*Junior High School Library Catalog* ,1997 Religion within the Limits of History Alone Demian Wheeler, 2020-09-01

Among the greatest challenges facing religious thinkers today is that created by historicism the notion that human beings and their myriad understandings of reality are utterly historical conditioned by contingent circumstances and tied to particular contexts In this book Demian Wheeler confronts the historicist challenge by delineating and defending a particular trajectory of historicist thought known as pragmatic historicism Rooted in the German Enlightenment and fully developed within the early Chicago school of theology pragmatic historicism is a predominantly American tradition that was philosophically nurtured by classical pragmatism and its intellectual siblings naturalism and radical empiricism Religion within the Limits of History Alone not only undertakes a detailed genealogy of this pragmatic historicist lineage but also sets forth a constructive program for contemporary theology by charting a path for its future development Wheeler shows that pragmatic historicism is an underdeveloped resource for contemporary theology since it offers a model for normative religious thought that is theologically compelling yet wholly nonsupernaturalistic deeply pluralistic unflinchingly liberal and radically historicist **A Student's Guide to AS Religious Studies for the AQA Specification** Kate Brown, Ting Morris,

Jensen, 2007-07-31 How does a society absorbed in short term self interest group think moral confusion and the cowboy problem change itself In a coffee shop my friend Dave asked about title of the book I was editing When I told him his eyes opened wide and he smiled What does that mean to you I asked Lenin was a revolutionary a visionary he answered but you re proposing a different way to do that That s it I exclaimed You re the person I m writing this for You get it He thought a moment and summed up the book You take us on a psychological walking tour through the processes that will bring global change The processes are ways people connect think together work in groups and apply their effort to the needs of humans and other living things *Religion, Law and the Constitution* Javier García Oliva, Helen Hall, 2017-08-10 This book examines the existing constitutional and legal system in England Wales and Scotland through the prism of its treatment of religion and belief The study encompasses questions of Church state relations but pushes far beyond these It asks whether the approach to religion which has spread out from establishment to permeate the whole legal framework is a cause of concern or

celebration in relation to individual and collective freedoms The primary focus of the work is the synergy between the religious dimension of the juridical system and the fundamental pillars of the Constitution parliamentary sovereignty the rule of law separation of powers and human rights Javier Garc a Oliva and Helen Hall challenge the view that separation between public and religious authorities is the most conducive means of nurturing a free and democratic society in modern Britain The authors explore whether counter intuitively for some the religious dynamic to the legal system actually operates to safeguard liberties and has a role in generating an inclusive and adaptable backdrop for our collective life They suggest that the present paradigm brings benefits for citizens of all shades of religious belief and opinion including Atheist and Humanist perspectives as well as secondary advantages for those with profound beliefs on non religious matters such as pacifism and veganism In support of their contentions Garc a Oliva and Hall examine how the religious dimension of the legal framework operates to further essential constitutional principles in diverse settings ranging from criminal to family law In a groundbreaking move the authors also set the legal discussion alongside its social and cultural context They consider how the theological perspectives of the larger faith traditions might influence members ideas around the key constitutional precepts and they include extracts from interviews which give the personal perspective of more than 100 individuals on contemporary issues of law and religious freedom These voices are drawn from a range of fields and positions on faith While the authors are at pains to stress that these sections do not support or advance their legal or theological conclusions they do provide readers with a human backdrop to the discussion and demonstrate its crucial importance in twenty first century Britain

*Malaysian Christians Online* Meng Yoe Tan, 2020-02-26 Many facets of social life are now intrinsically linked to the Internet through increasing dependence of user centric platforms like blogs social networking websites online forums and open source websites The Malaysian Church is not exempt from having to negotiate with an increasingly tech savvy and networked community of believers Based primarily on Internet ethnography and interviews with Christian bloggers and church pastors this book looks at how the Internet is a component of everyday religion in the lives of Malaysian Christians at individual institutional and national levels It examines the ways in which online Christian expressions are increasingly integrated into the everyday religious routines of Christians for the development of their personal identities and inter religious interactions This book also shows how the spiritual authority of church pastors can be both challenged and reinforced through the creative use of online tools It addresses some of the creative ways in which Christians utilise the Internet to engage with national socio political issues within the context of restrictive and controlled mainstream media as well as the ongoing discourse with Islam in the country Through a selection of case studies this book shows that while the Internet may be free the users of the Internet are not necessarily so While the Internet has provided Malaysian Christians with new tools to experience their faith in new ways several aspects of old offline

socio cultural habits persist online These in turn lead to a robust and growing environment of Internet Christianity in Malaysia This timely book will be of interest to scholars in religious studies media and communications and cultural studies in Southeast Asia

**The Logic of Intersubjectivity** Darren M. Slade,2020-08-27 To survey harsh criticisms against Brian Douglas McLaren 1956 readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic While McLaren s inflammatory and provocative writing style is partly to blame this study also suspects that his critics base much of their analyses on only small portions of his overall corpus The result becomes a caricature of McLaren s actual philosophy of religion What is argued in this book is that McLaren s philosophy of religion suggests a faith based intersubjective relationship with the divine ought to result in an existential appropriation of Christ s religio ethical teachings When subjectively internalized this appropriation will lead to the assimilation of Jesus kingdom priorities thereby transforming the believer s identity into one that actualizes Jesus kingdom ideals The hope of this book is that by tracing McLaren s philosophy of Christian religion future researchers will not only be able to comprehend and perhaps empathize with McLaren s line of reasoning but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale
