Miller, 2009-01-30 Experts consider whether American primacy will endure or if the future holds a multipolar world of several great powers The unprecedented military economic and political power of the United States has led some observers to declare that we live in a unipolar world in which America enjoys primacy or even hegemony At the same time public opinion polls abroad reveal high levels of anti Americanism and many foreign governments criticize U S policies *Primacy and Its Discontents* explores the sources of American primacy including the uses of U S military power and the likely duration of unipolarity It offers theoretical arguments for why the rest of the world will or will not align against the United States Several chapters argue that the United States is not immune to the long standing tendency of states to balance against power while others contend that wise U S policies the growing role of international institutions and the spread of liberal democracy can limit anti American balancing The final chapters debate whether countries are already engaging in soft balancing against the United States The contributors offer alternative prescriptions for U S foreign policy ranging from vigorous efforts to maintain American primacy to acceptance of a multipolar world of several great powers Contributors Gerard Alexander Stephen Brooks John G Ikenberry Christopher Layne Keir Lieber John Owen IV Robert Pape T V Paul Barry Posen Kenneth Waltz William Wohlforth

The End of Love Eva Illouz,2021-09-15 Western culture has endlessly represented the ways in which love miraculously erupts in people's lives the mythical moment in which one knows someone is destined for us the feverish waiting for a phone call or an email the thrill that runs down our spine at the mere thought of him or her Yet a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love where we fall out of love when the one who kept us awake at night now leaves us indifferent or when we hurry away from those who excited us a few months or even a few hours before In *The End of Love* Eva Illouz documents the multifarious ways in which relationships end She argues that if modern love was once marked by the freedom to enter sexual and emotional bonds according to one's will and choice contemporary love has now become characterized by practices of non choice the freedom to withdraw from relationships Illouz dubs this process by which relationships fade evaporate dissolve and break down unloving While sociology has classically focused on the formation of social bonds *The End of Love* makes a powerful case for studying why and how social bonds collapse and dissolve Particularly striking is the role that capitalism plays in practices of non choice and unloving The unmaking of social bonds she argues is connected to contemporary capitalism which is characterized by practices of non commitment and non choice practices that enable the quick withdrawal from a transaction and the quick realignment of prices and the breaking of loyalties Unloving and non choice have in turn a profound impact on society and economics as they explain why people may be having fewer children increasingly living alone and having less sex *The End of Love* presents a profound and original analysis of the effects of capitalism and consumer culture on personal relationships and of what the dissolution of personal relationships means for capitalism Resources in Education ,1999-04 **A**
