English Women, Religion, and Textual Production, 1500-1625 Micheline White, 2016-05-13 Contributing to the growing interest in early modern women and religion this essay collection advances scholarship by introducing readers to recently recovered or little studied texts and by offering new paradigms for the analysis of women's religious literary activities Contributors underscore the fact that women had complex multi dimensional relationships to the religio political order acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra as well as extra confessional conflict The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate

the importance of women's engagement with Catholicism throughout the period. The collection also highlights the vitality of neglected intertextual genres such as prayers, meditations and translations and it focuses attention on diverse forms of textual production such as literary writing, patronage, epistolary exchanges, public reading and epitaphs. *Collectively English Women: Religion and Textual Production 1500-1625* offers a comprehensive treatment of the historical, literary and methodological issues preoccupying scholars of women and religious writing.

Women, Reading, and the Cultural Politics of Early Modern England Edith Snook, 2017-07-05. A study of the representation of reading in early modern Englishwomen's writing, this book exists at the intersection of textual criticism and cultural history. It looks at depictions of reading in women's printed devotional works, maternal advice books, poetry and fiction as well as manuscripts for evidence of ways in which women conceived of reading in sixteenth and early seventeenth century England. Among the authors and texts considered are Katherine Parr's *Lamentation of a Sinner*, Anne Askew's *The Examinations of Anne Askew*, Dorothy Leigh's *The Mothers Blessing*, Elizabeth Grymston's *Miscelanea Meditations Memoratives*, Aemelia Lanyer's *Salve Deus Rex Judaeorum* and Mary Wroth's *The First Part of the Countess of Montgomery's Urania*. Attentive to contiguities between representations of reading in print and reading practices found in manuscript culture, this book also examines a commonplace book belonging to Anne Cornwallis Folger Folger MS V a 89 and a Passion poem presented by Elizabeth Middleton to Sarah Edmond's Bod MS Don e 17. Edith Snook here makes an original contribution to the ongoing scholarly project of historicizing reading by foregrounding female writers of the early modern period. She explores how women's representations of reading negotiate the dynamic relationship between the public and private spheres and investigates how women might have been affected by changing ideas about literacy as well as how they sought to effect change in devotional and literary reading practices. Finally, because the activity of reading is a site of cultural conflict over gender, social and educational status and the religious or national affiliation of readers, Snook brings to light how these women, when they write about reading, are engaged in structuring the cultural politics of early modern England.

Shakespeare from beginners to advanced specialists *Political Culture, the State, and the Problem of Religious War in Britain and Ireland, 1578-1625* R. Malcolm Smuts, 2023-01-24 In the period between 1575 and 1625 civic peace in England Scotland and Ireland was persistently threatened by various kinds of religiously inspired violence involving conspiracies rebellions and foreign invasions Religious divisions divided local communities in all three kingdoms but they also impacted relations between the nations and in the broader European continent The challenges posed by actual or potential religious violence gave rise to complex responses including efforts to impose religious uniformity through preaching campaigns and regulation of national churches an expanded use of the press as a medium of religious and political propaganda improved government surveillance the selective incarceration of English Scottish and Irish Catholics and a variety of diplomatic and military initiatives undertaken not only by royal governments but also by private individuals The result was the development of more robust and resilient although still vulnerable states in all three kingdoms and after the dynastic union of Britain in 1603 an effort to create a single state incorporating all of them R Malcolm Smuts traces the story of how this happened by moving beyond frameworks of national and institutional history to understand the ebb and flow of events and processes of religious and political change across frontiers The study pays close attention to interactions between the political cultural intellectual ecclesiastical military and diplomatic dimensions of its subject A final chapter explores how and why provisional solutions to the problem of violent religiously inflected conflict collapsed in the reign of Charles I
