## **Relationships Between Women In Later Life:**

*Relationships Between Women in Later Life* Karen A. Roberto, 1996 *Relationships Between Women in Later Life* makes a significant contribution to the literature available on older women through its recognition of the diversity that exists among older women and of the different types of social and familial bonds that characterize their individual lifestyles. From the book's cross-sectional and longitudinal studies, you will broaden your understanding of the roles older women assume in their relationships and the unique health, personal, and social issues they face. By reading *Relationships Between Women in Later Life*, you will acquire an understanding of traditional female relationships such as those that exist between mother and daughter, and grandmother and granddaughter, and how they develop and change as time passes. You will also gain important insight into the relationships between lesbians in later life, between Catholic sisters, and between women in structured environments such as nursing homes. In addition, if you are a social worker, nurse, gerontologist, or researcher, you will enhance your theoretical understanding and practical knowledge of both informal and formal ties and relationships among women in their later years. The authors of *Relationships Between Women in Later Life* come from a variety of academic backgrounds, including Gerontology, Family Studies, and Human Development, Social Work, Anthropology, and Nursing, to offer a broad perspective on the different aspects of women's relationships, their social networks, and the factors that shape the development and maintenance of the two. They present new data on the various components of women's relationships and make helpful recommendations for future research and practice considerations. This book will be of great service to academics, researchers, graduate students, and counselors in their efforts to better understand and better serve the fastest growing segment of today's population.

*Fundamentals of Feminist Gerontology* J. Dianne Garner, 1999 *Fundamentals of Feminist Gerontology* strives to increase women's self-esteem and their overall quality of life by encouraging education and putting a stop to age, sex, and race discrimination. As a student or professional in psychology, social work, or gerontology, you will learn about feminist conceptions of retirement, economic issues, psychological issues, and social issues, and you will explore studies on old-age discrimination and devaluation and sexism toward women in Western societies to gain an understanding of the experiences of older Western women. This book also shows how some women are experiencing empowerment through alternative health care such as mind-body therapies, homeopathy, aromatherapy, and herbal medicine. *Fundamentals of Feminist Gerontology* will provide you with the tools to offer effective therapy to women to help them improve their own lives.

*HIV, Sex and Sexuality in Later Life* Mark Henrickson, Casey Charles, Shiv Ganesh, Sulaimon Giwa, Kan Diana Kwok, Tetyana Semigina, 2024-05-21 Drawing on international perspectives and research, this book explores the experiences of sex and sexuality in individuals and groups living with HIV in later life. 50
