today as the religious provokes passionate social debate

Global Pentecostalism: An Inquiry Into the Cultural Dimensions of Globalization Matthias Deininger,2013-05-24 The rapid global expansion of Pentecostal Christianity is one of the most striking religious phenomena in our contemporary world Today Pentecostalism is by no means some marginal or peculiar denomination within world Christianity It is not simply a niche product in the global religious market but the most dynamic and fastest growing religious movement within the contemporary Christian world From Singapore over Brazil to Ghana Pentecostal Christians are historically and presently rooted in many cultural contexts throughout the world As such Pentecostalism is a religious movement that is both shaped by

globalization processes but also a major contributor to the globalization of religion. Until recently, social scientific approaches to Christianity have often been informed by a rather selective understanding of Christianity stressing its ascetic components premised on a body spirit dualism and seeing its importance mainly as a harbinger of secular modernity. Hence where Christianity was studied outside the West it has usually been peripheral and viewed as an alien intrusion undermining local cosmologies. However, rather than a religious rejection of the world, Pentecostalism accommodates to the world and modernity. It transcends locality by promulgating a universal imaginary of the world while at the same time incorporating itself successfully into the socio-cultural contexts of any new cultures it encounters. The fundamental fluidity of the transnational Pentecostal network is conducive for its flexibility to react on the enormous upheavals and changes in a globalized world and to accommodate to them in constructive ways. Thus Pentecostalism can be regarded as a paradigmatic case of a globalized religion; it has the ability to adapt itself to local conditions while maintaining and preserving its distinct religious features at the same time. This study focuses on the different theoretical attempts made to explain the massive global expansion of Pentecostalism.

The Pragmatics of Defining Religion Platvoet, Arie Molendijk, 2018-11-13. This volume promotes a pragmatic, anti-essentialist and anti-hegemonic approach to the problem of the definition of religion. It argues that definitions of religion are context-bound strategies for pursuing a variety of purposes, extra-academic as well as academic. Religions being immensely varied, complex and multi-functional phenomena, they need to be studied by several academic disciplines from many different perspectives. It is therefore legitimate and useful that many definitions of religions are developed. The volume has contributions from scholars in Philosophy of Religion, the Comparative Study of Religions, Anthropology of Religion, Sociology of Religion and Psychology of Religion. It has chapters on the polemics of defining religion in modern contexts, the history of the concept of religion and
