Makers Katrin Flechsig, 2022-07-12 Picture a throng of tiny devils and angels or a marching band so small it can fit in the palm of your hand In a Mixtec town in the Mexican state of Puebla craftspeople have been weaving palm since before the Spanish Conquest but over the past forty years that art has become more finely tuned and has won national acceptance in a market nostalgic for an authentic Indian past In this book Katrin Flechsig offers the first in depth ethnographic and historical examination of the miniature palm craft industry taking readers behind the scenes of craft production in order to explain how and why these folk arts have undergone miniaturization over the past several decades In describing this Lilliputization of Mexico she discusses the appeal of miniaturization revealing how such factors as tourism and the construction of national identity have contributed to an ongoing demand for the tiny creations She also contrasts the playfulness of the crafts with the often harsh economic and political realities of life in the community Flechsig places the crafts of Chigmecatitlán within the contexts of manufacturing local history religion design and technique and selling She tells how innovation is introduced into the craft such as through the modification of foreign designs in response to market demands She also offers insights into capitalist penetration of folk traditions the marketing of folk arts and economic changes in modern Mexico And despite the fact that the designations folk and Indian help create a romantic fiction surrounding the craft Flechsig dispels common misperceptions of the simplicity of this folk art by revealing the complexities involved in its creation More than thirty illustrations depict not only finished miniatures but also the artists and their milieu Today miniatures serve not only the tourist market middle class Mexicans also collect miniatures to such an extent that it has been termed a national pastime Flechsig's work opens up this miniature world and shows us the extent to which it has become a lasting and important facet of contemporary Mexican culture **Symbolism** 16 Rüdiger Ahrens, Florian Kläger, Klaus Stierstorfer, 2016-10-10 Essays in this special focus constellate around the diverse symbolic forms in which Caribbean consciousness has manifested itself

Indigenuity Caroline Wigginton,2022-10-06 For hundreds of years American artisanship and American authorship were entangled practices rather than distinct disciplines Books like other objects were multisensory items all North American communities and cultures including Native and settler colonial ones regularly made and used All cultures and communities narrated and documented their histories and imaginations through a variety of media All created objects for domestic sacred curative and collective purposes In this innovative work at the intersection of Indigenous studies literary studies book history and material culture studies Caroline Wigginton tells a story of the interweavings of Native craftwork and American literatures from their ancient roots to the present Focused primarily on North America especially the colonized lands and waters now claimed by the United States this book argues for the foundational but often hidden aesthetic

orientation of American literary history toward Native craftwork Wigginton knits this narrative to another of Indigenous aesthetic repatriation through the making and using of books and works of material expression Ultimately she reveals that Native craftwork is by turns the warp and weft of American literature interwoven throughout its long history Visualizing Sensuous Suffering and Affective Pain in Early Modern Europe and the Spanish Americas, 2018-01-03 Visualizing Sensuous Suffering and Affective Pain in Early Modern Europe and the Spanish Americas is a trans cultural collection of studies on visual treatments of the phenomena of suffering and pain in early modern culture Ranging geographically from Italy Spain and the Low Countries to Chile Mexico and the Philippines and chronologically from the fourteenth to the eighteenth centuries these studies variously consider pain and suffering as somatic emotional and psychological experiences From examination of bodies shown victimized by brutal public torture to the sublimation of physical suffering conveyed through the incised lines of Counter Reformation engravings the authors consider depictions of pain and suffering as conduits to the divine or as guides to social behaviour indeed often the two functions overlap Creative Destruction Tyler Cowen, 2009-01-10 A Frenchman rents a Hollywood movie A Thai schoolgirl mimics Madonna Saddam Hussein chooses Frank Sinatra s My Way as the theme song for his fifty fourth birthday It is a commonplace that globalization is subverting local culture But is it helping as much as it hurts In this strikingly original treatment of a fiercely debated issue Tyler Cowen makes a bold new case for a more sympathetic understanding of cross cultural trade Creative Destruction brings not stale suppositions but an economist s eye to bear on an age old question Are market exchange and aesthetic quality friends or foes On the whole argues Cowen in clear and vigorous prose they are friends Cultural destruction breeds not artistic demise but diversity Through an array of colorful examples from the areas where globalization s critics have been most vocal Cowen asks what happens when cultures collide through trade whether technology destroys native arts why and whether Hollywood movies rule the world whether globalized culture is dumbing down societies everywhere and if national cultures matter at all Scrutinizing such manifestations of indigenous culture as the steel band ensembles of Trinidad Indian handweaving and music from Zaire Cowen finds that they are more vibrant than ever thanks largely to cross cultural trade For all the pressures that market forces exert on individual cultures diversity typically increases within society even when cultures become more like each other Trade enhances the range of individual choice yielding forms of expression within cultures that flower as never before While some see cultural decline as a half empty glass Cowen sees it as a glass half full with the stirrings of cultural brilliance Not all readers will agree but all will want a say in the debate this exceptional book will stir
