationships in the world and in the church are best modeled on the power sharing solidarity of the Triune God **Systematic Theology** Francis Schussler Fiorenza,John P. Galvin,2011-05-01 Unique among contemporary resources the landmark Systematic Theology and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments especially the seachange since Vatican II thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics culture and praxis and ecumenical contacts This new volume combines and updates both previous volumes incorporates into the framework nearly twenty years of fresh thought and bibliography in each area and adds revisions to key articles to take account of a diverse fluid and postmodern situation *Across the Spectrum* Gregory A. Boyd,Paul Rhodes Eddy,2022-08-16 This accessible yet comprehensive primer helps readers understand the breadth of viewpoints on major

issues in evangelical theology with chapters using the popular multiple views format This third edition of a well received textbook over 60 000 copies sold has been updated and revised throughout It examines positions taken by evangelical scholars on seventeen seminal issues In addition it offers end of chapter For Further Reading sections an extensive glossary and an appendix that addresses contrasting views on fifteen additional issues in contemporary evangelicalism Two Views on the Doctrine of the Trinity Stephen R. Holmes, Paul D. Molnar, Thomas H. McCall, Paul Fiddes, 2014-09-02 Christians have always believed in the triune God but they haven't always understood or used the doctrine of the Trinity consistently In order to form a coherent view of trinitarian theology it's important for Christians to have a working knowledge of the two legitimate models for explaining this doctrine Classical presenting a traditional view of the Trinity represented by the Baptist theologian Stephen R Holmes and the Roman Catholic theologian Paul D Molnar Relational presenting the promise and potential hazards of a relational doctrine represented by the evangelical theologian Thomas H McCall and the Baptist philosopher Paul S Fiddes In this volume of the Counterpoints series leading contributors establish their models and approaches to the doctrine of the Trinity or the relationship between the threeness and oneness of the divine life Each expert highlights the strengths of his view in order to argue how it best reflects the orthodox perspective In order to facilitate a genuine debate and to make sure that the key issues are revealed each contributor addresses the same questions regarding their trinitarian methodology doctrine and its implications *The Spirit and Relational Anthropology in Paul* Samuel D. Ferguson, 2020-08-28 La 4e de couverture indique For the Apostle Paul humans do not identify and act on their own but are constituted in part by relationships Samuel D Ferguson shows that according to Paul the work of the Holy Spirit further attests to this as Christians realize their new life through Spirit created relationships of sonship and communal interdependence Communion with the Triune God Dick O Eugenio, 2014-08-28 The revival of Trinitarian studies in the twentieth century ushered in a new era of theological innovation The renewed and dedicated articulation of the Trinity as a doctrine in its own right is indeed noteworthy but more important and praiseworthy are the recent endeavours of theologians to integrate the doctrine of the Trinity with other Christian doctrines and with the many variegated aspects of the life and ministries of the church Today it is common to encounter the term Trinitarian being used as a modifier Trinitarian worship Trinitarian ecclesiology etc This book presents Thomas F Torrance as a participant theologian in this integrative paradigm Because Torrance argues that the Trinity is the ground and grammar of theology his doctrine of salvation is consistently Trinitarian But how did he formulate his unique Trinitarian soteriology Communion with the Triune God seeks to answer this question *The Holy Spirit as Communion* I. Leon Harris, 2017-09-26 In *The Holy Spirit as Communion* Leon Harris examines the pneumatologies of Colin Gunton and Frank Macchia For both theologians the doctrine of the Holy Spirit is foundational to understanding their doctrine of God Christology and ecclesiology Drawing on the theme of communion *The Holy Spirit as Communion* expresses the concept that the Holy Spirit is the person who perfects the divine nature and

personhood of the Father and Son It is the Holy Spirit who perfects the eternal communion within the divine Trinity which is the source of the divine action that also perfects the communion in creation as an expression of the Father's will through Jesus Christ The Holy Spirit as Communion explores the essentiality of the Holy Spirit through a unique approach to Spirit Christology Gunton is represented by a radicalized version of Chalcedon Christology and Macchia formulates his account through the overarching metaphor of Spirit baptism Therefore the doctrine of God Christology ecclesiology and eschatology cannot be construed without a proper account of pneumatology that takes into consideration the eschatological perfecting work of the third person of the Trinity who perfects creation's koinonia as a gift from the Father through the grace of Jesus Christ

Systematic Theology Francis Schüssler Fiorenza, John P. Galvin, 1991-01-01 Unique among contemporary resources the landmark *Systematic Theology* and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments especially the sea change since Vatican II thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics culture and praxis and ecumenical contacts This new volume combines and updates both previous volumes incorporates into the framework nearly twenty years of fresh thought and bibliography in each area and adds revisions to key articles to take account of a diverse fluid and postmodern situation

Thomas F. Torrance Paul D. Molnar, 2009 This book provides an important study of the theology of Thomas F. Torrance who is generally considered to have been one of the most significant theologians writing in English during the twentieth century with a view toward showing how his theological method and all his major doctrinal views were shaped by his understanding of the doctrine of the Trinity Torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known In holding to such a methodology he drew an analogy between theology and natural science This book demonstrates how for Torrance God relates with humanity within time and space so that creation finds its meaning in relation to God and not in itself this enabled him to avoid many theological pitfalls such as agnosticism subjectivism and dualism while explaining the positive implications of various Christian doctrines in a penetrating and compelling manner This book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the Christian life

The Character of Theology John R. Franke, 2005-07-01 Theology done in today's context is strikingly different from past evangelical approaches In this new project John Franke writing with our postmodern world in mind reflects these directions He offers an introduction to theology that covers the usual territory but does so attuned to today's ecclesial and cultural context In contradistinction to more traditional works Franke critiques traditional evangelical theological conceptions emphasizes the local nature of theology engages the postmodern context contrasts conservative and postconservative approaches interacts with the broader faith community Sure to provoke intense discussion *The Character of Theology* will help Christians to be faithful in a world in which the spiritual and intellectual

landscape is ever changing **Heidegger, Neoplatonism, and the History of Being** James Filler, 2023-05-04 This book argues that Western philosophy's traditional understanding of Being as substance is incorrect and demonstrates that Being is fundamentally Relationality To make that argument the book examines the history of Western philosophy's evolving conception of being and shows how this tradition has been dominated by an Aristotelian understanding of substance and his corresponding understanding of relation First the book establishes that the original concept of Being in ancient Western philosophy was relational and traces this relational understanding of Being through the Neoplatonists Then it follows the substantial understanding of Being through Aristotle and the Scholastics to reach its crisis in Descartes Finally the book demonstrates that Heidegger represents a recovery of the original relational understanding of Being
