Mary C. Findley

Mapped For Murder:

Mapped Out Murders Mary C. Findley, 2019-08-18 Sarah Groben is an LAPD Homicide Detective and a Pastor's wife. But she's got six murders she hopes to solve by Sunday. A fledgling group of transplants from 10-40 window countries are being killed because of their Christianity. A Muslim charity interested in better relations with Americans seems to be connected by the death of a former financial manager. Family members of the victims might also end up in the crosshairs if Sarah is right about a Persecutor. For Hire Sarah's partner is down with the flu and her husband Don seems like a tailor-made substitute with his knowledge of Middle Eastern languages and cultures. But the case keeps getting more complicated by the minute and Sarah and Don might not be able to crack it before the killing starts again. Fundamentals of Crime Mapping Rebecca Paynich, Bryan Hill, 2013-03-18 The Second Edition of the popular *Fundamentals of Crime Mapping: Principles and Practice* walks readers through the research theories and history of GIS in law enforcement. This accessible text explains the day-to-day practical application of crime analysis for mapping. Factual data from real crime analysis is included to reflect actual crime patterns, trends, series, and what an officer or analyst can expect to see when he or she sits down to analyze and apply concepts learned. Special topics discussed include an up-to-date discussion of the current crime trends in rural and urban areas, the major ecological theories of crime, the notion of geographic profiling, empirical research using crime mapping tools, basic mapping terminology, and more. New to the Second Edition: All exercises and examples have been updated to reflect ArcGIS 10.0 and Excel 2010. Includes a workbook with engaging exercises to offer hands-on application of the material. All exercises and graphics have been updated to account for ArcGIS 10.0 and Excel 2010, though all exercises and examples for Excel 2007 remain. Contains a NEW chapter discussing the various types of policing with an emphasis on the Compstat process, intelligence-led policing, and problem-oriented policing. **The Grim Reaper's Road Map** Mary Shaw, 2008 An atlas of mortality in Britain based on data from 1981 to 2004, this new study explores causes of death across the UK, including a description of the cause of death, a map, and a cartogram showing the spatial distribution of that cause, a commentary on the pattern observed, and the reason for it. Murder Maps: Crime Scenes Revisited. Phrenology to Fingerprint. 1811-1911 Drew Gray, 2020-10-27 Vivid and intriguing *Murder Maps* plots the nineteenth century's most dramatic murders from around the world onto meticulous diagrams and period maps and recounts the brilliant detective work that solved the cases. Elegant period maps and compelling crime analysis illuminate this disquieting volume, which reexamines the most captivating and intriguing homicides of the nineteenth century. Organized geographically, the elements of each murder, from the prior movements of both killer and victim to the eventual location of the body, are meticulously replotted using archival maps and bespoke plans, taking readers on a perilous journey around the murder hot spots of the world. From the French Ripper, Joseph Vacher, who roamed the French countryside brutally mutilating and murdering at least eleven people, to H. H. Holmes and his Murder Castle in Chicago, crime expert Dr. Drew Gray recounts the details of each case. His forensic examination uncovers

both the horrifying details of the crimes themselves and the ingenious detective work that led to the capture of the murderers Throughout the book Gray highlights the development of police methods and technology from the introduction of the police whistle to the standardization of the mug shot to the use of fingerprinting and radiotelegraphy in apprehending criminals Vividly recreating over one hundred individual murder cases through historic maps photographs newspaper excerpts court papers and police reports Murder Maps is perfect for everyone interested in criminal history forensics or the macabre
