**Alan Dawson**

## Relative Hills Of Britain:

**The Relative Hills of Britain** Alan Dawson, 1992-01-01 How many hills are there in Britain Has anyone climbed them all Where is there for hill walkers to go in the south of England What is a hill anyway The answers to these and other questions will be found in *The Relative Hills of Britain* This book dispenses with the common assumption that a hill must be at least 2000ft high to be worth climbing Instead it concentrates on listing all the hills that are relatively high compared to the surrounding land rather than compared to sea level This approach leads to some interesting results for example the highest points in the Cotswolds and Chilterns Campsie and Quantocks are all included as well as the main summits on numerous Scottish islands whereas well known mountain summits such as Cairn Gorm Bowfell and Carnedd Dafydd do not qualify As well as being an invaluable reference work for all walkers this book contains a fascinating collection of not too serious facts and figures about the Marilyn's as these relative hills have been called The book is illustrated by a set of photographs and a large number of very clear maps which make it easy to locate all the hills in each region *More Relative Hills of Britain* Mark Jackson, Alan Dawson, 2009 *The Revised Relative Mountains of Britain* Alan Dawson, 2025-07 The Marilyn's are the 1550 most prominent hills in Britain Whenever you stand on one you will be at least one hundred and fifty metres higher than the land or sea in every direction Most of them are outstanding viewpoints They come in all shapes and sizes and they can be found throughout all of Britain One is an ancient volcano in the middle of a city one is on a housing estate one is near the M25 south of London and seventeen are on uninhabited Scottish islands There are five in Cornwall six in Sussex and one hundred and fifty nine in Wales but only three in the Derbyshire s Peak District Some summits are in dense woodland some are by the side of a road and some are five hours from a public road Few people have climbed them all but thousands more have enjoyed seeking them out and finding their way to the top somehow Thirty three years after the first edition *The Revised Relative hills of Britain* brings the Marilyn's up to date The heights and locations are known with remarkable accuracy but this book offers far more than the essential tables and maps of the hills As well as a wealth of information and several entertaining articles there are quatrains songs and hundreds of stories from numerous contributors that capture the joys the adventures and the frustrations involved in climbing these hills with candour enthusiasm and humour **The Hughs** Andrew Dempster, 2020-12-11 Andrew Dempster has 40 years experience of hillwalking the length and breadth of Scotland Author of several climbing books including the first guidebook to the Grahams in this volume he identifies the best wee hills on the Scottish mainland MUNRO at least 3 000ft high CORBETT 2 500 3 000ft high with a prominence of at least 500ft GRAHAM 2 000 2 499ft high with a drop of at least 150 metres HUGH Hill Under Graham Height under 2 000ft with exceptional character The Hughs all offer rewarding and often stunning climbs and views Some are already popular Many await discovery Each one has great character That is what the Hughs are all about vFrom Arthur s Seat in Edinburgh to An Grianan in the far north from Ben Hiant in the west to Bennachie in the east the Hughs are a phenomenally diverse range of

hills stretching to all points of the compass Accessible to people of any age the Hughs are not defined by the sterile logic of relative height they are a choice of the heart      The Finest Peaks - Prominence and Other Mountain Measures Adam Helman,2005 This book challenges the precedent that a mountain s worth scales with height It is a rational synthesis of new concepts that compel one to reassess the popular heightist mindset The concept of prominence loosely defined as a mountain s vertical relief is a stiff competitor to summit height for assessing a mountain s stature and relative worth for innumerable purposes The community of prominence theoreticians list builders and climbers has reached critical mass suggesting publication of a book dedicated exclusively to prominence Revolutions are not overnight The heightist mindset has minimally a 100 year head start Eventually the climbing community will embrace prominence For the mountaineer a prominence based peak list provides fresh goals guaranteed to satisfy A prominence based peak list regardless of geographic region incorporates the most awe inspiring and diverse mountains Chapter I introduces prominence being defined and contrasted with altitude as peak list generator Chapters II and III concern peak list production Chapter IV reviews the history of prominence including a compendium of prominence list builders and their lists Chapter V is about prominence oriented peakbaggers and their accomplishments Chapter VI entails prominence derived mountain measures submarine prominence inverse prominence proportional prominence and dominance Chapter VII concerns the advanced prominence derived concepts of parentage divide trees lineage cells and more Chapter VIII concerns alternative objective mountain measures isolation measure peakedness and prominence density and height steepness combination measures drop measure cliff measure spire measure and ruggedness measure Spire measure quantifies a mountain s subjective impressiveness due to great angularity Chapter IX is a search for the largest prominence unclimbed mountain grand goal of a future summit discovering expedition Appendices A to G cover various subtopics the glossary defines over 300 terms 48 pages of illustrations are included with full color versions on line at [http://www.cohp.org/prominence/publication\\_2005\\_illustrations\\_main.html](http://www.cohp.org/prominence/publication_2005_illustrations_main.html) A beautiful hardcover edition with color illustrations is available and is highly recommended by book reviewers E mail the author for pricing and purchase information      **Abode of the Gods** Kev Reynolds,2015-10-14 On eight treks in Nepal s Himalaya to Kanchenjunga Manaslu Annapurna Everest Langtang Dolpo Api and Mugu the true spirit of trekking is captured in Kev Reynolds reverence curiosity and ongoing love of the world s greatest mountain range The Himalaya are no ordinary mountains Stretching through five countries and dwarfing all others they have captured the imaginations of travellers and mountain lovers for centuries While some seek to reach their snowy heights many more step out onto winding and climbing trails to trek through the heart of the mountains and live if only for a little while the life of an adventurer The first time a trail is explored offers unknown beauty and fresh experience around every turn This is Kev Reynolds collection of eight such discoveries along popular trails and into lands previously locked away Brought to life in vivid style Reynolds evokes the scent of fragrant rhododendron jungles and travelling past terraced fields hillside villages and ancient temples

Then exploring into hidden valleys beyond the reach of civilization and on to towering ice locked peaks that scratch the sky All proceeds from sales of this book will be donated to the Nepal Earthquake Appeal [Via Ferratas of the Italian Dolomites: Vol 2](#) Graham Fletcher, John Smith, 2015-02-17 Guidebook to the via ferrata routes of the southern Italian Dolomites This guide covers via ferrata routes in the major mountain ranges of Civetta Schiara and Pala as well as those to the west in the Brenta A significant addition and as far as we are aware not previously published in any English language guidebook is the inclusion of routes around the northern end of Lake Garda and the Piccole Dolomites north of Vicenza Here the mountains are generally lower and you can enjoy ferrata climbing over a much extended season with some routes accessible for most of the year This is the second in a series of two guidebooks to the via ferratas of the Italian Dolomites Volume One covers the eastern northern and central areas of the Dolomites while Volume Two completes the picture focusing on the southern Brenta and Lake Garda areas *Spain's Sendero Historico: The GR1* John Hayes, 2015-10-05 A guidebook to trekking the GR1 Sendero Historico through northern Spain Suitable for fit experienced trekkers this quiet 1247km 775 mile route stretches from Puerto de Tarna on the edge of the Pico de Europa National Park across the southern flank of the Cantabrian Mountains through the Basque Country and Catalunya to Sant Mart d Empuries on the Mediterranean coast and can be completed in around two months The GR1 is divided into 53 stages of 11 to 36km 7 21 miles These are presented in 7 sections with start and end points that are easily accessed by public transport for the benefit of those who wish to walk only part of the route An extension to Finisterre and the Atlantic using GR routes is also included Route description illustrated with 1 100 000 mapping GPX file available for download Handy route summary and facilities tables help you plan your itinerary Information on accommodation and facilities Notes on the regions fascinating history **Trekking the Robert Louis Stevenson Trail** Nike Werstroh, Jacint Mig, 2021-02-18 A guidebook to the Robert Louis Stevenson Trail GR70 from Le Puy en Velay to Als Covering 272km 169 miles this long distance trek through the Cevennes region on the edge of France's Massif Central follows in the footsteps of writer Robert Louis Stevenson and his donkey Modestine The trail takes around 2 weeks to hike and is suitable for both first time and experienced trekkers The route is described from north to south in 12 stages each between 16 and 30km 10 17 miles in length A brief account of Robert Louis Stevenson's experiences on that section of the route is included for each stage GPX files available to download 1 50 000 maps included for each stage Detailed information about accommodation campsites and facilities along the route Advice on planning and preparation

**Walking the Corbetts Vol 2 North of the Great Glen** Brian Johnson, 2013-08-27 A guidebook presenting 90 routes visiting 109 of Scotland's Corbetts mountains between 2500 and 2999ft Covering the area north of the Great Glen including the Hebrides the walks require good fitness and navigation skills plus experience in remote mountainous terrain while many are straightforward ascents some involve scrambling and river crossings The routes range from 7 to 41km 4 25 miles and include hikes around Knoydart Glen Affric Torridon Strathcarron and the Isle of Skye Part of a 2 volume set an accompanying

Cicerone guidebook *Walking the Corbetts Vol 1 South of the Great Glen* is also available Clear route description illustrated with 1 100 000 mapping Difficulty notes for each route detailing terrain challenges and hazards Information on maps parking local bases facilities and ferry services Alphabetical list of the Corbetts      [Trekking in Ladakh](#) Radek Kucharski,2015-11-02 A guidebook to 8 multi day trekking routes in Ladakh Exploring the Zaskar range in the northern tip of India these extremely challenging treks are suitable for experienced trekkers The routes are presented as 8 multi day treks covering 98 169km 61 105 miles and taking between 6 and 12 days to walk The treks include Kharnak Tsarab Chu Darcha to Padum Round Sultanlango Padum to Lamayuru Padum to Lamayuru via the Kanji La Alchi and Markha Valley 1 250 000 mapping is included Variants and extensions included for selected routes Detailed information on planning transport visas equipment cultural awareness safety and security Notes on the culture and history of the region      *Walking in Carmarthenshire* Jim Rubery,2015-10-21 A guidebook to 30 day walks in Carmarthenshire in south Wales including parts of the Bannau Brycheiniog Brecon Beacons National Park and the Carmarthenshire Coast Path The walks are mostly circular and vary in difficulty from short easy walks to more challenging routes in open country with something for all levels of experience and fitness The walks range from 5 17km 3 11 miles in length and take between 2 and 7 hours to complete They are organised into six geographical areas covering the northwest of the county the central region the Cambrian Mountains Y Mynydd Du the Black Mountain and Carmarthen Bay east and west 1 50 000 OS maps included for each walk Sized to easily fit in a jacket pocket Refreshment and public transport options are given for each walk Information given on local geology and wildlife Easy access from Carmarthen Llandeilo Llanelli and Llandovery      [Walking in Provence - East](#) Janette Norton,2014-11-03 A guidebook to 30 circular day walks in the east of France s Provence Exploring the dramatic scenery of the Alpes Maritimes Alpes de Haute Provence and Mercantour regions of Provence the walks are suitable for beginner and experienced walkers alike and are perfect for walking year round The routes range from 4 21km 2 13 miles and can be enjoyed in 2 8 hours They go from key areas including Vence Grasse and Digne les Bains Sketch maps are included for each route Local highlights include Mont Mounier Verdon Gorge and Est rel Information on local history and wildlife GPX files available to download Part of a 2 volume Cicerone series on Walking in Provence      **Trekking in the Apennines** Gillian Price,2015-12-22 A guidebook to trekking the Grande Escursione Appenninica GEA a 400km waymarked trail through Italy s Appenine mountains Extending from Bocca Trabaria to Passo Due Santi through the regions of Tuscany and Emilia Romagna the route is straightforward and suitable for a broad range of trekkers with walking on paths forestry tracks and quiet lanes The GEA is presented in 23 day stages graded by difficulty of between 8 and 25km with accommodation available at each stage end though camping is also possible on some stages With convenient access by public transport it is also easy to walk a shorter section of the route Route description illustrated with sketch mapping and elevation profiles Comprehensive notes on accommodation and facilities Peaks including Monte Prado the highest peak in Tuscany Advice on preparation and planning

Sized to easily fit in a jacket pocket      **Great Mountain Days in the Pennines** Terry Marsh,2013-03-22 An inspirational large format guidebook describing 50 walks in the Pennine mountains Exploring all aspects of this beautiful upland area the walks are graded with plenty of inspirational options for both first time and experienced walkers Routes range from 10 21km 6 13 miles and can be enjoyed in 3 7 hours Covers the North Pennines Howgills Yorkshire Dales South Pennines and Dark Peak Routes include Cross Fell Wild Boar Fell Ingleborough Whernside Pen y Ghent Pendle Hill Kinder Downfall and a traverse of Ilkley Moor Clear route description alongside 1 50 000 OS mapping reproduced at 1 40 000 for greater clarity Many routes are suitable for fell running      **Cycling in the Hebrides** Richard Barrett,2024-01-11 This guidebook contains 37 day rides and 22 linked cycling routes across Scotland s Inner and Outer Hebrides with additional routes around Arran the Clyde and Kintyre Create the perfect island hopping itinerary to suit any ability The day rides range in length from 19 to 60 km 12 70 miles whilst the long distance touring itineraries cover between 106 and 973 km 66 973 km overall These long distance tours are perfect for weekend to fortnightly breaks Includes route itinerary and mapping for the Hebridean Way Clear route descriptions with 1 250 000 mapping Elevation profiles and difficulty grades Advice on how to prepare your bike and what to take Facilities guide with information on accommodation and transport      **The Pyrenees** Kev Reynolds,2010-09-09 A resource book covering the finest walks treks and climbs in the High Pyrenees for 400km between France and Spain from the Cirque de Lescun on the edge of the Basque country in the west to the Carlit massif and the Cerdagne to the east of Andorra The book is divided into five regional chapters the Western Valleys Cirques and Canyons the Central Pyrenees Enchanted Mountains and Andorra and the Eastern High Pyrenees Intended as a resource book for those planning a range of mountain activities in the Pyrenees the guide describes each area valley by valley and provides information on access and accommodation as well as recommended maps and guidebooks Unlike a conventional walking book detailed route descriptions are not included the guide does however direct the reader to the finest walks treks and climbs in the area and provide an outline of specially selected routes An extensive introduction gives all the practical advice and information needed for planning a trip It offers a background to the mountains and their exploration and provides a snapshot of the range with sections that help the reader focus on specific areas of activity and suggests where best to exercise that activity      The Westweg Kat Morgenstern,2017-01-20 A guidebook to walking the Westweg Westway between Pforzheim in Germany to Basel in Switzerland Covering 285km 177 miles this long distance trek through the Black Forest takes around 2 weeks and is suitable for any reasonably fit walker The route is described north to south in 13 stages each between 15 and 28km 9 17 miles in length Two variants between Titisee and Basel are described the western route takes in Feldberg the Black Forest s highest peak whilst the quieter eastern route summits the Herzogenhorn peak 1 100 000 mapping plus larger scale town maps for key locations GPX files available to download Detailed information about refreshments and facilities along the route Advice on planning and preparation      *Unjustifiable Risk?* Simon

Thompson,2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession Unjustifiable Risk is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment Unjustifiable Risk was shortlisted for the Boardman Tasker prize in 2011 **Trekking in the Himalaya**

Kev Reynolds,2013-11-08 An inspirational larger format book providing an overview of 20 memorable treks in the Himalaya A stunning collection of all the best trekking ideas throughout the Himalayan range they include such well known classics as the treks to Everest K2 and Kangchenjunga base camps and the Annapurna and Manaslu Circuits The ultra long Lunana Snowman Trek and a kora around sacred Mount Kailash in Tibet are also included There are epic glacier treks like that to Pakistan s Snow Lake following in the footsteps of Shipton and Tilman towards Nanda Devi and the approach to Gangkar Punsum the world s highest unclimbed peak located in remote Bhutan Unlike a conventional guidebook detailed route descriptions are not included the book is however an excellent planning resource for those who wish to venture into the Himalayas It looks at each route in turn and provides a snapshot of what makes the trek special helping you choose the best routes to walk Perfect either for planning or for the armchair explorer
