House Documents, Otherwise Publ. as Executive Documents United States. Congress. House, 1875 **House Documents** USA House of Representatives, 1862 **The Bureaucrats of Buenos Aires, 1769-1810** Susan Migden Socolow, 1987 In this work Susan Socolow examines bureaucrats in early modern society by concentrating on those of Buenos Aires under the Bourbon reforms in the late colonial bureaucracy Socolow studies the individuals who held positions in the colonial civil service their recruitment aspirations job tenure professional advancement and economic position The late eighteenth century was a critical time for the southernmost regions of Latin America for in this period they became a separate political entity the Viceroyalty of the Rio de la Plata Socolow's work part of a continuing study of the political economic and social elites of the emerging city of Buenos Aires here considers the bureaucracy put into place by the Bourbon reforms The author examines the professional and personal circumstances of all bureaucrats from the high ranking heads of agencies to the more lowly clerks contrasting their expectations and their actual experiences She pays particular attention to their recruitment promotion salary and retirement as well as their marriage and kinship relationships in the local society

The Spanish Archives of New Mexico Ralph Emerson Twitchell, 1914 In what follows can be found the doors to a house of words and stories This house of words and stories is the Archive of New Mexico and the doors are each of the documents contained within it Like any house New Mexico's archive has a tale of its own origin and a complex history Although its walls have changed many times its doors and the encounters with those doors hold stories known and told and others not yet revealed In the Archives there are thousands of doors 4 481 that open to a time of kings and popes of inquisition and revolution These archives writes Ralph Emerson Twitchell are by far the most valuable and interesting of any in the Southwest Many of these documents were given a number by Twitchell small stickers that were appended to the first page of each document an act of heresy to archivists and yet these stickers have now become part of the artifact These are the doors that Ralph Emerson Twitchell opened at the dawn of the 20th century with a key that has served scholars policy makers and activists for generations In 1914 Twitchell published in two volumes *The Spanish Archives of New Mexico* the first calendar and guide to the documents from the Spanish colonial period Volume One of the two volumes focuses on the collection known as the Spanish Archives of New Mexico Series I or SANM I an appellation granted because of Twitchell's original compilation and description of the 1 384 documents identified in the first volume of his series *The Spanish Archives of New Mexico* was assembled by the Surveyor General of New Mexico 1854 1891 and the Court of Private Land Claims 1891 1904 The collection consists of civil land records of the Spanish period governments of New Mexico and materials created by the Surveyor General and Court of Private Land Claims during the process of adjudication It includes the original Spanish colonial petitions for land grants land conveyances wills mine registers records books journals dockets reports minutes letters and a variety of other legal documents Each of these documents tell a story sometimes many stories The bulk of the records

accentuate the amazingly dynamic nature of land grant and settlement policies While the documents reveal the broad sweep of community settlement and its reverse effect hundreds of last wills and testaments are included in these records that are scripted in the most eloquent and spiritual tone at the passing of individuals into death These testaments also reveal a legacy of what colonists owned and bequeathed to the next generations Most of the documents are about the geographic political and cultural mapping of New Mexico but many reflect the stories of that which is owned both in terms of commodities and human lives Archives inevitably and these archives more than most help to shape current debates about dispossession the colonial past and the postcolonial future of New Mexico For this reason the task of understanding the role of archives archival documents and the kinds of stories that emanate from them has never been more urgent Let this effort and the key provided by Twitchell in his two volumes open the doors wide for knowledge to be useful today and tomorrow From the Foreword by Estevan Rael Galvez New Mexico State Historian Ugliness? Destroying a Country. The End of Humanized Territory — A New Kind of Inner-Colonialism ,2006
