with at least one sibling These siblings are often fellow travellers through adversity or significant life events they can act as a source of support for some children while a source of conflict for others For these reasons siblings are a potentially powerful influence on development and this book is one of the first of its kind to provide an overview of cutting edge psychological research on this important relationship Why Siblings Matter is a cornerstone text on siblinghood Integrating findings from a 10 year longitudinal study alongside wider research it provides a lifespan perspective examining the impact of sibling relationships on children s development and well being This text situates siblings in their historical developmental and family context considers the influence of siblings on children s development and adjustment and provides an introduction to new research on siblings in diverse contexts The authors discuss sibling relationships in varied populations such as siblings with disabilities siblings in different cultures and siblings in non traditional families while also considering the practical implications of research Covering both classical studies and new results this book offers take home messages for promoting positive sibling interactions It will be invaluable reading for students and researchers in developmental psychology and family studies and professionals in education health and social work

#### **Context and Development** Robert

Cohen,Alexander W. Siegel,2014-02-04 The purpose of this book is to explore meaningful integrations of developmental processes and functioning with conceptualizations of context a term traditionally denoting physical settings social arenas or perceptual or social backdrops in relation to a focal point However the study of context has taken a considerably more unique and vibrant form in recent years the term is becoming more than a substitute for background independent variables Rather the contributions of context to behavior thought feelings and vice versa are becoming central issues in many research domains This text is a collection of empirical and theoretical accounts for understanding context its focus is on integrating the study of context with the science of developmental psychology Although the authors work in many different areas of the field and with different populations they all converge on a central methodological conceptual theme of contextualism which is presented as the dynamic integration of intraindividual factors with environmental and social environmental factors

**Family in the Time of Covid** Katherine Twamley,Humera Iqbal,Charlotte Faircloth,2023-08-31 COVID 19 turned the world as we knew it upside down impacting families around the world in profound ways Seeking to understand this global experience Family in the Time of COVID brings together case studies from ten countries that explore how local responses to the pandemic shaped and were shaped by understandings and practices of family life Carried out by an international team during the first year of the pandemic these in depth longitudinal qualitative investigations examined the impact of the pandemic on families and relationships across diverse contexts and cultures They looked at how families made sense of complex lockdown laws how they coped with collective worry about the unknown managed their finances fed themselves and got to grips with online work and schooling to understand better how life had transformed or not their everyday joys and struggles in times of great uncertainty Each case study follows the same methodology revealing experiences in Argentina

Chile Pakistan Russia Singapore South Africa Sweden Taiwan the United Kingdom and the USA They show how local government responses were understood and responded to by families and how different cultures and life circumstances impacted everyday life during the pandemic Ultimately the analysis gives an international perspective on a global phenomenon that transformed everyday life for millions of people
