Mapping Literary Modernism Time And Development:

Mapping Literary Modernism Ricardo J. Quinones, 2014-07-14 Professor Quinones describes significant stages in the development of literary Modernism redefining the period as extending from about 1900 to 1940 and beyond and not as an entity centered on the 1920s Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Mapping Literary Modernism Ricardo J. Quinones, 1985 *The Senses of Modernism* Sara Danus, 2002 In *The Senses of Modernism* Sara Danus develops a radically new theoretical and historical understanding of high modernism The author analyses works by Mann Proust and Joyce as narratives of the sweeping changes that affected high and low culture

Mapping Across Academia Stanley D. Brunn, Martin Dodge, 2017-02-10 This book addresses the role and importance of space in the respective fields of the social sciences and the humanities It discusses how map representations and mapping processes can inform ongoing intellectual debates or open new avenues for scholarly inquiry within and across disciplines including a wide array of significant developments in spatial processes including the Internet global positioning system GPS affordable digital photography and mobile technologies Last but not least it reviews and assesses recent research challenges across disciplines that enhance our understanding of spatial processes and mapping at scales ranging from the molecular to the galactic

Modernism and Melancholia Sanja Bahun, 2014 *Modernism and Melancholia* shows how a range of novels from 1913 to 1941 perform melancholia in their diction images metaphors syntax and experimental narrative techniques *Robert Louis Stevenson and the Appearance of Modernism* A. Sandison, 1996-05-21 Despite attracting the admiration of Modernists like Nabokov and Borges Stevenson remains for many an apologist for the lost world of the romance This is not only to misread and simplify his fiction it is greatly to undervalue his lively forward looking literary essays Strenuously resisting the authority of the literary fathers though haunted by the complexities of paternity Stevenson reveals strong affinities with emergent Modernism It is from this perspective that Alan Sandison's latest book the first to appear for nearly thirty years conducts a lively and readable re examination of this often underrated writer *Encyclopedia of Time* Samuel L. Macey, 2013-04-11 In this encyclopedia some 200 international scholars in 360 articles explore subjects such as physics archeoastronomy astronomy mathematics time's measurements and divisions as well as covering other scientific and interdisciplinary areas biology economics and political science horology history medicine geography geology and telecommunications Joyce's Modernist Allegory Stephen Sicari, 2001 This text suggests that James Joyce's famous experiments with style and technique throughout *Ulysses* constitute a series of attempts to find a language adequate to his

purposes a language capable of representing an ideal of behaviour for the modern world *World War I and Southern Modernism* David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region's existing agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles *Sequel to History* Elizabeth Deeds Ermarth, 2020-10-06 *Sequel to History* offers a comprehensive definition of postmodernism as a reformation of time Elizabeth Deeds Ermarth uses a diversified theoretical approach drawing on post structuralism feminism new historicism and twentieth century science to demonstrate the crisis of our dominant idea of history and its dissolution in the rhythmic time of postmodernism She enlarges this definition in discussions of several crises of cultural identity the crisis of the object the crisis of the subject and the crisis of the sign Finally she explores the relation between language and time in post modernism proposing an arresting theory of her own about the rhythmic nature of postmodern temporality Because the postmodern construction of time appears so clearly in narrative writing each part of this work is punctuated by a rhythm section on a postmodern narrative Robbe Grillet's *Jealousy* Cortezar's *Hopscotch* and Nabokov's *Invitation to a Beheading* these extended readings provide concrete illustrations of Ermarth's theoretical positions As in her critically acclaimed *Realism and Consensus in the English Novel* Ermarth ranges across disciplines from anthropology and the visual arts to philosophy and history For its interdisciplinary character and its lucid definition of postmodernism *Sequel to History* will appeal to all those interested in the humanities
